Seduction Rachel O'Neill, 2018-06-28 Within the so called seduction community the ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development Though it has been an object of media speculation and frequent sensationalism for over a decade this cultural formation remains poorly understood In the first book length study of the industry Rachel O'Neill takes us into the world of seduction seminars training events instructional guidebooks and video tutorials Pushing past established understandings of pickup artists as pathetic pathological or perverse she examines what makes seduction so compelling for those drawn to participate in this sphere Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life as labour intensive and profit orientated modes of sociality consume other forms of being and relating It is essential reading for students and scholars of gender sexuality sociology and cultural studies as well as anyone who wants to understand the seduction industry s overarching logics and internal workings

LeaderShifts Joseph W. Walker III, 2014-02-18 Our world isn't slowing down so only those who are willing to maneuver the tectonic cultural shifts will have sustainable ministry From his extensive experience and using the biblical story of Joseph as an extended metaphor Bishop Joseph Walker shares practical wisdom designed to help leaders reach out and equip their church to share a relevant Christian message Joseph W Walker III is bishop of Mount Zion Baptist Church of Nashville Tennessee Under his leadership and over a span of twenty years the church has grown from 175 to more than 28 000 members During this time Bishop Walker has seen people struggle to embrace the new things God is doing and he fully appreciates how change heightens the demands of leadership Shifting approaches to follow where God leads can also mean that leaders have to risk confronting cherished tradition which Bishop Paul Morton calls frozen success But shifting to meet new opportunities is also a delicate balance that acknowledges history while also being sensitive to those loyal people who have sustained the organization to this point Effective leadership does not impose new ideas upon old systems without a strategy that enables everyone in the organization moving forward together It's not simply out with the old and in with the new Successful organizations do not forget their history but they commit themselves to using it as a bridge to propel them to their destiny
