## **Competency Based Nursing Education Guide To Achieving Outstanding Learner Outcomes:**

**Competency Based Nursing Education** Marion G. Anema, Jan L. McCoy, 2009-10-26 The need for competency based education CBE in nursing has been recognized for years CBE provides a way to help ensure that learners are competent at the end of educational endeavors This book is designed as a resource for nurse educators who are responsible for diverse education programs Authors Anema and McCoy bring together all the elements of CBE and provide a road map to develop implement and evaluate competency based approaches to nursing education The book provides valuable guidelines for developing organizational strategies new care delivery approaches and project planning tools Guidance on performance assessment tools and data collection is also included Key features Explains why CBE is needed and how it can help improve current education programs Presents practical guidelines on how to transition to the CBE approach Provides helpful guidance on developing valid and reliable assessments Includes critical information on data collection and the use of data to verify achievement of outcomes Contains practice activities at the end of each chapter to simulate real life situations Fast Facts for Curriculum Development in Nursing, Second Edition Jan L. McCoy, Marion G. Anema, 2018-01-28 Updated and revised to meet all current standards This is a concise step by step guide for novice nurse educators on the development of new programs and curricula or the revision of existing ones that meet the standards of the National Council of State Boards of Nursing the CNEA the ACEN and the CCNE The second edition of this quick access guide is updated to meet all new and revised standards for program approval and covers the full scope of the development process from conception through evaluation The resource's thoughtful organization and bullet point format enable users to access the information they need in seconds and an abundance of updated examples clarify each step of the way The book uses concepts and principles of Systems Theory to guide curriculum development and evaluation It addresses the major components of the educator role teaching curriculum developing a mission statement and program philosophy selecting an organizational framework using information technology and evaluating both students and programs It stresses use of evaluation procedures in which decisions are based on data Each step of the process is organized into manageable parts that build upon each other instilling the confidence and know how to build quality programs Chapters define key terms summarize important points and list resources for additional study New to the Second Edition Meets all of the new and revised standards for program approval according to the National State Boards of Nursing the CNEA the ACEN and the CCNE Features updated examples demonstrating each step of the process Highlights collaborative curriculum development Includes New guidelines for each step of the process Introduces Career Ladder and Design Learning Discusses Educational Competency Outcomes *The Practitioner as Teacher - Updated Edition* Brian Dolan, Sue Hinchliff, 2017-04-20 Mentors for student nurses and newly registered nurses will welcome the revised fourth edition of this trusted handbook on how to teach others peers students patients and relatives It is written in a user friendly style talking through strategies with the reader This is a practical How to

guide rather than an academic treatise with particular emphasis on the use of competencies Learning objectives begin each chapter Sets teaching within the context of nursing and education Aids the teaching of reflective practice Activities and exercises reinforce learning Cartoons illustrate significant points Kirkpatrick evaluation model Competency based practice SCARF Status Certainty Autonomy Relatedness and Fairness in education Revalidation with the NMC Accreditation of Prior Experiential Learning APEL

European Psychiatric/Mental Health Nursing in the 21st Century José Carlos Santos, John R. Cutcliffe, 2018-02-01 This groundbreaking first volume of the Series has a number of features that set it apart from other books on this subject Firstly it focuses on interpersonal humanistic and ecological views and approaches to P MH nursing Secondly it highlights patient client centered approaches and mental health service user involvement Lastly it is a genuinely European P MH nursing textbook the first of its kind largely written by mental health scholars from Europe although it also includes contributions from North America and Australia New Zealand Focusing on clinical practical issues theory and empirical findings it adopts an evidence based or evidence informed approach Each contribution presents the state of the art of P MH nursing in Europe so that it can be transferred to and implemented by P MH nurses and the broader mental health care community around the globe As such it will be the first genuinely 21st century European Psychiatric Mental Health Nursing book

Fast Facts for Curriculum Development in Nursing Jan L. McCoy, Marion G. Anema, 2012-06-20 This new addition to the Fast Facts series is a pithy guide for novice nurse educators to the development revision and evaluation of programs and curricula that meet the standard requirements of the National Council of State Boards of Nursing the NLNAC and CCNE Applying the concepts and principles of Systems Theory the guide moves through the development process to include evaluation procedures where decisions are based on data It addresses the common definitions of curriculum how to design a curriculum and how to design courses in accordance with the organizing elements of the program The guide covers the purposes and development of a mission statement and of a program philosophy as well as how to select an organizational framework Curriculum implementation and faculty development requirements are also explored in addition to educational and program outcomes and their evaluation Organized for quick access and ease of use each chapter defines key terms summarizes important points and lists resources for additional study Key Features Designed for use by all nursing educators regardless of educational environment or type of learner Breaks each step of the program development process into manageable parts that build on each other Uses concepts and principles of Systems Theory to guide curriculum development and evaluation Assists new nurse educators in quickly identifying the individual elements of a program and grasping the connections between them
