Kim,2020-11-12 Yoonjong Kim analyses the divine human relationship in Paul s theology focusing on Paul s portrayal of the relationship in Romans 1 8 Kim stresses that previous studies of this relationship have not paid sufficient attention to the fact that it is not static but rather exhibits progression and development towards a goal To address the significance of the human agent s role in the relationship Kim employs a social psychological theory interdependence theory offering a consistent analytic framework for diagnosing the interactions in a dyadic relationship in terms of the dependency created by each partner s expectations of outcomes Kim explores several key stages of the divine human relationship and the direction in which the relationship develops throughout Romans 1 8 in order to highlight the significance of the human partners in the course of the development He focuses in particular on betrayal 1 18 3 20 restoration 3 21 26 5 1 11 the oppressive relationship with Sin 5 12 8 11 and the investment for the future 8 12 39 and concludes that although the foundation of the relationship rests on God s initiative the divine outworking guides the relationship so that it facilitates mutual participation of the human partners in the restoration and development of the relationship toward the ultimate goal

**Our Crumbling Civilization and Collapsing Universe of 5 Percent** Plammoottil Cherian, 2021-01-11 It is the biggest question of all in the universe when and from what universe came into being and how it expanded It puzzled Einstein and many other cosmologists after him Finally they have discovered the particle which they mysteriously named the God particle As the mystery surrounds this particle their quest will either end in finding God the source of the particle or not In an age when biblical truths are considered fairytales by many a scientist someone must be bold enough to tell the truth that in the beginning the universe was void and darkness prevailed in the entire cosmos until God separated darkness by his eternal light and used 5 percent of the dark matter to create the universe and everything within it Dr Cherian courageously links the Scriptures and the science behind the dark matter and the scientists who were divinely guided to name it the God particle Newton's and Einstein's dreams have been materialized and though not accepted by the vast majority of scientists openly many are compromising that universe formed from a cosmic evolution and life evolved abiogenetically and God interjected his presence into the process of evolution to claim his role a most absurd stand While the latest scientific discoveries tackled the biggest mystery of the universe scientific discoveries have corroborated the truth man humanity is nothing but specks of the dust Ps 103:14 While God who created the universe sits enthroned above the circle of the earth and stretches out expanse the heavens like a canopy and spreads them out like a tent Isa 40:22 is also holding the universe in his hands Dr Cherian brings to light the neglected truth that science and theology are the perfect match of God's truth in the universe Most of the scientific discoveries deciphered during the last five hundred years are recorded in the Bible including water in the exoplanets and the

dark matter and dark energy that have been discovered recently The author has succinctly explained with specific biblical references and explanations The author also reveals that from Plymouth Rock to Independence Hall and throughout the length and breadth of America the profound Christian heritage is engrained in every inch of the land and America cannot negate God from our land God s systematic order of creation was schemed as stages of unguided evolution All Christians of the nation must reinvent the declaration by the Supreme Court of the United States in 1892 that This a Christian Nation and present day lawmakers must adhere to that with freedom and liberty for all Like a skilled attorney the author explains America is part of the Israel of God and a member of the Commonwealth of Israel as explained by Apostle Paul The United States of America and the United Kingdom are two nations blessed by God under the protection of the Almighty God and we have a moral mandate to preserve our godly culture and civilization and lead other nations to follow before Armageddon which is imminent

*Church And Grace Age: Theological Explanation of State of Church, Nations, and the Cosmos at End Times* Plammoottil V. Cherian Ph. D, 2024-06-05 From a thorough understanding of the human history from a Biblical perspective and knowledge in science and theology author Plammoottil Cherian elucidates a vivid picture of the current state of the Christendom under the power of secularism atheism and apostasy in a confused and chaotic world The Church is at the crossroads of confusion losing its power in spreading the Gospel at a time when it is most needed The Book in five separate parts describes Who is true God the foundation of Church and God s religion What the mission of the Church is Church and nations are living in an Age of Delusion and a generation of compromised Christians Apostasy is on the rise and Church without Christ like in Laodicea Global Unhappiness because God is on the sidelines There is perfect harmony between science and Christian faith The world has been experiencing the bowls of wrath of God Nations morally deteriorate by the spiritual blindness of leaders of Church and State Humanity has been experiencing the hoofbeats of the four horses in the Book of Revelation The nations and Church are in the state of Mene Mene Tekel Upharsin The Babylons of the world nations are about to fall unless aligned with God The Grace Age is ending soon as scientific evidence proves the Biblical prophecies The pressing need of the Church is to prepare believers for Christ s Second Coming As a scientists and theologian Dr Cherian analyzes the present world culture and explains the Biblical prophecies that we are at the threshold of Church that lost the faith and calls church and nation s leaders to realign with God for his guidance and continued blessings

Writing the Self Peter Heehs, 2013-02-14 The self has a history In the West the idea of the soul entered Christianity with the Church Fathers notably Augustine During the Renaissance the idea of the individual attained preeminence as in the works of Montaigne In the seventeenth century philosophers such as Descartes formulated notions of selfhood that did not require a divine foundation in the next century Hume grew skeptical of the self's very existence Ideas of the self have changed markedly since the Romantic period and most scholars today regard it as at best a mental construct First person genres such as diaries and memoirs have provided an outlet for self expression Protestant diaries replaced the Catholic confessional but secular diaries such as Pepys's may reveal yet more about the self After Richardson novels competed with diaries and memoirs as vehicles of self expression though memoirs survived and continue to thrive while the diary has found a new incarnation in the personal blog Writing the Self narrates the intertwined histories of the self and of self expression through first person literature
