Beneath Heavy Pines in World War II Louisiana Hayley Johnson,Sarah Simms,2023-06-21 December 7 1941 changed the lives of thousands of Japanese Americans who became enemy in the eyes of the United States government within hours With Pearl Harbor still smoldering these men would be arrested and put into the enemy alien internment system As the study of internment has steadily grown the information about the confinement sites and ability to piece together the experiences of the men within has remained a challenging task Camp Livingston famous as a site for the Louisiana Maneuvers holds a darker and less well known history From 1942 1943 over 1 000 men of Japanese ancestry were held in this internment camp in the pine forests of central Louisiana The authors approach this camp s history via the experiences and linkages to and through two families the Miyamotos and Koharas who are the beating heart at the center of this saga Through them the authors have laid out a historical counter narrative that is part biography and part critical exploration of a forgotten chapter of American history This manuscript is the first of its kind to focus primarily on exploring Camp Livingston arguably one of the lesser known enemy alien internment camps in depth including its layout operations and the daily life and experiences of the internees within

Fertility of Malian Tamasheq Repatriated Refugees Program on Forced Migration and Health at the Mailman School of Public Health, Columbia University,National Research Council,Committee on Population,Roundtable on the Demography of Forced Migration,Sara Randall,2004-07-02 In Africa many of the refugee flows in recent years have had a strong ethnic dimension interethnic conflict or conflict between politically powerful groups with minority populations is often an important aspect of who is forced to flee In most cases the origins of conflict occur in a

multiethnic environment and repatriation if it happens occurs in that multiethnic context with implications for subsequent relationships between the groups in terms of political economic and numeric power As the primary source of recruitment to a population fertility is an essential component of postconflict restructuring The disruption of fertility during the disorder of forced migration can itself be seen as part of the disintegration of society and identity the impact of conflict and flight on reproduction may be an important indicator of the degree of crisis faced by the population Postcrisis fertility and changes from the reproductive regime prior to the forced migration indicate not only how the population has responded to the multiplicity of changes and traumas but also its ability to adapt and manipulate its new sociopolitical position This report focuses on the specific experience of a single persecuted population whose sociopolitical history along with their underlying marital and fertility regimes will inevitably condition responses to conflict

The Young Victims of the Nazi Regime Simone Gigliotti, Monica Tempian, 2016-05-05 During the Nazi regime many children and young people in Europe found their lives uprooted by Nazi policies resulting in their relocation around the globe The Young Victims of the Nazi Regime represents the diversity of their experiences covering a range of non European perspectives on the Second World War and aspects of memory This book is unique in that it places the experiences of children and youth in a transnational context shifting the conversation of displacement and refuge to countries that have remained under examined in a comparative context Featuring essays from an international range of experts this book analyses the key themes in three sections the migration of children to countries including England Canada Australia New Zealand Kenya and Brazil the experiences of young people who remained in Nazi Europe and became victims of war displacement and deportation and finally the challenges of rebuilding lives and representing traumas in the aftermath of war In its comparisons between Jewish and non Jewish experiences and how these intersected and diverged it revisits debates about cultural genocide through the separation of families and communities as well as contributing new perspectives on forced labour families and the Holocaust and Germans as war victims

From German Prisoner of War to American Citizen Barbara Schmitter Heisler, 2014-11-29 Among the many German immigrants to the United States over the years one group is unusual former prisoners of war who had spent between one and three years on American soil and who returned voluntarily as immigrants after the war Drawing on archival sources and in depth interviews with 35 former prisoners who made the return the book outlines the conditions that defined their unusual experiences and traces their journeys from captive enemies to American citizens Although the respondents came from different backgrounds and arrived in America at different times between 1943 and 1945 their experiences as prisoners of war not only left an indelible impression they also provided them with opportunities and resources that helped them leave Germany behind and return to the place where we had the good life

Voices from the Camps James M. Freeman, Nguyen Dinh Huu, 2011-07-01 Wave after wave of political and economic refugees poured out of Vietnam beginning in the late 1970s overwhelming the resources available to receive them Squalid conditions prevailed in detention centers and camps in Hong

Kong and throughout Southeast Asia where many refugees spent years languishing in poverty neglect and abuse while supposedly being protected by an international consortium of caregivers Voices from the Camps tells the story of the most vulnerable of these refugees children alone either orphaned or separated from their families Combining anthropology and social work with advocacy for unaccompanied children everywhere James M Freeman and Nguyen Dinh Huu present the voices and experiences of Vietnamese refugee children neglected and abused by the system intended to help them Authorities in countries of first asylum faced with thousands upon thousands of increasingly frightened despairing and angry people needed to determine on a case by case basis whether they should be sent back to Vietnam or be certified as legitimate refugees and allowed to proceed to countries of resettlement The international community led by UNHCR devised a well intentioned screening system Unfortunately as Freeman and Nguyen demonstrate it failed unaccompanied children The hardships these children endured are disturbing but more disturbing is the story of how the governments and agencies that set out to care for them eventually became the children s tormenters When Vietnam after years of refusing to readmit illegal emigrants reversed its policy the international community began doing everything it could to force them back to Vietnam Cutting rations closing schools separating children from older relations and other caregivers relocating them in order to destroy any sense of stability the authorities employed coercion and effective abuse with distressing ease all in the name of the best interests of the children While some children eventually managed to construct a decent life in Vietnam or elsewhere including the United States all have been scarred by their refugee experience and most are still struggling with the legacy Freeman and Nguyen s presentation and analysis of this sobering chapter in recent history is a cautionary tale and a call to action

The Routledge Companion to Indigenous Repatriation Cressida Fforde, C. Timothy McKeown, Honor Keeler, 2020-03-05 This volume brings together Indigenous and non Indigenous repatriation practitioners and researchers to provide the reader with an international overview of the removal and return of Ancestral Remains The Ancestral Remains of Indigenous peoples are today housed in museums and other collecting institutions globally They were taken from anywhere the deceased can be found and their removal occurred within a context of deep power imbalance within a colonial project that had a lasting effect on Indigenous peoples worldwide Through the efforts of First Nations campaigners many have returned home However a large number are still retained In many countries the repatriation issue has driven a profound change in the relationship between Indigenous peoples and collecting institutions It has enabled significant steps towards resetting this relationship from one constrained by colonisation to one that seeks a more just dignified and truthful basis for interaction The history of repatriation is one of Indigenous perseverance and success The authors of this book contribute major new work and explore new facets of this global movement They reflect on nearly 40 years of repatriation its meaning and value impact and effect This book is an invaluable contribution to repatriation practice and research providing a wealth of new knowledge to readers with interests in Indigenous histories self determination and the relationship between collecting

institutions and Indigenous peoples *Alien-nation and Repatriation* Patricia Joan Saunders, 2007-01-01 *AlienNation and Repatriation* is a critical examination of race sexuality gender and migration in Caribbean nationalist literatures The more complex contribution made in this book however is its insistence on centering the philosophical implications of interpreting or translating black female subjectivity back into the literary landscapes of Caribbean literary and cultural texts from which they were erased or disciplined into silence This book suggests that reading strategies reproduce hegemonic constructions of black women s identities and postionalities as subjects and citizens in Caribbean literature **Captives and Cousins** James F.
