Comparative Politics In Transition 7th Edition:

Comparative Politics in Transition John McCormick, 2012-01-01 The Seventh Edition of COMPARATIVE POLITICS IN TRANSITION combines a thematic framework with a country by country approach to provide a thoughtful and effective introduction to Comparative Politics that is appropriate for students new to the study of political science The author uses an arenas classification to organize and frame the systematic comparative analysis rather than the traditional three worlds framework This classification more accurately reflects the contemporary political economic and social realities of different political systems allowing the author to provide historical theoretical and conceptual background through ten in text country case studies Unlike most other comparative politics texts McCormick provides a balanced study of the Western and non Western world and explores the politics and government of Islam and of failed states Important Notice Media content referenced within the product description or the product text may not be available in the ebook version Decolonisation

after Democracy Laurence Piper, 2020-05-21 Decolonisation after Democracy addresses the provocative idea that we need to rid higher education of lingering forms of colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of Politikon **From Political**

Monolithism to Multiparty Autocracy: The Collapse of the Democratic Dream in Congo-Brazzaville Rufin

Batota-Mpeho, 2014-05-05 Multiparty democracy that swept across Africa in the early 1990s created a momentum similar to that of the 1960s Lumumba Kasongo 1998 The Sovereign National Conference of Brazzaville in 1991 marked the end of successive and unsuccessful monolithic powers that led the Congo to political disarray and economic disintegration since the 1960s and the beginning of a new era that of multiparty democracy The democratic dream came true Marxist Leninism marred with dictatorship and military coups was defeated The Congolese people started to enjoy freedom of speech and vote that was confiscated since 1963 No sooner did the Congo start savouring the flavour of democracy than its path was strewn with obstacles The move from political culture to economic performance ethno regional identities the French foreign policy

the role of militias and the institutional design contributed to its failure The 1997 civil war left the democratic dream in shambles and paved the way for a multiparty autocracy

describe the fortunes and calamities of a state that was assembled by the British in the wake of World War I and which today faces what may be the most serious threat to survival that it has ever known Featuring Dawisha s insightful new afterword on recent political developments Iraq is required reading for anyone seeking to make sense of what s going on in Iraq today and why it has been so difficult to create a viable government there **Latin American Political History** Ronald M.
