Constructing Capitalisms Transforming Business Systems In Central And Eastern Europe:

Constructing Capitalisms Roderick Martin, 2013-03-28 This book provides an analysis of the changes in business systems of four Central and Eastern European countries Poland Hungary the Czech Republic and Romania since the fall of Communism in 1989 drawing on the Varieties of Capitalism debate

The Legal and Institutional Framing of Collective Bargaining in CEE Countries Ivana Palinkaš, 2018-04-09 The formerly communist countries of Central and Eastern Europe CEE have witnessed a profound transformation of their labour laws since the 1990s and especially after their accession to the European Union Today in comparison to the other Member States they continue to have weak trade unions and employers associations and an underdeveloped system of collective bargaining Moreover the recent economic and financial crisis highlighted the need to invest further efforts in bringing the CEE industrial relations closer to the old Member States in order to facilitate a more meaningful enforcement of the EU wide economic and social policies This is the first book to scrutinise this important matter in depth Focusing on four current CEE labour law regimes in Slovenia Slovakia the Czech Republic and Poland that also have different collective bargaining trends and can be said to exemplify some of the main legal and institutional frameworks for collective bargaining that the CEE countries have developed the author addresses the following major issues the transition from a centralised to an open market economy and the degree of continuing residual characteristics the extent to which labour laws since the 1990s have enabled an adequate institutionalisation of industrial relations to allow free and voluntary collective bargaining at the national sectoral and company levels and the effectiveness of the standard setting role of trade unions and employers associations insofar as they have persisted or come into play The analysis always keeps in focus the development of labour laws in relation to a number of such interlinked elements as market transformation type of privatisation of state ownership and attitudes towards welfare It draws on both the relevant literature and on twenty five interviews with legal and policy experts from social partners organisations and staff within the ministries for social affairs in the selected countries In support of the study's general finding that the laws in CEE countries could provide more stimulus for sectoral and cross sectoral collective bargaining the author offers deeply informed recommendations and insights into legal shortcomings and pinpoints how the existing legal frameworks can be enhanced Any professional or academic in the field of industrial relations and particularly those concerned with complex transitions such as those occurring in the CEE countries and elsewhere in the world will find this book of great value

Handbook of the International Political Economy of the Corporation Andreas Nölke, Christian May, 2018-09-28 Over the past few decades corporations have been neglected in studies of international political economy IPE Seeking to demystify them what they are how they behave and their goals and constraints this Handbook introduces the corporation as a unit of analysis for students of IPE Providing critical discussion of their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio political environment this Handbook presents a thorough and up to date

overview of the main debates around the role of corporations in the global political economy **Crashed** Adam Tooze, 2018-08-07 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it One of the great strengths of Tooze s book is to demonstrate the deeply intertwined nature of the European and American financial systems The New York Times Book Review From the prizewinning economic historian and author of *Shutdown* and *The Deluge* an eye opening reinterpretation of the 2008 economic crisis and its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today We live in a world where dramatic shifts in the domestic and global economy command the headlines from rollbacks in US banking regulations to tariffs that may ignite international trade wars But current events have deep roots and the key to navigating today s roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath Despite initial attempts to downplay the crisis as a local incident what happened on Wall Street beginning in 2008 was in fact a dramatic caesura of global significance that spiraled around the world from the financial markets of the UK and Europe to the factories and dockyards of Asia the Middle East and Latin America forcing a rearrangement of global governance With a historian s eye for detail connection and consequence Adam Tooze brings the story right up to today s negotiations actions and threats a much needed perspective on a global catastrophe and its long term consequences **Neoliberal Resilience** Aldo Madariaga, 2020-09 The puzzling resilience of neoliberalism Explaining the resilience of neoliberalism Neoliberal policies and supporting actors Neoliberal resilience and the crafting of social blocs Creating support privatization and business power Blocking opposition political representation and limited democracy Locking in neoliberalism independent central banks and fiscal spending rules Lessons Neoliberal resilience and the future of democracy **The Sociology of Development Handbook** Gregory Hooks, 2016-09-06 This handbook brings together essays by leading contributors to development sociology by addressing intellectual challenges internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality The Sociology of Development Handbook includes essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development Provided by publisher **Central and Southeast European Politics Since 1989** Sabrina P. Democratic and Capitalist Transitions in Eastern Europe M. Dobry, 2012-12-06 here ofexchange and borrowing in debates between these disciplines all the more so as we shall see a little further on as the analysis of the Central and East European transformations has also contributed to introduce into political science and sociology theoretical systematizations first formulated in economics In addition to this opening up to the objects and theories of economics the pseudo dilemma of simultaneity produced by a kind of feedback another series of effects on transitology and the related research domains Contrary to most expectations and predictions in the wake of the 1989 upheavals affirmations that the dilemmas problems or challenges of the transitions in Central and Eastern Europe ought to have been dealt with and resolved one after the other in sequence in the manner of the more or less idealized trajectories of Great Britain or Spain trajectories significantly enough promoted far beyond the circles of scholars as a model of transition and above all contrary to the assumption that superposing a radical economic transformation upon a transition to democracy would make the whole edifice thoroughly unworkable unstable or dangerous it must be stated clearly out that the two processes in their simultaneity are not necessarily incompatible This is one of the main findings stressed upon in several chapters of this book

Transformation at Work Anna Pollert, 2000-01-13 The book is well written and clearly structured bringing together much dispersed material The most interesting part of the book is the case study of the Czech engineering firm CKD The case study gives an insight into the continuing processes of transition transition is a process rather than a jump from Socialism to capitalism The author provides solid evidence on the ways in which adjusting to the market has proved painful and in the end unsuccessful for CKD which has been merged with another firm Overall Transformation at Work provides a valuable insight into the realities of the transition process at the enterprise level

Employee Relations In this book Anna Pollert questions the values hidden in the burgeoning literature on transformation and addresses the main concerns arising from these In exploring the key issues of post communist transformation the author discusses important theoretical issues about the nature of change and continuity such as historical socio economic and political effects of transformation the broad problems of how workers and their organizations respond to change from command to capitalist economies and case studies of how managers workers and trade unionists experience these changes within their organizations Transformation at Work explores the key issues of post communist transformation in Eastern Europe The author discusses important aspects of the nature of change and continuity including historical socio economic and political effects how workers and their organizations respond to change from command to capitalist economies and how

managers workers and trade unionists experience change within their organizations

Reflections on 1989 in Eastern Europe Terry Cox, 2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of Europe Asia Studies

Building Capitalism Anders Åslund, 2002 *Building Business in Post-Communist Russia, Eastern Europe, and Eurasia* Dinissa Duvanova, 2013-02-18 Prior to 1989 the communist countries of Eastern Europe and the USSR lacked genuine employer and industry associations After the collapse of communism industry associations mushroomed throughout the region Duvanova argues that abusive regulatory regimes discourage the formation of business associations and poor regulatory enforcement tends to encourage associational membership growth Academic research often treats special interest groups as vehicles of protectionism and non productive collusion This book challenges this perspective with evidence of market friendly activities by industry associations and their benign influence on patterns of public governance Careful analysis of cross national quantitative data spanning more than 25 countries and qualitative examination of business associations in Russia Ukraine Kazakhstan and Croatia shows that postcommunist business associations function as substitutes for state and private mechanisms of economic governance These arguments and empirical findings put the long standing issues of economic regulations public goods and collective action in a new theoretical perspective
