Dissimulation And Deceit In Early Modern Europe:

Dissimulation and Deceit in Early Modern Europe Miriam Eliav-Feldon, Tamar Herzig, 2015-09-29 In this book twelve scholars of early modern history analyse various categories and cases of deception and false identity in the age of geographical discoveries and of forced conversions from two faced conversos to serial converts from demoniacs to stigmatics and from self appointed ambassadors to lying cosmographer

Ways of Lying Perez Zagorin, 1990 The religious persecution and intellectual intolerance of the sixteenth and seventeenth centuries compelled many heterodox groups and thinkers to resort to misdirection hidden meaning secrecy and deceit In this highly unusual interpretation Perez Zagorin traces the theory and practice of religious leaders philosophers intellectuals and men of letters who used deception to cloak dissident beliefs Zagorin surveys some of the chief sources of early modern doctrines of dissimulation in the Bible and the works of theologians from Jerome and Augustine to Erasmus Luther and Calvin Subjects covered include Nicodemism the name given by Calvin to secret Protestants who concealed their faith behind a facade of conformity to Catholic worship crypto Judaism in Spain and the hidden beliefs of English Catholics Other topics include the Catholic doctrine of mental reservation the place of dissimulation in English Protestant casuistry occultism and dissimulation of religious unbelief among philosophers and men of letters In charting the widespread phenomenon of lying and deceit and by exploring its evolutions Perez Zagorin has made an important contribution to the historiography of an intellectually roiling and perilous time He adds a vital dimension to our understanding of the religious intellectual and cultural history of the epoch before the modern

Lacey Baldwin Smith finds this book an impressive and scholarly work of cultural synthesis that coins a fresh label for the sixteenth and seventeenth centuries the age of dissimulation Zagorin's efforts to compare and contrast Catholic and Protestant styles of dissimulation and Nicodemism are important casting a new perspective and focus on the religious and intellectual dissent of the era

Geneva's Use of Lies, Deceit, and Subterfuge, 1536-1563 Jon Balserak, 2024-09-17 This study examines the ethical character of John Calvin and his Genevan colleagues evangelizing of France It reveals that Calvin's plans for proselytizing his homeland involved lying deception and obfuscation which were employed as a means of evading detection by the French authorities Balserak considers important questions about the relationship between godliness and cunning about Calvin's manufacturing of his image and about the lengths to which he and his colleagues went to spread their gospel

Millenarianism and Messianism in Early Modern European Culture M. Goldish,R.H. Popkin,2013-03-09

The earliest scientific studies of Jewish messianism were conducted by the scholars of the Wissenschaft des Judentums school particularly Heinrich Graetz the first great Jewish historian of the Jews since Josephus These researches were invaluable because they utilized primary sources in print and manuscript which had been previously unknown or used only in polemics The Wissenschaft studies themselves however prove to be polemics as well on closer inspection Among the goals of this group was to demonstrate that Judaism is a rational and logical faith whose legitimacy and historical progress deserve recognition by the nations of Europe Mystical and messianic beliefs which might undermine this image were presented as aberrations or the result of corrosive foreign influences on the Jews Gershom Scholem took upon himself the task of returning mysticism and messianism to their rightful central place in the panorama of Jewish thought Jewish messianism was for Scholem a central theme in the philosophy and life of the Jews throughout their history shaped anew by each generation to fit its specific hopes and needs Scholem emphasized that this phenomenon was essentially independent of messianic or millenarian trends among other peoples For example in discussing messianism in the early modern era Scholem describes a trunk of influence on the Jewish psyche set off by the expulsion from Spain in 1492

Lying and Perjury in Medieval Practical Thought Emily Corran,2018-09-05 Thought about lying and perjury became increasingly practical from the end of the twelfth century in Western Europe At this time a distinctive way of thinking about deception and false oaths appeared in the schools of Paris and Bologna most notably in the Summa de Sacramentis et Animae Consiliis of Peter the Chanter This kind of thought was concerned with moral dilemmas and the application of moral rules in exceptional cases It was a tradition which continued in pastoral writings of the thirteenth century the practical moral questions addressed by theologians in universities in the second half of the thirteenth century and in the Summae de Casibus Conscientiae of the late Middle Ages Lying and Perjury in Medieval Practical Thought argues that medieval practical ethics of this sort can usefully be described as casuistry a term for the discipline of moral theology that became famous during the Counter Reformation This can be seen in the origins of the concept of equivocation an idea that was explored in medieval literature with varying degrees of moral ambiguity From the turn of the thirteenth century the concept was adopted by canon lawyers and theologians as a means of exploring questions about exceptional situations in ethics It has been assumed in the past that equivocation and the casuistry of lying was an academic discourse invented in the sixteenth century in order to evade moral obligations This study reveals that casuistry in the Middle Ages was developed in ecclesiastical thought as part of an effort to explain how to follow moral

rules in ambiguous and perplexing cases Economies of Literature and Knowledge in Early Modern Europe Subha Mukherji, Dunstan Roberts, Rebecca Tomlin, George Oppitz-Trotman, 2020-09-22 Placing literature at the centre of Renaissance economic knowledge this book offers a distinct intervention in the history of early modern epistemology It is premised on the belief that early modern practices of change and exchange produced a range of epistemic shifts and crises which nonetheless lacked a systematic vocabulary These essays collectively tap into the imaginative kernel at the core of economic experience to grasp and give expression to some of its more elusive experiential dimensions The essays gathered here probe the early modern interface between imaginative and mercantile knowledge between technologies of change in the field of commerce and transactions in the sphere of cultural production and between forms of transaction and representation In the process they go beyond the specific interrelation of economic life and literary work to bring back into view the thresholds between economics on the one hand and religious legal and natural philosophical epistemologies on the other

Mendacity and the Figure of the Liar in Seventeenth-Century French Comedy Emilia Wilton-Godberfforde, 2017-06-14 The first book length study devoted to this topic Mendacity and the Figure of the Liar in Seventeenth Century French Comedy offers an important contribution to scholarship on the theatre as well as on early modern attitudes in France specifically on the subject of lying and deception Unusually for a scholarly work on seventeenth century theatre it is particularly alert to plays as performed pieces and not simply printed texts The study also distinguishes itself by offering original readings of Moli re alongside innovative analyses of other playwrights The chapters offer fresh insights on well known plays by Moli re and Pierre Corneille but also invite readers to discover lesser known works of the time by writers such as Benserade Thomas Corneille Dufresny and Rotrou Through comparative and sustained close readings including a linguistic and speech act approach a historical survey of texts with an analysis of different versions and a study of irony the reader is shown the manifest ways in which different playwrights incorporate the comedic tropes of lying and scheming confusion and unmasking Drawing particular attention to the levels of communicative or mis communicative exchanges on the character to character axis and the character to audience axis this work examines the process whereby characters in the comedies construct narratives designed to trick misdirect dazzle confuse or exploit their interlocutors In the different incarnations of seducer parasite cross dresser duplicitous narrator messenger and deluded mythomaniac the author underscores the way in which the figure of the liar both entertains and troubles making it a fascinating subject worthy of detailed investigation The Power of Necessity Lisa Kattenberg, 2023-01-05 Exploring reason of state in a global monarchy The Power of Necessity examines how thinkers and agents in the Spanish monarchy navigated the tension between political pragmatism and moral religious principle This tension lies at the very heart of Counter Reformation reason of state Nowhere was the need for pragmatic state management greater than in the overstretched Spanish Empire of the seventeenth century However pragmatic politics were problematic for a Catholic monarchy steeped in ideals of justice and divine justifications of

power and kingship Presenting a broad cast of characters from across Europe and uniting published sources with a wide range of archival material Lisa Kattenberg shows how non canonical thinkers and agents confronted the political moral dilemmas of their age by creatively employing the legitimizing power of necessity Pioneering new ways of bridging the persistent gap between theory and practice in the history of political thought The Power of Necessity casts fresh light on the struggle to preserve the monarchy in a modernizing world **Tracing Private Conversations in Early Modern Europe**

Johannes Ljungberg,Natacha Klein Käfer,2024-03-01 This open access book provides a multifold exploration of how people in early modern Europe understood conducted and actively used private conversations From sharing personal matters to discussing delicate secrets all layers of early modern society had their motives for wanting to keep certain exchanges out of public eyes and ears and ways of trying to achieve this Detecting such instances in historical sources typically becomes a complex pursuit full of subtle references that require creative approaches especially when it comes to more informal practices Yet in a reading against the grain different sources can offer us hints of how conversations took place in private The book consists of a historiographical and methodological introduction to the study of private conversations followed by ten case studies from a variety of cities villages and countryside across early modern Europe The concluding epilogue suggests some pathways to further explore the terrain of how people have talked in private in past societies **Trust and Happiness**

in the History of European Political Thought Laszlo Kontler,Mark Somos,2017-09-25 The notions of happiness and trust as cements of the social fabric and political legitimacy have a long history in Western political thought However despite the great contemporary relevance of both subjects and burgeoning literatures in the social sciences around them historians and historians of thought have with some exceptions unduly neglected them In Trust and Happiness in the History of European Political Thought editors L szl Kontler and Mark Somos bring together twenty scholars from different generations and academic traditions to redress this lacuna by contextualising historically the discussion of these two notions from ancient Greece to Soviet Russia Confronting this legacy and deep reservoir of thought will serve as a tool of optimising the terms of current debates Contributors are Erica Benner Hans W Blom Niall Bond Alberto Clerici Cesare Cuttica John Dunn Ralf Peter Fuchs G bor G ng Steven Johnstone L szl Kontler Sara Lagi Adriana Luna Fabritius Adrian O Connor Eva Odzuck K lm n P cza Vladimir Ryzhkov Peter Schr der Petra Schulte Mark Somos Alexey Tikhomirov Bee Yun and Hannes Ziegler Law,

Literature, and Social Regulation in Early Medieval England Anya Adair,Andrew Rabin,2023 Valuable new insights into the multi layered and multi directional relationship of law literature and social regulation in pre Conquest English society Pre Conquest English law was among the most sophisticated in early medieval Europe Composed largely in the vernacular it played a crucial role in the evolution of early English identity and exercised a formative influence on the development of the Common Law However recent scholarship has also revealed the significant influence of these legal documents and ideas on other cultural domains both modern and pre modern This collection explores the richness of pre Conquest legal writing by

looking beyond its traditional codified form Drawing on methodologies ranging from traditional philology to legal and literary theory and from a diverse selection of contributors offering a broad spectrum of disciplines specialities and perspectives the essays examine the intersection between traditional juridical texts from law codes and charters to treatises and religious regulation and a wide range of literary genres including hagiography and heroic poetry In doing so they demonstrate that the boundary that has traditionally separated law from other modes of thought and writing is far more porous than hitherto realized Overall the volume yields valuable new insights into the multi layered and multi directional relationship of law literature and social regulation in pre Conquest English society *The Power of the Dispersed* Cornel Zwierlein,2021-12-20

attempts in the post Tridentine Church while offering a multifaceted account of day to day religiosity in seventeenth century Genoa a city that has largely been overlooked in Anglophone scholarship The book addresses diverse aspects of early modern Catholicism among lay people and members of the clergy The author replaces the traditional view of the Catholic Reformation as a top down process with one that considers individual agency highlighting how strategies for gaining and maintaining trust as well as the processes by which trust could be lost or denied determined the success or failure of various efforts at reforming the Church *Religious Individualisation* Martin Fuchs,Antje Linkenbach,Martin Mulsow,Bernd-Christian Otto,Rahul Bjørn Parson,Jörg Rüpke,2019-12-16 This volume brings together key findings of the long term research project Religious Individualisation in Historical Perspective Max Weber Centre for Advanced Cultural and Social Studies Erfurt University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality *A Global Sourcebook in Protestant Political Thought, Volume I* Matthew Rowley,Marietta van der Tol,2024-07-01 This first volume of A Global Sourcebook in Protestant Political Thought provides a window into the early Protestant world and the ways in which Protestants wrestled with politics and religion in the wake of the Reformation This period saw political authorities and church hierarchies challenged and defended by scholars clerics and laypeople alike The volume engages the full spectrum of Protestants with reference to theology geography ethnicity historical importance socio economic background and gender This diversity highlights how Protestants felt pulled towards differing political positions and used several maps to chart their course conscience custom history ecclesiastical tradition and the laws of God nature nation or community On most important issues Protestants lined up on opposing sides Additionally Catholic and Eastern Orthodox political thought as well as interactions with Jewish and Muslim texts and thinkers profoundly influenced different directions taken in the history of Protestant political thought Even as our own time is fraught with deep disagreement and political polarisation so too was early modern Europe and we might read it in the anxieties uncertainties hopes and expectations that the sources vividly express This sourcebook will enrich both research and classroom teaching in politics theology and history whether geared towards general political or religious history or towards more specialised courses on colonialism warfare gender race or

religious diversity **A Literary History of Reconciliation** Jan Frans van Dijkhuizen, 2018-09-06 From William Shakespeare to Marilynne Robinson this book examines representations of interpersonal reconciliation in works of literature focusing on how these representations draw on the language of divine forgiveness Christian theology sees divine forgiveness as conditional upon a sinner's remorse and self abasement before God but also as a form of grace unconditional and rooted only in divine love Van Dijkhuizen explores what happens when this paradoxical forgiveness paradigm comes to serve as a template for interpersonal reconciliation As A Literary History of Reconciliation shows literary writers imagine interpersonal reconciliation as being centrally about power and hierarchy and present forgiveness without power as longed for but ever elusive Drawing on major works of literature from the early modern era to the present day this book explores works by John Milton Virginia Woolf J M Coetzee Ian McEwan and others to craft a literary history that will appeal to readers interested in literature religion and philosophy
