after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list
which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct
sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical
assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all
aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists
quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties
when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also
