After the Public Turn Frank Farmer, 2013-04-15 In *After the Public Turn* author Frank Farmer argues that counterpublics and the people who make counterpublics citizen bricoleurs deserve a more prominent role in our scholarship and in our classrooms Encouraging students to understand and consider resistant or oppositional discourse is a viable route toward mature participation as citizens in a democracy Farmer examines two very different kinds of publics cultural and disciplinary and discusses two counterpublics within those broad categories zine discourses and certain academic discourses By juxtaposing these two significantly different kinds of publics Farmer suggests that each discursive world can be seen in its own distinct way as a counterpublic an oppositional social formation that has a stake in widening or altering public life as we know it Drawing on major figures in rhetoric and cultural theory Farmer builds his argument about composition teaching and its relation to the public sphere leading to a more sophisticated understanding of public life and a deeper sense of what democratic citizenship means for our time

Language, Culture, Identity and Citizenship in College Classrooms and Communities Juan C. Guerra, 2015-10-05 *Language Culture Identity and Citizenship in College Classrooms and Communities* examines what takes place in writing classrooms beyond academic analytical and argumentative writing to include forms that engage students in navigating the civic political social and cultural spheres they inhabit It presents a conceptual framework

for imagining how writing instructors can institute campus wide initiatives such as Writing Across Communities that attempt to connect the classroom and the campus to the students various communities of belonging especially students who have been historically underserved This framework reflects an emerging perspective writing across difference that challenges the argument that the best writing instructors can do is develop the skills and knowledge students need to make a successful transition from their home discourses to academic discourses Instead the value inherent in the full repertoire of linguistic cultural and semiotic resources students use in their varied communities of belonging needs to be acknowledged and students need to be encouraged to call on these to the fullest extent possible in the course of learning what they are being taught in the writing classroom Pedagogically this book provides educators with the rhetorical discursive and literacy tools needed to implement this approach *Disrupting Pedagogies in the Knowledge Society: Countering Conservative Norms with Creative Approaches* Faulkner, Julie, 2011-12-31 This book examines a range of disruptive approaches exploring how challenge dissonance and discomfort might be mobilized in educational contexts in order to shift taken for granted attitudes and beliefs held by both educators and learners Provided by publisher **Writing for Engagement** Mary P. Sheridan, Megan J. Bardolph, Megan Faver Hartline, Drew Holladay, 2018-05-07 Engagement is trendy Although paired most often with community diverse invocations of engagement have gained cache capturing longstanding shifts toward new practices of knowledge making that both reflect and facilitate multiple ways of being an academic Engagement functions as a gloss for these shifts addressing more expansive understandings of where how and with whom we research teach and partner This book examines these shifts locating them within socio economic trends within and beyond the higher educational landscape with particular focus on how they have been enacted within the diverse subfields of writing studies In so doing this book provides concrete models for enacting these new responsive practices thereby encouraging scholars to examine how they can facilitate writing for social action through taking positions building relationships and crossing boundaries Gravyland Stephen Parks, 2010-03-26 In Gravyland Parks chronicles the history of an urban university writing program and its attempt to develop politically progressive literacy partnerships with the surrounding community while having to work within and against a traditional educational and cultural landscape He details the experience of Temple University's New City Writing program from its beginning as a small institute with one program at a local public school to a multifaceted organization supported by large multiyear grants and establishing partnerships across the diverse neighborhoods of Philadelphia The author describes classrooms where the community takes a seat and becomes part of the conversation a conversation that readers of Gravyland share through the inclusion of a selection of passages produced by community writers published by New City Community Press While Parks celebrates classroom success in generating knowledge through dialogue with the larger community he also highlights many of the obstacles the organizers of the New City Writing program faced The author shows that writing alliances between universities and communities are possible but

they must take into account the institutional economic and political pressures that accompany such partnerships Blending the theoretical and practical lessons learned Parks elucidates New City Writing s effort to offer a new model of education one in which the voice of the professor must share space with the voices of the community and one in which students come to understand that the right to sit in a classroom is the result not just of nationalist war but of peaceful civil disobedience of community struggles to gain self recognition and of collective efforts to seek social justice

An Alternate Pragmatism for Going Public Jim Webber,2018-03-15 An Alternate Pragmatism for Going Public interrogates composition s most prominent responses to contemporary K 16 education reform By going public teachers scholars and administrators rightfully reassert their expertise against corporate political standards and assessments like the Common Core Complete College America and the Collegiate Learning Assessment However author Jim Webber shows that composition s professional imperative for self defense only partly fulfils the broader aims of going public which include fostering public participation that can assess and potentially affirm the public good of professional judgment Drawing on the pragmatic democratic tradition Webber envisions an alternate rhetoric of professionalism one that not only reasserts compositionists expertise but also expands opportunities for publics to authorize this expertise While this public inquiry and engagement may not safeguard professional standing against neoliberal reform it reorients composition toward an equally important goal enabling publics to gauge the adequacy of the educational standardization so often advocated by contemporary reform An Alternate Pragmatism for Going Public shows how public engagement can serve composition s efforts related to going public
