## **Christian Humanism Creation Redemption And Reintegration:**

*Christian Humanism* John P. Bequette, 2007 In *Christian Humanism* John Bequette articulates the principles of the Christian humanist worldview and reflects upon contemporary culture in light of these principles Writing from the perspective of the Catholic faith Bequette focuses on the healing and restorative dimensions of Christianity in relation to academics literature economics Christian Jewish relations gender issues human life issues and political life

*Re-envisioning Christian Humanism* Jens Zimmermann, 2017 Since the early 1980s there has been renewed scholarly interest in the concept of Christian Humanism A number of official Catholic documents have stressed the importance of Christian humanism as a vehicle of Christian social teaching and indeed as a Christian philosophy of culture Fundamentally humanism aims to explore what it means to be human and what the grounds are for human flourishing Featuring contributions from internationally renowned Christian authors from a variety of disciplines in the humanities *Re Envisioning Christian Humanism* recovers a Christian humanist ethos for our time The volume offers a chronological overview from patristic humanism to the Reformation and beyond and individual examples Jewell Calvin of past Christian humanisms The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education [Shared Mission](#) Leonardo Franchi, 2024-05-17 This book is a contribution to scholarship in the field of religious education Its aim is simple to offer a critical perspective on the nature of religious education in the light of contemporary developments in Catholic thinking in catechesis and wider thinking in education The issues raised in the book will provide ample material for fruitful dialogue and constructive debate in the world of Catholic education Part One revolves around four historical contexts selected specifically to illuminate contemporary developments in the field While these historical periods have porous boundaries they offer a working structure in support of the core claims of the book Part Two explores the complex genealogy of the relationship between catechesis and Religious Education Key thematic frames of reference within which the relevant Magisterial documents and associated academic literature are set out and explored chronologically thus allowing for some cross referencing across the themes unsurprisingly the range of the issues for debate resists a neat packaging within specific time frames but does provide a helpful working structure Part Three proposes that a Spirituality of Communion should underpin the Church's work in catechesis education and Religious Education *Shared Mission* seems to be a satisfactory articulation of the necessary dialogic relationship between both fields and offers a suitable space for both distinction and reciprocity The revised edition contains an appendix on the Global Compact on Education *New Dictionary of Theology* Martin Davie, Tim Grass, Stephen R. Holmes, John McDowell, Thomas A. Noble, 2016-04-27 This classic one volume reference work is now substantially expanded and revised to focus on a variety of theological themes thinkers and movements From African Christian Theology to Zionism this volume of historical and systematic theology offers a wealth of information and insight for students pastors and all thoughtful Christians **Mission, Communion and Relationship** Peter

Addai-Mensah, 2009 *Mission Communion and Relationship* addresses the urgent need for the churches in Africa to positively respond to the crisis confronting the continent's young men. It calls for the church to commit itself to providing alternatives to the various crises confronting male youths in Africa: dislocation, illiteracy, streetism, unemployment, emigration, crime, imitation of foreign cultures, consumerism, drug abuse, promiscuity, and HIV/AIDS. *Mission Communion and Relationship* argues that communion and solidarity with male youths is a missiological imperative of the Roman Catholic Church in Africa, which must work in concert with other Christian denominations as well as Muslim and African Traditional Religion leaders. This interdisciplinary book brings together insights from ecclesiology, church history, theological anthropology, and the social sciences, as well as African and Western philosophy, with concrete ecclesial and human experiences. *Mission Communion and Relationship* sets forth a framework for dealing with the cultural formation and religious development of male youths in ways that are authentically African and Christian, socially oriented, and pastorally engaged.

*The Business Francis Means* Martin Schlag, 2017-11-08. An overview of Pope Francis's teachings on money and morality that bridges the gap between political sides. Pope Francis generally speaking has thus far chosen to concentrate his papacy on social justice issues, as opposed to doctrinal or liturgical issues. This has led to Francis being hailed as a hero to many on the left, while it has made some conservative supporters of St. John Paul II and Pope Emeritus Benedict XVI disappointed and uncomfortable, even as they love and appreciate his person and gestures of mercy and compassion. Some find his teachings difficult to embrace, especially those concerning business and the economy. Pope Francis has spoken of building bridges as part of what it is to be Christian, but aspects of his message seem to be just constructing walls between the Holy Father and groups of the faithful. *The Business Francis Means* aims to break through these walls, showing that Pope Francis has something to say to all Christians. His message, taken as a whole, keeps us from dividing the seamless garment of Christ; he reminds the conservatives of the problems of inequality and poverty, and the liberals that social justice is not enough: the Church is the bride of Christ, not a social institution or an NGO. Martin Schlag summarizes and explains the message of Pope Francis on business and the economy in this compact volume. *The Business Francis Means* will be of great interest to the Catholic layperson, especially one involved in political or economic life.

**Dignity and Destiny** John F. Kilner, 2015-01-08. Misunderstandings about what it means for humans to be created in God's image have wreaked devastation throughout history: for example, slavery in the U.S., genocide in Nazi Germany, and the demeaning of women everywhere. In *Dignity and Destiny*, John Kilner explores what the Bible itself teaches about humanity being in God's image. He discusses in detail all of the biblical references to the image of God, interacts extensively with other work on the topic, and documents how misunderstandings of it have been so problematic. People made according to God's image, Kilner says, have a special connection with God and are intended to be a meaningful reflection of him. Because of sin, they don't actually reflect him very well, but Kilner shows why the popular idea that sin has damaged the image of God is mistaken. He also clarifies the biblical difference between being God's image, which Christ is

and being in God's image which humans are. He explains how humanity's creation and renewal in God's image are central respectively to human dignity and destiny. Locating Christ at the center of what God's image means, Kilner charts a constructive way forward and reflects on the tremendously liberating impact that a sound understanding of the image of God can have in the world today.

**The Victorian Ghost Story and Theology** Zoe Lehmann Imfeld, 2016-07-27 This book argues that theology is central to an understanding of the literary ghost story. Victorian ghost stories have traditionally been read in the context of agnosticism as stories which reveal a society struggling with Christian orthodoxy in a new Enlightened world. This book however uses theological ideas from St Augustine through to modern theologians to identify a theological journey taken by the protagonists of such stories and charts each stage of this journey through the short stories it examines. It also proposes a theory of reader participation which creates an imaginary space in which modern epistemology is suspended. The book studies the work of four major authors of the supernatural tale: Arthur Machen, M. R. James, Sheridan Le Fanu and Henry James.

**Mainline Christians and U.S. Public Policy** Glenn H. Utter, 2007-07-26 This insightful reference work explores the relationship between mainline Christian denominations and U.S. politics and public policy from colonial times to the present. Mainline Christian Values and U.S. Public Policy: A Reference Handbook provides a revealing and unbiased look at the emergence of Christian denominations as a political force primarily from the late 19th century to the present. The book examines the origins, development, current organization and activities, and future prospects of nine mainline U.S. denominations: the American Baptist Churches in the U.S.A., the Catholic Church, the Christian Church, the Episcopal Church, the Evangelical Lutheran Church in America, the Presbyterian Church, the Reformed Church in America, the United Church of Christ, and the United Methodist Church. Readers will encounter a surprising variety of Christian voices offering a range of positions on the Iraq War, abortion, same sex marriage, global warming, stem cell research, the death penalty, and other controversial issues.

Godde,2022-04-01 At the forefront of science and technology there lie competing ideologies as to the nature of humanity and the future of human flourishing Will technology become the ultimate savior or has the work of salvation already been accomplished Are we only creatures of mind and body or are we spiritual beings at our core Reaching for Immortality bravely examines the agenda and ideals of the transhumanist movement and compares and contrasts these with the biblical vision of a physical resurrection and a divine upgrade of the entire created order Which vision of the future will inspire you and capture your allegiance This book is a primer to provoke deep thought about the impact of technological change on human personhood and asks crucial questions facing our age What does it mean to be human in light of exponential technological growth What is transhumanism and where is it leading us How important is embodiment for our personal identity How would the biblical understanding of personhood survive in a posthuman future *Religion Index One* ,1983 *Paul Tillich, Carl Jung and the Recovery of Religion* John P. Dourley,2008-06-30 Is religion a positive reality in your life If not have you lost anything by forfeiting this dimension of your humanity This book compares the theology of Tillich with the psychology of Jung arguing that they were both concerned with the recovery of a valid religious sense for contemporary culture Paul Tillich Carl Jung and the Recovery of Religion explores in detail the diminution of the human spirit through the loss of its contact with its native religious depths a problem on which both spent much of their working lives and energies Both Tillich and Jung work with a naturalism that grounds all religion on processes native to the human being Tillich does this in his efforts to recover that point at which divinity and humanity coincide and from which they differentiate Jung does this by identifying the archetypal unconscious as the source of all religions now working toward a religious sentiment of more universal sympathy This book identifies the dependence of both on German mysticism as a common ancestry and concludes

with a reflection on how their joint perspective might affect religious education and the relation of religion to science and technology Throughout the book John Dourley looks back to the roots of both men s ideas about mediaeval theology and Christian mysticism making it ideal reading for analysts and academics in the fields of Jungian and religious studies
