one hour interviews Interviews were audio recorded transcribed and coded into categories using a general inductive approach Using the qualitative analysis software NVIVO to assist in data analysis themes and subthemes emerged Results suggested that considerable barriers exist among the representatives for supplying fresh affordable produce in Phoenix area food deserts including minimum delivery requirements beyond the needs of the average small store a desire to work with high volume customers due to transportation and production costs and the higher price point of produce for both store owners and consumers Conversely opportunities were identified that could be important in overcoming such barriers including tax or economic incentives that would make distribution into food deserts financially viable infrastructural support for the safe handling and storage of fresh foods at existing retail outlets and the development of novel distribution mechanisms for producers such as mobile markets and food hubs Future research is needed to determine if these findings are representative of a larger more diverse sample of Arizona produce supply chain representatives

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
