The Art of Maya : an Introduction to 3D Computer Graphics , 2002 *Computers in Art, Design and Animation* John Lansdown, Rae Earnshaw, 2012-12-06 The collection of papers that makes up this book arises largely from the joint activities of two specialist groups of the British Computer Society namely the Displays Group and the Computer Arts Society Both these groups are now more than 20 years old and during the whole of this time have held regular separate meetings In recent years however the two groups have held a joint annual meeting at which presentations of mutual interest have been given and it is mainly from the last two of these that the present papers have been drawn They fall naturally into four classes visualisation art design and animation although as in all such cases the boundaries between the classes are fuzzy and overlap inevitably occurs Visualisation The graphic potential of computers has been recognised almost since computing was first used but it is only comparatively recently that their possibilities as devices for the visualisation of complex and largely abstract phenomena has begun to be more fully appreciated Some workers stress the need to be able to model photographic reality in order to assist in this task They look to better algorithms and more resolution to achieve this end Others Alan Mackay for instance suggest that it is not just a matter of providing more and more pixels It is a matter of providing congenial clues which employ to the greatest extent what we already know The Art Activity Manual Marylyn

Cropley,2017-04-28 A simple flexible and practical approach to art activities this book enables group members to explore and discover their own level of artistic skills creative styles and preferences The activities can be used by anyone regardless of art ability and there are more than 100 ideas and suggestions with detailed session plans Based on doing and enjoying the activities use the minimum of equipment and can be adapted to suit people with mixed abilities and level of need Specifically designed for adults with learning disabilities physical disabilities and sensory loss people with mental health needs and older people the activities can also be used by teachers and individual artists Art is a powerful intervention and communication tool and these activities can also be used to improve communication skills build confidence and self esteem and develop self awareness The practical and non prescriptive approach of this photocopiable book is ideal for all group facilitators who need a quick and easy way of using art activities therapeutically
