Global Telehealth 2012

This book presents papers selected from contributions to the 2nd International Conference on Global

Beyond Belief

This interdisciplinary book explores the science and spirituality nexus in the Pacific Islands Region and as such makes a critical contribution to sustainable climate change adaptation in Oceania. In addition to presenting case studies, literary analyses, field projects, and empirical research, the book describes faith-engaged approaches through the prism of: • Context: past, present, and future prospects • Theory: concepts, narratives, and theoretical frameworks • Practice: empirical research and praxis-informed case examples • Doctrine: scriptural contributions and perspectives • Engagement: enlisting religious stakeholders and constituencies Comprising peer-reviewed works by scholars, professionals, and practitioners from across Oceania, the book closes a critical gap in the literature and represents a groundbreaking contribution to holistic climate change adaptation in the Pacific Islands Region that is scientifically sound, spiritually attuned, locally meaningful, and contextually compelling.

Queer Christianities

Queerness and Christianity, often depicted as mutually exclusive, both challenge received notions of the good and the natural. Nowhere is this challenge more visible than in the identities, faiths, and communities that queer Christians have long been creating. As Christians they have staked a claim for a Christianity that is true to their self-understandings. How do queer-identified persons understand their religious lives? And in what ways do the lived experiences of queer Christians respond to traditions and reshape them in contemporary practice? *Queer Christianities* integrates the perspectives of queer theory, religious studies, and Christian theology into a lively conversation—both transgressive and traditional—about the fundamental questions surrounding the lives of queer Christians. The volume contributes to the emerging scholarly discussion on queer religious experiences as lived both within communities of Christian confession, as well as outside of these established communities. Organized around traditional Christian states of life—celibacy, matrimony, and what is here provocatively conceptualized as promiscuity—this work reflects the ways in which queer Christians continually reconstruct and multiply the forms these states of life take. *Queer Christianities* challenges received ideas about sexuality and religion, yet remains true to Christian self-understandings that are open to further enquiry and to further queerness.

Josef Pieper on the Spiritual Life Nathaniel A. Warne, 2023-03-15 Warne s original study provides an insightful analysis of the role of contemplation and creation in the thought of Josef Pieper illustrating the importance of this practice to earthly happiness and human flourishing What is the relationship between creation contemplation human flourishing and moral development Nathaniel Warne s *Josef Pieper on the Spiritual Life* offers a sophisticated answer to this question through a systematic analysis of philosopher Josef Pieper s 1904 1997 thought Warne s examination centers on the role of contemplation and creation in Pieper s thinking arguing that contemplation of the created order is a key feature of earthly happiness By emphasizing the importance of contemplation Pieper illustrates the deep interconnections between ethics creation and spirituality For Warne to posit a binary between the contemplative life and active life creates a false dichotomy Following Pieper Warne claims that theology and spirituality cannot be bracketed from ethics and social action indeed our lived experience in the world blurs the lines between these practices Contemplation and action are closer together than are typically assumed and they have important implications for both our spiritual development and our engagement with the world around us Ultimately Warne s emphasis on creation and contemplation represents an attempt to resist a view of ethics and the spiritual life that is divorced from our environment In response to this view Warne argues that we need a renewed sense that creation and place are important for self understanding Contemplation of creation is fundamentally a form of communion with God we thus need a more robust sense of how ethics and politics are rooted in God s creative action Taking Pieper as a guide Warne s study helps to deepen our thinking about these connections

Alphanumeric Cosmology From Greek into Arabic Juan Acevedo, 2020-07-07 Juan Acevedo embarks on a semantic journey to track the origin and adventures of the Greek term *stoicheion* which for at least eighteen centuries from Pythagoras to Fibonacci simultaneously meant element letter and numeral Focusing on this triple meaning and on how it was translated and interpreted in Latin Hebrew and Arabic especially in key texts of the Abrahamic faiths a metaphysical study takes shape With touches of alchemy and theology it reveals how a shared fundamental alphanumeric cosmology underlay many basic paradigms of science and faith around the Mediterranean until the advent of the Indo Arabic numerals broke the marriage of letter and numeral Careful readings of Plato Philolaos Nicomachus and Philo of Genesis and the Sefer Yetsira of the Qur'an the Ikhwan al Safa and Ibn Arabi are all woven together into a synthesis full of implications for many disciplines **A Giant Tree has Fallen** Seifudein Adem, Jidefor Adibe, 2016-09-01 This book memorialising the life and work of Ali Alamin Mazrui comprises more than 130 tributes written by people ranging from heads of state to journalists Presented here are those tributes for which copyright permissions were received from among the hundreds that appeared online and print In preparing this book it was made very clear that unlike other books of tributes to great men and women there would be no segmentation of the sections based on writers and speakers positions in life Instead it was decided that the tributes be presented in alphabetical order based on writers and speakers last names The decision hinged on the fact that Mazrui would not have apposed any segmentation of people by class race ethnicity and gender etc Nonetheless out of great respect for Mazrui's immediate family members their tributes are presented first followed by those from his global family members Also included at the beginning of the book are three chapters that comprise an introductory essay a brief biography of Mazrui and an essay on metaphorical linguistic analysis of the tributes that follow The book also has a preface by the coeditors and a forward by Salim Ahmed Salim the former Prime Minister of the United Republic of Tanzania and Secretary General of the Organisation of African Unity OAU now known as the Africa Union Dr Salim who served as the Secretary General of the OAU from 1989 to 2001 was Mazrui's friend and contemporary Mazrui once described Salim as Mr Africa and the first real postcolonial Secretary General of the OAU **Word of Mouth** Gianni Guastella, 2017-01-13 The concept expressed by the Roman term *fama* although strictly linked to the activity of speaking recalls a more complex form of collective communication that puts diverse information and opinions into circulation by word of mouth covering the spreading of rumours expression of common anxieties and sharing of opinions about peers contemporaries or long dead personages within both small and large communities of people This hearsay method of information propagation of chain like transmission across a complex network of transfers of uncertain order and origin often rapid and elusive has been described by some ancient writers as like the flight of a winged word provoking interesting contrasts with more recent theories that anthropologists and sociologists have produced about the same phenomenon This volume proceeds from a brief discussion of the ancient concept to a detailed examination of the way in which *fama* has been personified in ancient and medieval literature and in European figurative art

between the end of the fourteenth and the beginning of the sixteenth centuries Commenting on examples ranging from Virgil's Fama in Book 4 of the Aeneid to Chaucer's House of Fame it addresses areas of anthropological sociological literary and historical artistic interest charting the evolving depiction of fama from a truly interdisciplinary perspective Following this theme it is revealed that although the most important personifications were originally created to represent the invisible but pervasive diffusion of talk which circulates information about others these then began to give way to embodiments of the abstract idea of the glory of illustrious men By the end of the medieval period these two different representations of rumour and glory were variously combined to create the modern icon of Fame with which we are more familiar today The Path of Christianity John Anthony McGuckin, 2017-05-16 John McGuckin a world renowned expert on ancient Christianity has synthesized a lifetime of work to produce the most comprehensive and accessible history of the first millennium of the Christian church This readable account explores the history in chronological order and then examines the same period thematically looking at issues like women war and the Bible **Judaic Technologies of the Word** Gabriel Levy, 2014-10-14 Judaic Technologies of the Word argues that Judaism does not exist in an abstract space of reflection Rather it exists both in artifacts of the material world such as texts and in the bodies brains hearts and minds of individual people More than this Judaic bodies and texts both oral and written connect and feed back on one another Judaic Technologies of the Word examines how technologies of literacy interact with bodies and minds over time The emergence of literacy is now understood to be a decisive factor in religious history and is central to the transformations that took place in the ancient Near East in the first millennium BCE This study employs insights from the cognitive sciences to pursue a deep history of Judaism one in which the distinctions between biology and culture begin to disappear
