## **Energy Subsidy Reform In Sub Saharan Africa Experiences And Lessons African Department:**

**Energy Subsidy Reform in Sub-Saharan Africa** Mr.Trevor Serge Coleridge Alleyne,Mr.Mumtaz Hussain,2013-08-13

The reform of energy subsidies is an important but challenging issue for sub Saharan African SSA countries There is a relatively large theoretical and empirical literature on this issue While this paper relies on that literature too it tailors its discussion to SSA countries to respond to the following questions Why it is important to reduce energy subsidies What are the difficulties involved in energy subsidy reform How best can a subsidy reform be implemented This paper uses various sources of information on SSA countries quantitative assessments surveys and individual but standardized case studies

**Regional Economic Outlook, October 2017, Sub-Saharan Africa** International Monetary Fund. African

Dept.,2017-11-27 Growth in sub Saharan Africa has recovered relative to 2016 but the momentum is weak and per capita incomes are expected to barely increase Further vulnerabilities have risen in many countries adding to the urgency of implementing the fiscal consolidations planned in most countries and with stepped up efforts to strengthen growth

**Socially Responsive Organizations & the Challenge of Poverty** Milenko Gudi?,Al Rosenbloom,Carole

Parkes,2017-09-08 This book provides a combination of case studies and current action research describing how businesses and civil society organizations are working to alleviate poverty in local and global communities It intends to provide conceptual and research rationales for why management education and management institutions must address the issue of poverty The book responds to one of the major findings from the research of the PRME Working Group on Poverty that the topic of poverty still lacks a strong business case for management educators and program institutional administrators The distinctive features of this book are that it 1 includes examples of small and medium sized SME businesses 2 deals with the issue of poverty as a human rights violation 3 explores the issue of absolute versus relative poverty 4 deals with leadership challenges in organizations committed to poverty alleviation and 5 discusses the issues in terms of management education s responsibility for setting new management research institutional and intellectual agendas The first of two books to be produced by the PRME Working Group on Poverty Socially Responsive Organizations and The Challenge of Poverty aims to provide both researchers and practitioners with the most wide ranging coverage yet published on how business can be a positive force in alleviating poverty and how management education needs to adapt to this increasingly crucial prerogative

*Greening Industrialization in Sub-Saharan Africa* Ralph Luken,Edward Clarence-Smith,2020-04-21 This book explores the concept of greening industrialisation and issues and considerations surrounding it through the lens of Sub Saharan Africa The book critically examines the concept of greening industrialisation and describes the progress and data challenges of monitoring the Sustainable Development Goals confronting African countries The chapters summarise the policy and programme literature focused on eight policy regimes essential for greening industrialisation and identify opportunities for greening industrial policies The authors lay out a research agenda that would inform enable and support greening

industrialisation in Sub Saharan Africa and provide an overview of green industrial plans that include climate strategies energy efficiency strategies and green industry assessments This book will be of great interest to students scholars policy makers and planners in the fields of Sub Saharan African development and African environmentalism Infrastructure and Poverty in Sub-Saharan Africa A. Estache,Q. Wodon,2014-11-19 Infrastructure and Poverty in Sub Saharan Africa analyzes the extent to which how and how fast the infrastructure needs of the poor have been met in Sub Saharan Africa Estache and Wodon explore the extent to which some key policies have hurt or helped progress in trying to speed the expansions of coverage so clearly needed in the region They focus on electricity water sanitation and other services at the core of the day to day needs of the population examining the extent to which reforms of the last 15 20 years have managed to reduce the infrastructure gap They anchor their analysis on the evidence available about the macroeconomic importance of infrastructure for the region the policies that have been adopted to accelerate coverage and a detailed assessment of the poverty dimensions of infrastructure **Publications Catalog, Fall 2014** International Monetary Fund,2014-09-25 This paper presents an overview of the book Collapse and Revival Understanding Global Recessions and Recoveries that tracks the global business cycle through the destruction of a global recession to the renewal of recovery drawing on four major episodes during the past half century This book defines the terms of global recessions and recoveries documents their main features describes the events that take place around these episodes puts the latest global recession and ongoing recovery in perspective and analyzes the interactions between fluctuations in the global growth and national growth over the different phases of the global cycle *Publications Catalog, Fall 2016* International Monetary Fund. Communications Department,2016-10-05 This paper provides policymakers academics and the public with valuable information about policies and institutions in China today the road ahead and key principles that can help in navigating it The paper focuses on crucial issues in the country s transformation such as tax policy and administration social security state owned enterprise reform medium term expenditure frameworks the role of local government finances Renminbi internationalization and macroeconomic statistics Women make up a little over half of the world s population but their contribution to measured economic activity and growth is far below its potential Despite significant progress in recent decades labor markets across the world remain divided along gender lines and progress toward gender equality seems to have stalled Women s economic empowerment is critical for the overall economy As research conducted both inside and outside the IMF shows empowering women can boost economic growth reduce income inequality support export diversification and strengthen corporate performance *Regional Economic Outlook, April 2014, Sub-Saharan Africa* International Monetary Fund,2014-04-24 The five Regional Economic Outlooks published biannually by the IMF cover Asia and Pacific Europe the Middle East and Central Asia Sub Saharan Africa and the Western Hemisphere In each volume recent economic developments and prospects for the region are discussed as a whole as well as for specific countries The reports include key data for countries in the region Each

report focuses on policy developments that have affected economic performance in the region and discusses key challenges faced by policymakers. The near term outlook, key risks and their related policy challenges are analyzed throughout the reports and current issues are explored such as when and how to withdraw public interventions in financial systems globally while maintaining a still fragile economic recovery. These indispensable surveys are the product of comprehensive intradepartmental reviews of economic developments that draw primarily on information the IMF staff gathers through consultation with member countries.

Regional Economic Outlook, May 2013, Sub-Saharan Africa International Monetary Fund. African Dept., 2013-05-22. Growth remained strong in the region in 2012 with regional GDP rates increasing in most countries excluding Nigeria and South Africa. Projections point to a moderate broad based acceleration in growth to around 5.1-5.2 percent in 2013-14 reflecting a gradually strengthening global economy and robust domestic demand. Investment in export oriented sectors remains an important economic driver and an agriculture rebound in drought affected areas will also help growth. Uncertainties in the global economy are the main risk to the region's outlook but plausible adverse shocks would likely not have a large effect on the region's overall performance.

**Poverty, Growth, and Inequality in Sub-Saharan Africa** Mr. Daouda Sembene, 2015-06-12. Poverty Reduction Strategy Paper PRSP countries in Sub-Saharan Africa have shown strong signs of growth resilience in the aftermath of the recent global crisis. Yet this paper finds evidence that growth has more than proportionately benefited the top quintile during PRSP implementation. It finds that PRSP implementation has neither reduced poverty headcount nor raised the income share of the poorest quintile in Sub-Saharan Africa. While countries in other regions have been more successful in reducing poverty and increasing the income share of the poor, there is no conclusive evidence that PRSP implementation has played a role in shaping these outcomes.

*IMF Publications Catalog, Fall/Winter 2017* International Monetary Fund. External Relations Dept., 2017-09-07. This paper discusses about countries that must chart their own paths to effectively balance the potential benefits against the risks and challenges including institutional and capacity constraints, privacy concerns and new avenues for fraud and evasion. The digital revolution holds vast potential for fiscal policies. By transforming the way fiscal systems collect process and act on information it can expand and reshape the way governments design and implement their tax spending and macro fiscal policies. Countries will need to chart a path based on their individual circumstances either by taking incremental steps to digitize or by leapfrogging to newer and more sophisticated methods of policy formulation and implementation. A recurring theme in this book is the need for greater regional coordination in finding solutions to address the Caribbean's shared and intertwined macroeconomic and structural challenges. The analysis suggests that strengthening regional and global market integration of Caribbean economies would provide an impetus to sustained growth in incomes and jobs.

*Social Protection in East Africa Harnessing the Future* OECD, 2017-04-26. This strategic foresight report assesses the interaction between demographics, economic development, climate change and social protection in six countries in East Africa between now and 2065: Ethiopia, Kenya,

Mozambique Tanzania Uganda and Zambia The report combines population projections **Regional Economic Outlook, April 2015, Sub-Saharan Africa** International Monetary Fund. African Dept.,2015-04-28 The sharp decline in oil and other commodity prices have adversely impacted sub Saharan Africa Nevertheless the region is projected to register another year of solid economic performance In South Africa however growth is expected to remain lackluster while in Guinea Liberia and Sierra Leone the Ebola outbreak continues to exact a heavy economic and social toll This report also considers how sub Saharan Africa can harness the demographic dividend from an unprecedented increase in the working age population as well as the strength of the region s integration into global value chains Regional Economic Outlook, October 2013, Sub-Saharan Africa International Monetary Fund. African Dept.,2013-10-31 The October 2013 Regional Economic Outlook Sub Saharan Africa provides a comprehensive report on the prospects for growth in the region as well as the major risks to the outlook Generally growth is expected to remain strong despite a downward revision since the May 2013 report The report analyzes drivers of growth in nonresource rich sub Saharan African countries and examines the risks to frontier market economies of volatile capital flows as they become more integrated with international capital markets **Senegal: Selected Issues** International Monetary Fund. African Dept.,2022-01-14 Selected Issues **Regional Economic Outlook, April 2017, Sub-Saharan Africa** Céline Allard,2017-05-09 Growth momentum in sub Saharan Africa remains fragile marking a break from the rapid expansion witnessed since the turn of the millennium 2016 was a difficult year for many countries with regional growth dipping to 1.4 percent the lowest level of growth in more than two decades Most oil exporters were in recession and conditions in other resource intensive countries remained difficult Other nonresource intensive countries however continued to grow robustly A modest recovery in growth of about 2.6 percent is expected in 2017 but this falls short of past trends and is too low to put sub Saharan Africa back on a path of rising living standards While sub Saharan Africa remains a region with tremendous growth potential the deterioration in the overall outlook partly reflects insufficient policy adjustment In that context and to reap this potential strong and sound domestic policy measures are needed to restart the growth engine **The Impact of Fiscal Consolidations on Growth in Sub-Saharan Africa** Francisco Arizala,Mr.Jesus R Gonzalez-Garcia,Mr.Charalambos G Tsangarides,Mustafa Yenice,2017-12-14 This paper examines the output effects of changes in public expenditure and revenue in sub Saharan African countries during 1990-2016 Fiscal multipliers in sub Saharan Africa are somewhat smaller than those in advanced and emerging economies The effect of changes in fiscal policy on output depends on the composition cutting public investment has a larger effect on output than cutting public consumption or raising revenue Episodes of fiscal consolidation have short and medium term output effects but here too composition matters fiscal consolidations based on reducing public investment have the largest effect on output while fiscal consolidations based on revenue mobilization are less harmful than those based on public investment cuts These findings suggest that the negative impact on growth can be mitigated through the design of fiscal adjustment and the

accompanying policy environment      Handbook on Green Growth Roger Fouquet, 2019 Economies around the world have arrived at a critical juncture to continue to grow fuelled by fossil fuels and exacerbate climate change or to move towards more sustainable greener growth Choosing the latter is shown to help address climate change as well as present new economic opportunities This Handbook provides a deeper understanding of the concept of green growth and highlights key lessons from the experience of green transformations across the world following a decade of ambitious stimulus packages and green reforms      *Niger* International Monetary Fund. African Dept., 2015-03-11 This Selected Issues paper presents an external stability assessment on Niger Niger's current account balance deteriorated in 2013 mostly on account of higher food and capital goods imports The deficit is expected to widen further in 2014/15 mainly driven by large investment in the extractive industry and basic infrastructure The current account is projected to gradually improve from 2016 as important projects in infrastructure will come to end the oil and mining sectors come on stream and public and private savings increase Although aid and foreign direct investments are the main sources of external financing external borrowing mainly on concessional terms has increased significantly      *Sustainable Economic Development* Arsenio Balisacan, Ujjayant Chakravorty, Majah-Leah Ravago, 2014-09-20 Sustainable Economic Development Resources Environment and Institutions presents 25 articles that lay the foundations of sustainable development in a way that facilitates effective policy design The editors mix broad thematic papers with focused micro papers balancing theories with policy designs The book begins with two sections on sustainable development principles and practice and on specific settings where sustainable development is practiced Two more sections illuminate institutions governance and political economy Additional sections cover sustainable development and agriculture and risk and economic security including disaster management This rich source of information should appeal to any institution involved in development work and to development practitioners grappling with an array of difficult on the ground developmental challenges Analyzes policies that move markets and resource use patterns towards achieving sustainability Articles are kaleidoscopic in scope and creativity Authors embody extraordinary diversity and qualifications
