Competence-based Assessment Techniques Kurt Herberts, 1958 Game-Based Assessment Revisited Dirk Ifenthaler, Yoon Jeon Kim, 2019-11-05 The capabilities and possibilities of emerging game based learning technologies bring about a new perspective of learning and instruction This in turn necessitates alternative ways to assess the kinds of learning that are taking place in the game based environments The field has been broadening the focus of assessment in game environments i.e. what we measure developing processes and methodologies that go beyond psychometrics practices i.e. how we go about assessment in games and implementing the game based assessment GBA in real contexts The current state of the field calls for a revisit of this topic to understand what we have learned from the research on this topic and how the GBA work changed how the field thinks about assessment beyond game environments Accordingly this comprehensive volume covers the current state of research methodology and technology of game based assessment It features four major themes what we are measuring in games how GBA has influenced how people do assessment beyond games new methods and practices and implementations of GBA The audience for this volume includes researchers graduate students teachers and professional practitioners in the areas of education instructional design educational psychology academic and organizational development and instructional technology **Innovative Practices for Higher Education Assessment and Measurement**

Cano, Elena, Ion, Georgeta, 2016-07-18 Both educators and their students are involved in the process of assessment all parties are expected to meet and exceed expectations in the face of competing conditions New practices are being developed to enhance students participation especially in their own assessment be it through peer review reflective assessment the introduction of new technologies or other novel solutions Though widely researched few have measured these innovations effectiveness in terms of satisfaction perceived learning or performance improvements Innovative Practices for Higher Education Assessment and Measurement bridges the gap between political discourse theoretical approach and teaching practices in terms of assessment in higher education Bringing new insights and presenting novel strategies this publication brings forth a new perception of the importance of assessment and offers a set of successful innovative practices This book is ideal for educators administrators policy makers and students of education Competence-Based Assessment Wolf, Alison, 1995-01-01 Competence based assessment is the cornerstone of the UK Government's reforms of vocational training and of non academic full time education post 16 Australia has adopted similar policies and there is considerable interest in the notion of competence in both Europe and North America Alison Wolf describes the main characteristics of the

competence based approach as it has emerged in the UK and traces its origins in American experimental programmes of the 1970s The arguments for the approach are discussed in detail Many of these arguments derive from the demonstrable limitations of more conventional assessment especially in predicting work performance She then analyses the theoretical assumptions which competence based assessment shares with the criterion referenced movement as a whole distinguishing clearly between those claims which can be sustained and those which cannot She also synthesizes the growing body of evidence on implementation Many lessons have now been learned about whether and how one can establish a workable robust and reliable competence based system It has become evident both that the preconditions for success are often missing and that if they are ignored competence based reforms may have largely negative consequences The final chapter reviews the prospects for competence based awards and offers some conclusions on what is essential to a competence based approach
