of the Kabbalah and sharp critic of Jewish assimilation played a major role in the study and popularization of Jewish mysticism Through his work on the Kabbalah Scholem turned the closed world of mystical texts into a force for Jewish identity Skillfully drawing on Scholem's early diaries and writings *The Father of Jewish Mysticism* introduces a young soon to be legendary intellectual in search of himself and Judaism *Adventures with the Theory of the Baroque and French Philosophy* Nadir Lahiji, 2016-09-22 Analysing the reception of contemporary French philosophy in architecture over the last four decades *Adventures with the Theory of the Baroque and French Philosophy* discusses the problematic nature of importing philosophical categories into architecture Focusing particularly on the philosophical notion of the Baroque in Gilles Deleuze this study examines traditional interpretations of the concept in contemporary architecture theory throwing up specific problems such as the aestheticization of building theory and practice Identifying these and other issues Nadir Lahiji constructs a concept of the baroque in contrast to the contemporary understanding in architecture discourse Challenging the contemporary dominance of the Neo Baroque as a phenomenon related to postmodernism and late capitalism he establishes the Baroque as a name for the paradoxical unity of kitsch and high art and argues that the digital turn has enhanced the return of the Baroque in contemporary culture and architectural practice that he brands a pseudo event in the term neobaroque Lahiji's original critique expands on the misadventure of architecture with French Philosophy and explains why the category of the Baroque if it is still useful to keep in architecture criticism must be tied to the notion of Post Rationalism Within this latter notion he draws on the work of Alain Badiou to theorize a new concept of the Baroque as Event Alongside close readings of Walter Benjamin Theodor Adorno and Michel Foucault related to the criticism of the Baroque and Modernity and discussions of the work of Frank Gehry in particular this study draws on Jacques Lacan's concept of the baroque and presents the first comprehensive treatment of the psychoanalytical theory of the Baroque in the work of Lacan
