Ending the Drug Addiction Pandemic Phd James R. Milam, 2013-11 Ending the Drug Addiction Pandemic Discovering the Liberating Truth corrects disinformation about psychoactive drugs Dr James R Milam Ph D was a decorated P 47 fighter bomber pilot in the U S Air Force during World War II flying 86 combat missions After the war he earned B S M S and Ph D degrees in psychology at the University of Washington He practiced as a licensed clinical psychologist before becoming the behavioral research director in a Seattle lab conducting research on alcoholism For the first time ever his research revealed and documented the fact soon confirmed by others that alcoholism is a brain syndrome regularly misdiagnosed as a psychiatric problem and destructively treated with drugs and psychotherapy He spent many years writing and lecturing on his discovery and co founded several highly effective model addiction treatment centers For 30 years his classic book Under the Influence 1981 based on his discovery has been a best seller in the field and the essential guide to effective treatment at addiction treatment centers Millions of alcoholics owe their full recovery to this new understanding About the Author Having officially retired 25 years ago James R Milam Ph D says that once this book is published he can really retire at age 91 He wrote this book to bring awareness to the fact that millions of alcoholics and prescription drug addicts were callously being destroyed by disinformation Publisher s website <http://sbprabooks.com> JamesRMilam Stop! Humanity's Roots Live Francesco Sardina, 2020-04-20 For nearly eight decades of life I have not witnessed a single change in the nature of humans but recognize that all humans possess the same cognitive traits and characteristics differentiated only by scale or degree Environment and opportunity influence these not nature Briefly this book was prompted by what I would refer to as the audacity of modernity That is that is that somehow modern conveniences including technology has rewarded the current generation superior to all that came before In this writing we will see that changing one s circumstances without a change of heart is a fool s errand Francesco Sardina has done a masterful job of summarizing and evaluating 6000 years of human history from the Garden of Eden to our world of COVID 19 The book is philosophical and reflective good for us seniors and requires us to put on our thinking caps as we read It s an up to date critique of modern day society as well as ancient societies The author notes that as a pattern nations rise and fall throughout time and warns us that the US is no exception In fact he shows that in spite of scientific and technological advances even now the US is showing definite signs of decline He implies that unless we want to repeat history we should put our houses in order and return to the basics We should choose truth goodness and beauty over power mongering sexual incontinence and treasure hoarding Without being pushy the author recommends that we as a nation return to the virtues of honesty and integrity given in the Christian Bible The first half of the book covers world history from 4000 BC The second half begins in 1940 and brings us up to the present Skillfully woven are comments about the author s own biography I came away thinking that this book is a must read for all members of our US Congress as well as for all those of us concerned with the current direction of our nation I found it rewarding to read and

highly recommend it to you Dr Ronald L Trail It took me about two months of reading on and off but I finished reading your book *Stop Humanity's Roots Live* this afternoon My daughter Lisa bought a copy from Amazon after I mentioned to her that my best man from 42 years ago was now an accomplished author She read your book cover to cover before leaving it with me as a gift When I asked her how she liked it she refused to answer and just said I needed to read it myself and make my own decision unbiased by her opinion What a read I must admit that early on my expectations were mediocre at best But it took a bit of time for me to be comfortable with your grammar and writing style which admittedly was a bit above my pay grade But as I got into the meat of your narrative I absolutely enjoyed reading your book I especially enjoyed your discussion about the makers and takers since I have thought similarly for quite some time Many of your personal stories were familiar to me having known you during your transition period from city slicker to farmer and land owner however you provided details heretofore unknown to me that occasionally brought a tear to my eye One such detail involved early struggles with your affliction and another being the enduring love motivation and support from your beautiful wife Connie The sequence of events expounded upon on a decade by decade basis was easy to follow and informative to boot Harmony we could use a bit more of that in our daily lives for sure Nice job Life long distant friend Russ Anderson
