the Republic and the People's Republic      *Faces of Tradition in Chinese Performing Arts* Levi S. Gibbs, 2020-02-11 *Faces of Tradition in Chinese Performing Arts* examines the key role of the individual in the development of traditional Chinese performing arts such as music and dance. These artists and their artistic works, the faces of tradition, come to represent and reconfigure broader fields of cultural production in China today. The contributors to this volume explore the ways in which performances and recordings, including singing competitions, textual anthologies, ethnographic videos, and CD albums, serve as discursive spaces where individuals engage with and redefine larger traditions and themselves. By focusing on the performance scholarship, collection and teaching of instrumental music, folksong, and classical dance from a variety of disciplines, these case studies highlight the importance of the individual in determining how traditions have been and are represented, maintained, and cultivated.

**Among Herders of Inner Mongolia** Christel Braae, 2017-10-20 This is a study of a unique collection of Inner Mongolian artifacts at the National Museum of Denmark. They are described, analyzed, and presented in a catalogue of more than 800 items documenting the daily life of pastoral society in and around the tent, the herding of the animals, caravan trade, and in hunting, crafts, sports, and games, and in ritual life. Information about the objects was obtained during two expeditions to Inner Mongolia in the 1930s led by the Danish author Henning Haslund Christensen, who had many years' experience of travel and expedition life in Mongolia. This is also a detailed account of the expeditions, the routes, means, and measures, as well as the worries and hopes of the participants, of their struggles with scientific aspirations, and of the conditions for collecting against the backdrop of the Chinese civil war and the Japanese occupation. The First and Second Danish Expeditions to Central Asia took place in 1936, 1937, and 1938, 1939 respectively. These expeditions were the sole foreign parties with access to the area at the time, and therefore their members were among the few observers of Inner Mongolian pastoral society at a time and place for which information was and still is scant and fragmented. Hence, the material objects and data obtained are of great scientific importance in the documentation of the life and material culture of Inner Mongolian herders in the 1930s, the main subject of the present book.

**Qing Imperial Illustrations of Tributary Peoples (Huang Qing zhigong tu)**, 2022-08-15 Commissioned by the Qianlong emperor in 1751, the *Qing Imperial Illustrations of Tributary Peoples* (*Huang Qing zhigong tu*) is a captivating work of art and an ideological statement of universal rule, best understood as a cultural cartography of empire. This translation of the ethnographic texts, accompanied by a full-color reproduction of Xie Sui's hand-painted scroll, helps us to understand the conceptualization of imperial tributary relationships; the work embodies, as rooted in both dynastic history and the specifics of Qing rule.

**Redefining Heresy and Tolerance** Hung Tak Wai,2024-08-21 In Redefining Heresy and Tolerance Hung Tak Wai examines how the Qing empire governed Muslims and Christians under its rule with a non interventionist policy Manchu emperors adopted a tolerant attitude towards Islam and Christianity as long as political stability and loyalty remained unthreatened However Hung argues that such tolerance had its limitations Since the mid eighteenth century the Qing court intentionally minimised the importance of the Islamic identity Restrictions were imposed on the Muslims external connections with Western Asia The Christian minority was kept distant from politics and the Han majority At the same time Confucian scholars began to acquire a new understanding of religion but they were not encouraged to get in touch with the Muslims and Christians This book demonstrates how from the late eighteenth to the early nineteenth century the Qing government prevented Confucian scholar bureaucrats from interfering in the religious life of Christians and Muslims and how the Confucians understanding of religion was reshaped during the implementation of such policy in the period This book reveals that a different kind of religious tolerance had already emerged among Sinophone intellectuals before their contact with the West This book goes beyond the assumption of a homogeneous Han society and pays attention to the religious groups that emerged after the seventeenth century which differed from or even contradicted Confucianism and other Chinese religions and it is concerned with how such alien communities influenced the development of Confucianism itself Wang Fan sen Academia Sinica This book significantly enriches our comprehension of how early modern Confucians as adherents of a state public religion engaged with Abrahamic religions By delving into the dynamics of interreligious interaction Redefining Heresy and Tolerance sheds new light on the encounters between Confucianism and the Abrahamic faiths offering fresh insights into the complex religious landscape of Asian culture Huang Chin shing Academia Sinica

*World Travel Guide* Media House,2004-05 *World Travel Guide* Columbus Publishing Ltd,Marie Peyre,2005 With E World guide CD *Journal of Geographical Sciences* ,2008 *Asian Borderlands* Charles Patterson Giersch,2006

With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry **Transforming Inner Mongolia** Yi Wang,2021-09-21 This groundbreaking book analyzes the dramatic impact of Han Chinese migration into Inner Mongolia during the Qing era In the first detailed history in English Yi Wang explores how processes of commercial

expansion land reclamation and Catholic proselytism transformed the Mongol frontier long before it was officially colonized and incorporated into the Chinese state Wang reconstructs the socioeconomic cultural and administrative history of Inner Mongolia at a time of unprecedented Chinese expansion into its peripheries and China's integration into the global frameworks of capitalism and the nation state Introducing a peripheral and transregional dimension that links the local and regional processes to global ones Wang places equal emphasis on broad macro historical analysis and fine grained micro studies of particular regions and agents She argues that border regions such as Inner Mongolia played a central role in China's transformation from a multiethnic empire to a modern nation state serving as fertile ground for economic and administrative experimentation Drawing on a wide range of Chinese Japanese Mongolian and European sources Wang integrates the two major trends in current Chinese historiography new Qing frontier history and migration history in an important contribution to the history of Inner Asia border studies and migrations

Our Great Qing Johan Elverskog, 2008-07-31 In a sweeping overview of four centuries of Mongolian history that draws on previously untapped sources Johan Elverskog opens up totally new perspectives on some of the most urgent questions historians have recently raised about the role of Buddhism in the constitution of the Qing empire Theoretically informed and strongly comparative in approach Elverskog's work tells a fascinating and important story that will interest all scholars working at the intersection of religion and politics Mark Elliott Harvard University Johan Elverskog has rewritten the political and intellectual history of Mongolia from the bottom up telling a convincing story that clarifies for the first time the revolutions which Mongolian concepts of community rule and religion underwent from 1500 to 1900 His account of Qing rule in Mongolia doesn't just tell us what images the Qing emperors wished to project but also what images the Mongols accepted themselves and how these changed over the centuries In the scope of time it covers the originality of the views advanced and the accuracy of the scholarship upon which it is based Our Great Qing seems destined to mark a watershed in Mongolian studies It will be essential reading for specialists in Mongolian studies and will make an important contribution and riposte to the new Qing history now changing the face of late imperial Chinese history Specialists in Tibetan Buddhism and Buddhism's interaction with the political realm will also find in this work challenging and thought provoking Christopher Atwood Indiana University Although it is generally believed that the Manchus controlled the Mongols through their patronage of Tibetan Buddhism scant attention has been paid to the Mongol view of the Qing imperial project In contrast to other accounts of Manchu rule Our Great Qing focuses not only on what images the metropole wished to project into Mongolia but also on what images the Mongols acknowledged themselves Rather than accepting the Manchu's use of Buddhism Johan Elverskog begins by questioning the static unhistorical and hegemonic view of political life implicit in the Buddhist explanation By stressing instead the fluidity of identity and Buddhist practice as processes continually developing in relation to state formations this work explores how Qing policies were understood by Mongols and how they came to see themselves as Qing subjects In his

investigation of Mongol society on the eve of the Manchu conquest Elverskog reveals the distinctive political theory of decentralization that fostered the civil war among the Mongols He explains how it was that the Manchu Great Enterprise was not to win over Mongolia but was instead to create a unified Mongol community of which the disparate preexisting communities would merely be component parts A key element fostering this change was the Qing court's promotion of Gelukpa orthodoxy which not only transformed Mongol historical narratives and rituals but also displaced the earlier vernacular Mongolian Buddhism Finally Elverskog demonstrates how this eighteenth century conception of a Mongol community ruled by an aristocracy and nourished by a Buddhist emperor gave way to a pan Qing solidarity of all Buddhist peoples against Muslims and Christians and to local identities that united for the first time aristocrats with commoners in a new Mongol Buddhist identity on the eve of the twentieth century
