Mickey and the Teamsters Mike Schneider, 2023-10-24 A behind the scenes look at the lives of Disney's character performers and their struggles for union democracy Behind the costumes life isn't always magic and fairy dust for the people who play the iconic characters of Mickey Mouse Goofy and Cinderella at Walt Disney World In a surprising tale of corruption alongside activism Mickey and the Teamsters reveals the little known story of Teamsters Local 385 the union that represents these performers It spotlights Donna Lynne Dalton a former cast member who stood up for other Disney performers against deep rooted problems in the union that was supposed to protect them Journalist Mike Schneider who covered the story as it unfolded includes exclusive interviews with labor leaders and workers at the park detailing how the union prevented its members from leaving severely mismanaged union business and promoted a culture of hostile leadership Members of the Teamsters local felt that they no longer had a voice fearing devastating consequences if they spoke up But Dalton brought the issues to investigators in an act of whistleblowing that threatened her livelihood In return the local union fired Dalton and began harassing her and other union members who opposed its leaders The story escalates as Schneider describes protests by the Disney performers and the interventions of James Hoffa president of the International Brotherhood of Teamsters Mickey and the Teamsters offers a behind the scenes look at some of the hidden struggles that surround Disney World which employs the largest single site workforce in the United States Through the efforts of Dalton and others to reform their union and improve the lives of employees at the workplace they loved Schneider shows the importance of individual and collective action to hold unions accountable and preserve their potential to do good

Magic Lands John M. Findlay, 1993-09-22 The American West conjures up images of pastoral tranquility and wide open spaces but by 1970 the Far West was the most urbanized section of the country Exploring four intriguing cityscapes Disneyland Stanford Industrial Park Sun City and the 1962 Seattle World's Fair John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment This first book length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts In 1954 Walt Disney began building the world's first theme park using Hollywood's movie making techniques The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment but by the mid 1960s the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley In 1960 on the outskirts of Phoenix Del E Webb built Sun City the largest most influential retirement community in the United States Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic somewhat fanciful vision of modern life These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus Exemplars of a new lifestyle they are landmarks on the changing cultural landscape of postwar America
