Dispatches From Dystopia Histories Of Places Not Yet Forgotten:

Dispatches from Dystopia Kate Brown, 2015-05-01 Why are Kazakhstan and Montana the same place asks one chapter of Kate Brown's surprising and unusual journey into the histories of places on the margins overlooked or erased. It turns out that a ruined mining town in Kazakhstan and Butte Montana, America's largest environmental Superfund site, have much more in common than one would think thanks to similarities in climate hucksterism and the perseverance of their few hardy inhabitants. Taking readers to these and other unlikely locales, *Dispatches from Dystopia* delves into the very human and sometimes very fraught ways we come to understand a particular place, its people, and its history. In *Dispatches from Dystopia*, Brown wanders the Chernobyl Zone of Alienation first on the Internet and then in person to figure out which version, the real or the virtual, is the actual forgery. She also takes us to the basement of a hotel in Seattle to examine the personal possessions left in storage by Japanese Americans on their way to internment camps in 1942. In Uman, Ukraine, we hide with Brown in a tree in order to witness the annual male-only Rosh Hashanah celebration of Hasidic Jews. In the Russian southern Urals, she speaks with the citizens of the small city of Kyshtym where invisible radioactive pollutants have mysteriously blighted lives. Finally, Brown returns home to Elgin, Illinois, in the midwestern industrial rust belt to investigate the rise of rustalgia and the ways her formative experiences have inspired her obsession with modernist wastelands. *Dispatches from Dystopia* powerfully and movingly narrates the histories of locales that have been silenced, broken, or contaminated. In telling these previously unknown stories, Brown examines the making and unmaking of place and the lives of the people who remain in the fragile landscapes that are left behind.

Nothing Happened Susan A. Crane, 2021-01-19 The past is what happened. History is what we remember and write about that past, the narratives we craft to make sense out of our memories and their sources. But what does it mean to look at the past and to remember that nothing happened? Why might we feel as if nothing is the way it was? This book transforms these utterly ordinary observations and redefines Nothing as something we have known and can remember. Nothing has been a catch-all term for everything that is supposedly uninteresting or is just not there. It will take some possibly considerable mental adjustment before we can see Nothing as Susan A. Crane does here with a capital N. But Nothing has actually been happening all along. As Crane shows in her witty and provocative discussion, Nothing is nothing less than fascinating. When Nothing has changed but we think that it should have, we might call that injustice. When Nothing has happened over a long, slow period of time, we might call that boring. Justice and boredom have histories. So too does being relieved or disappointed when Nothing happens, for instance, when a forecasted end of the world does not occur, and millennial movements have to regroup. By paying attention to how we understand Nothing to be happening in the present, what it means to know Nothing or to do Nothing, we can begin to ask how those experiences will be remembered. Susan A. Crane moves effortlessly between different modes of seeing Nothing, drawing on visual analysis and cultural studies to suggest a new way of thinking about history. By remembering how Nothing happened or how Nothing is the way it was or

how Nothing has changed we can recover histories that were there all along **Unsilencing** Lilia Topouzova,2025-07-15

Gilded Age Ivan Franceschini, Nicholas Loubere, 2018-04-01

According to the Chinese zodiac 2017 was the year of the fire rooster an animal often associated with the mythical fenghuang a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing Considering the auspicious symbolism surrounding the fenghuang it is fitting that on 18 October 2017 President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a new era for Chinese socialism However in spite of such ecumenical proclamations it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities Migrant workers for one remain disposable Lawyers activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world This Yearbook traces the stark new gilded age inaugurated by the Chinese Communist Party It does so through a collection of more than 40 original essays on labour civil society and human rights in China and beyond penned by leading scholars and practitioners from around the world

Edges of Care Noam Leshem, 2025-01-16 A firsthand look at the lives of those who reside in no man's land the violence they endure and their immense resilience No man's land invokes stretches of barren landscape twisted barbed wire desolation and the devastation of war But this is not always the reality According to Noam Leshem in *Edges of Care* the term also reveals radical abandonment by the state From the Northern Sahara to the Amazon rainforests people around the world find themselves in places that have been stripped of sovereign care Leshem is committed to defining these spaces and providing a more intimate understanding of this urgent political reality Based on nearly a decade of research in some of the

world's most challenging conflict zones *Edges of Care* offers a profound account of abandoned lives and lands and how they endure and sometimes thrive once left to fend for themselves Leshem interrogates no man's land as a site of radical uncaring abandoned by a sovereign power in a relinquishment of responsibility for the space or anyone inside it To understand the ramifications of such uncaring Leshem takes readers through a diverse series of abandoned places including areas in Palestine Syria Colombia Sudan and Cyprus He shows that no man's land is not empty of life but almost always inhabited and in fact often generative of new modes of being Beautifully written and evocative *Edges of Care* reveals the unexamined complexities and political dynamics hidden within and around places governed by callous indifference

Survival on the Margins Eliyana R. Adler, 2020-11-17 Co-winner of the Yad Vashem International Book Prize for Holocaust Research The forgotten story of 200,000 Polish Jews who escaped the Holocaust as refugees stranded in remote corners of the USSR Between 1940 and 1946 about 200,000 Jewish refugees from Poland lived and toiled in the harsh Soviet interior They endured hard labor bitter cold and extreme deprivation But out of

reach of the Nazis they escaped the fate of millions of their coreligionists in the Holocaust Survival on the Margins is the first comprehensive account in English of their experiences The refugees fled Poland after the German invasion in 1939 and settled in the Soviet territories newly annexed under the Molotov Ribbentrop Pact Facing hardship and trusting little in Stalin most spurned the offer of Soviet citizenship and were deported to labor camps in unoccupied areas of the east They were on their own in a forbidding wilderness thousands of miles from home But they inadvertently escaped Hitler s 1941 advance into the Soviet Union While war raged and Europe s Jews faced genocide the refugees were permitted to leave their settlements after the Soviet government agreed to an amnesty Most spent the remainder of the war coping with hunger and disease in Soviet Central Asia When they were finally allowed to return to Poland in 1946 they encountered the devastation of the Holocaust and many stopped talking about their own ordeals their stories eventually subsumed within the central Holocaust narrative Drawing on untapped memoirs and testimonies of the survivors Eliyana Adler rescues these important stories of determination and suffering on behalf of new generations

Building Socialism Christina

Schwenkel, 2020-09-21 Following a decade of U S bombing campaigns that obliterated northern Vietnam East Germany helped Vietnam rebuild in an act of socialist solidarity In Building Socialism Christina Schwenkel examines the utopian visions of an expert group of Vietnamese and East German urban planners who sought to transform the devastated industrial town of Vinh into a model socialist city Drawing on archival and ethnographic research in Vietnam and Germany with architects engineers construction workers and tenants in Vinh s mass housing complex Schwenkel explores the material and affective dimensions of urban possibility and the quick fall of Vinh s new built environment into unplanned obsolescence She analyzes the tensions between aspirational infrastructure and postwar uncertainty to show how design models and practices that circulated between the socialist North and the decolonizing South underwent significant modification to accommodate alternative cultural logics and ideas about urban futurity By documenting the building of Vietnam s first planned city and its aftermath of decay and repurposing Schwenkel argues that underlying the ambivalent and often unpredictable responses to modernist architectural forms were anxieties about modernity and the future of socialism itself

From German Königsberg to Soviet Kaliningrad Jamie Freeman, 2020-11-10 This book explores how the Soviet Union after capturing and annexing the German East Prussian city of Königsberg in 1945 and renaming it Kaliningrad worked to transform the city into a model of Soviet modernity It examines how the Soviets expelled all the remaining German people repopulated the city and region with settlers from elsewhere in the Soviet Union destroyed the key remaining German buildings and began building a model Soviet city a physical manifestation of the societal transformation brought about by communism However the book goes on to show that over time many of the model Soviet buildings were uncompleted and that the citizens aware of their Polish and Lithuanian neighbours to both the east and the west and appreciating their place in the wider Baltic region came to view themselves as something different from other Soviet and Russian citizens The book concludes by assessing present

developments as the people of Kaliningrad are increasingly rediscovering the city's pre Soviet past and forging a new identity for themselves on their own terms **British Nuclear Mobilisation Since 1945** Jonathan Hogg, Kate Brown, 2021-05-18

This book explores aspects of the social and cultural history of nuclear Britain in the Cold War era 1945-1991 and contributes to a more multivalent exploration of the consequences of nuclear choices which are too often left unacknowledged by historians of post war Britain In the years after 1945 the British government mobilised money scientific knowledge people and military industrial capacity to create both an independent nuclear deterrent and the generation of electricity through nuclear reactors This expensive and vast technopolitical project mostly top secret and run by small sub committees within government was central to broader Cold War strategy and policy Recent attempts to map the resulting social and cultural history of these military industrial policy decisions suggest that nuclear mobilisation had far reaching consequences for British life The chapters in this book were originally published as a special issue of Contemporary British History
