Vehicle Code California,2018 **Abortion to Abolition** Martha Paynter,2022-05-25T00:00:00Z The history of abortion decriminalization and critical advocacy efforts to improve access in Canada deserve to be better known Ordinary people persevered to make Canada the most progressive country in the world with respect to abortion care But while abortion access is poorly understood so too are the persistent threats to reproductive justice in this country sexual violence gun violence homophobia and transphobia criminalization of sex work reproductive oppression of Indigenous women and girls privatization of fertility health services and the racism and colonialism of policing and the prison system This beautifully illustrated book tells the empowering true stories behind the struggles for reproductive justice in Canada celebrating past wins and revealing how prison abolitionism is key to the path forward [Reframing Police Education and Freedom in America](#) Martin Alan Greenberg,Beth Allen Easterling,2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government

local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police

The Nonsense Factory Bruce Cannon Gibney, 2019-05-14 A withering and witty examination of how the American legal system burdened by complexity and untrammelled growth fails Americans and threatens the rule of law itself by the acclaimed author of A Generation of Sociopaths Our trial courts conduct hardly any trials our correctional systems do not correct and the rise of mandated arbitration has ushered in a shadowy system of privatized justice Meanwhile our legislators can't even follow their own rules for making rules while the rule of law mutates into a perpetual state of emergency The legal system is becoming an incomprehensible farce How did this happen In *The Nonsense Factory* Bruce Cannon Gibney shows that over the past seventy years the legal system has dangerously confused quantity with quality and might with legitimacy As the law bloats into chaos it staggers on only by excusing itself from the very commands it insists

that we obey leaving Americans at the mercy of arbitrary power By examining the system as a whole Gibney shows that the tragedies often portrayed as isolated mistakes or the work of bad actors police misconduct prosecutorial overreach and the outrages of imperial presidencies are really the inevitable consequences of law s descent into lawlessness The first book to deliver a lucid comprehensive overview of the entire legal system from the grandeur of Constitutional theory to the squalid workings of Congress The Nonsense Factory provides a deeply researched and witty examination of America s state of legal absurdity concluding with sensible options for reform *Penal Code - Qwik Code California 2014* LawTech

Publishing,2014-01-03 Contains summaries of the enforcement sections from the 2014 California Penal Code and selected provisions from other related codes in a convenient easy to read flip style cover manual *The Politics of Coercion* Neil Loughlin,2024-09-15 In *The Politics of Coercion* Neil Loughlin explains the persistence of Cambodia s authoritarian regime for more than four decades It provides a historically grounded investigation of the country s ruling coalition political elites many drawn from within the state s coercive apparatus who in coordination with state dependent tycoons have come to control Cambodia s politics and its economy Loughlin presents new empirical data foregrounding the coercive underpinnings of the modern Cambodian state and its party the Cambodian People s Party CPP The focus on coercion reflects the regime s conflict and postconflict evolution and extractive political economy as the ruling coalition failed to channel popular interests through its political institutions thus resorting either to low intensity forms of coercion such as intimidation and surveillance or to high intensity coercion such as violent crackdowns and extrajudicial killings Through a critical reevaluation of the regime s origins and evolution in its relationship with citizens *The Politics of Coercion* reconceptualizes the CPP to emphasize the obstacles structural institutional and distributional to building a mass based clientelist or developmentally legitimate authoritarian party *Solidarity Beyond Bars* Jordan House,Asaf Rashid,2022-11-15T00:00:00Z Prisons don t work but prisoners do Prisons are often critiqued as unjust but we hear little about the daily labour of incarcerated workers what they do how they do it who they do it for and under which conditions Unions protect workers fighting for better pay and against discrimination and occupational health and safety concerns but prisoners are denied this protection despite being the lowest paid workers with the least choice in what they do the most vulnerable among the working class Starting from the perspective that work during imprisonment is not rehabilitative this book examines the reasons why people should care about prison labour and how prisoners have struggled to organize for labour power in the past Unionizing incarcerated workers is critical for both the labour movement and struggles for prison justice this book argues to negotiate changes to working conditions as well as the power dynamics within prisons themselves **Ohio State Journal of Criminal Law** ,2015 *Detecting Doping in Sport* Stephen Moston,Terry Engelberg,2016-11-10 The book explores the changing landscape of anti doping investigations which now largely centre on the collection of intelligence about doping through processes such as surveillance interviews with witnesses and interrogation of athletes It examines why and how investigative processes

hitherto typically reserved for serious crimes have been co-opted by anti-doping agencies into a situation where their potential for harm has received little or no critical consideration. This book highlights the opportunities and threats inherent in adopting new investigative processes. It is expected that many of the same problems that have engulfed forensic investigations over the last two decades such as miscarriages of justice are likely to surface in future anti-doping investigations. Drawing on empirical research and theory from a range of disciplines including forensic psychology, criminology, policing, law, sports management and policy studies, this book fills a scholarly vacuum on the investigation of doping through non-biological detection methods. **Identity Theft in the 21st Century** Sarah Machajewski, 2017-07-15

Seasonal Sociology Tonya Davidson, Ondine Park, 2020-08-27 Life in Canada is marked, celebrated, enjoyed, and dreaded in ways that respond specifically to the seasons. Sociological thinking allows people to ask questions about things that may otherwise be taken for granted. Thinking about the seasons sociologically opens up a unique perspective for studying and understanding social life. Each chapter in this collection approaches the seasons and the passage of time as a way to explore issues of sociological interest. The authors use seasonality as a device that can bridge in fascinating ways small-scale interpersonal interactions and large formal institutional structures. These contemporary Canadian case studies are wide-ranging and include analyses of pumpkin spice lattes, policing in schools, law and colonialism, summer cottages, seasonal affective disorder, New Year's resolutions, Vaisakhi celebrations, and more. *Seasonal Sociology* offers provocative new ways of thinking about the nature of our collective lives. *Outrage* Paul Rollier, Kathinka Frøystad, Arild Engelsen Ruud, 2019
