**Cyberactivism** MARTHA MCCAUGHEY, Michael Ayers, 2013-08-21 Cyberactivism is a timely collection of essays examining the growing importance of online activism The contributors show how online activists have not only incorporated recent technology as a tool for change but also how they have changed the meaning of activism what community means and how they conceive of collective identity and democratic change Topics addressed range from the Zapatista movement's use of the web to promote their cause globally to the establishment of alternative media sources like indymedia.org to the direct action of hacktivists who disrupt commercial computer networks Cyberactivism is essential reading for anyone interested in understanding the impact of the Internet on politics today

**Community Practice in the Network Society** Peter Day, Doug Schuler, 2004-08-02 Community Practice in the Network Society looks at the broad context in which this is happening presents case studies of local projects from around the world and discusses community ICT research methodologies

**ICTs for Inclusive Communities in Developing Societies** Darelle van Greunen, Jacques Steyn, 2015-11-25 Several decades of international aid predominantly granted by the highly developed world the haves for the use of ICT in developing regions known by several labels such as the have nots bottom of the pyramid the south or some time ago the third world have passed but the holy grail of turning these societies into the ideals defined by the donors is still elusive Previously the emphasis was on top down approaches in this endeavour Now priority is increasingly given to bottom up approaches putting the targeted communities first using methods such as co creation and living labs Information and Communication Technologies for Development ICT4D is still a domain in search of a common ground The many different perspectives from diverse ideologies paradigms and theoretical perspectives here lead to an interesting debate but meanwhile agents of social change are doing their best to change communities ostensibly for the better An ongoing endeavour this discussion requires further investigation of the complexities of techno societies The contributions to this volume range from explorations of theory models and methods to investigations into the practical implementation of ICT in communities covering the characteristics of social groups and different generations and gender issues as well as its applications in education and health As such the contributions in this book will inform continuing debates concerning the role of ICT in developing communities on the wrong side of all the technical and social divides in human societies

**Technology and Social Inclusion** Mark Warschauer, 2004-09-17 Much of the discussion about new technologies and social equality has focused on the oversimplified notion of a digital divide Technology and Social Inclusion moves beyond the limited view of haves and have nots to analyze the different forms of access to information and communication technologies Drawing on theory from political science economics sociology psychology communications education and linguistics the book examines the ways in which differing access to technology contributes to social and economic stratification or inclusion The book takes a global perspective presenting case studies from developed and

developing countries including Brazil China Egypt India and the United States A central premise is that in today's society the ability to access adapt and create knowledge using information and communication technologies is critical to social inclusion This focus on social inclusion shifts the discussion of the digital divide from gaps to be overcome by providing equipment to social development challenges to be addressed through the effective integration of technology into communities institutions and societies What is most important is not so much the physical availability of computers and the Internet but rather people's ability to make use of those technologies to engage in meaningful social practices
