*Gender and Sexuality Diversity in a Culture of Limitation* provides an outstanding and insightful critique of the ways that contemporary education is impacted by a range of political social and cultural influences that inform the approaches that schools take in relation to gender and sexuality diversity By applying feminist poststructural and Foucauldian frameworks the book examines the ongoing impact of broader socio cultural discourse on the lives of gender and sexuality diverse students and teachers Beginning with an overview of the impact of how a culture of limitation is realised in Australia the focus moves beyond this context to examine state and federal policies from comparable societies in countries including the USA and the UK and their effect on the production of knowledges and what s permissible to include in educational curriculum This research driven book thus provides a comparative international overview of the current state of gender and sexuality diversity in schools and convincingly demonstrates that despite some empowerment of gender and sexuality diverse individuals silencing and marginalization remain powerful forces This book will be of great interest to graduate and postgraduate students academics professionals and policy makers interested in the field of gender and sexuality in education It is essential reading for those involved in pre service and in service teacher education diversity education the sociology of education as well as education more generally

**Global Citizenship Education in Australian Schools** Andrew Peterson, 2020-09-26 This book explores how Australian secondary schools prepare their students for global citizenship Globalisation has irrevocably changed modern countries and societies and the benefits and pressures this brings are being felt as never before Drawing on empirical data from six Australian secondary schools the author examines how school leaders and teachers understand global citizenship how they translate this into their practice and how students experience and make sense of global citizenship education In doing so the book portrays how school leaders teachers and students grapple with key issues central to global citizenship education including how they work to mediate some of the tensions involved While the book concentrates on the Australian context its findings and analysis have resonance for other countries in which global citizenship education operates as a core goal of education and schooling

**Inclusive Education** Vicky Plows, Ben Whitburn, 2017-01-28 Inclusive education has emerged internationally over the past thirty years as a way of developing democratic citizenship Core to inclusive principles are that improved equity in education can only be achieved by eliminating the economic cultural and physical barriers that currently impede learning for particular students To strengthen inclusive practice to this end inexorably requires that we attempt to make sense of it in its current form to examine how it is enacted in educational settings from early childhood schools and communities and further and higher education to contemplate the restrictions that it might inadvertently create and to consider its effects on members of educational communities Contributions to this edited collection represent diverse perspectives yet share a commitment to challenging existing forms of educational marginalisation through policy practice theory and pedagogy The chapters emerged from discussions at the

**Sex(uality) Education for Trans and Gender Diverse Youth in Australia** Barrie Shannon, 2022-02-02 This book examines young trans and gender diverse Australians views of school based sex education The analysis is informed by a queer epistemology that acknowledges the systematic and institutional erasure of trans subjectivities through highly medicalised systems of categorisation Drawing on primary qualitative data the author emphasises the accounts of trans and gender diverse young people as they relate to sex education at school and how they undertake informal learning about sex gender and identity in other areas of their lives Ultimately the book problematises the assumption that the sex education classroom is the most appropriate vehicle for social justice education in relation to queer issues Queer issues and sex education tend to be packaged together discursively deliberately or by association in dominant media narratives However this discourse constrains queer identities to the realm of sex and health and therefore does not engage with the social citizenship of queer people Further this limits the capacity of schools and teachers to meaningfully explore diversity in the classroom as sex education is front and centre in the so called culture wars about gender sexuality youth and schools
