personal reflections on the character they loved as boys growing up in the 1930s      **Disney's Land** Richard Snow,2020-12-01 A propulsive and entertaining The Wall Street Journal history chronicling the conception and creation of the iconic Disneyland theme park as told like never before by popular historian Richard Snow One day in the early 1950s Walt Disney stood looking over 240 acres of farmland in Anaheim California and imagined building a park where people could live among Mickey Mouse and Snow White in a world still powered by steam and fire for a day or a week or if the visitor is slightly mad forever Despite his wealth and fame exactly no one wanted Disney to build such a park Not his brother Roy who ran the company s finances not the bankers and not his wife Lillian Amusement parks at that time such as Coney Island were a generally despised business sagging and sordid remnants of bygone days Disney was told that he would only be heading toward financial ruin But Walt persevered initially financing the park against his own life insurance policy and later with sponsorship from ABC and the sale of thousands and thousands of Davy Crockett coonskin caps Disney assembled a talented team of engineers architects artists animators landscapers and even a retired admiral to transform his ideas into a soaring yet soothing wonderland of a park The catch was that they had only a year and a day in which to build it On July 17 1955 Disneyland opened its gates and the first day was a disaster Disney was nearly suicidal with grief that he had failed on a grand scale But the curious masses kept coming and the rest is entertainment history Eight hundred million visitors have flocked to the park since then In Disney s Land Snow brings a historian s eye and a child s delight not to mention superb writing to the telling of this fascinating narrative Ken Burns that will entertain Disneyphiles and readers of popular American history Publishers Weekly      Thickening Fat May Friedman,Carla Rice,Jen Rinaldi,2019-08-30 Thickening Fat Fat Bodies Intersectionality and Social Justice seeks to explore the multiple variable and embodied experiences of fat oppression and fat activisms Moving beyond an analysis of fat oppression as singular this book will aim to unpack the volatility of fat the mutability of fat embodiments as they correlate with other embodied subjectivities and the threshold where fat begins to be reviled celebrated or amended In addition Thickening Fat explores the full range of intersectional and liminal analyses that push beyond the simple addition of two or more subjectivities looking instead at the complex alchemy of layered and unstable markers of difference and privilege Cognizant that the concept of intersectionality has been filled out in a plurality of ways Thickening Fat poses critical questions around how to render analysis of fatness intersectional and to thicken up intersectionality where intersectionality is attenuated to the shifting and composite and material dimensions to identity rather than reduced to an add difference and stir approach The chapters in this collection ask what happens when we operationalize intersectionality in fat scholarship and politics and we position difference at the centre and start of inquiry      The Hollywood Story Joel Waldo Finler,2003 This fully revised and updated edition of an award winning classic traces the history of Hollywood from the silent era to the present day The Hollywood Storycomprehensively covers every aspect of movie making in America taking in nickelodeans drive ins and multiplexes the transition from silent to sound black and white
