interested in the ethical and philosophical issues that are transforming and touching our lives The book uniquely focuses both western and non western approaches **The Oxford Handbook of Consequentialism** Douglas W. Portmore,2020-09-17

Consequentialism is a major moral theory in contemporary philosophy it is the view that the only thing that matters when making moral decisions is the outcome of those decisions Consequentialists hold that to morally assess an act we must first evaluate and rank the various ways that things could turn out depending on whether it or some alternative act is performed Whether we should perform that act thus depends on how its outcome ranks relative to those of its alternatives

Consequentialism rivals deontology contractualism and virtue ethics but more importantly it has influenced contemporary moral philosophy such that the consequentialist non consequentialist distinction is one of the most central in normative ethics After all every plausible moral theory must concede that the goodness of an act s consequences is something that matters even if it s not the only thing that matters Thus all plausible moral theories will accept that both 1 an act s producing good consequences constitutes a moral reason to perform it and 2 the better its consequences the more of a moral reason there is to perform it In this way much of consequentialist ethical theory is important for normative ethics in general This Oxford Handbook contains thirty two previously unpublished contributions by top moral philosophers examining the current state of play in consequentialism and pointing to new directions for future research The volume is organized into four major sections foundational issues objections to consequentialism its forms and limits and consequentialism s implications for policy practice and social reform *Ethics and the Autonomy of Philosophy* Bernard James Walker,2014-11-06 In *Ethics and the Autonomy of Philosophy* Bernard Walker sets out with two objectives First Walker argues that ethics is autonomous as a discipline Oftentimes ethics books from a Christian perspective lean toward grounding ethics in theology or in biblical proof

texting Walker departs from this tradition Ethics grounded in theology entails a limited scope for those doing ethics in that the Christian God must be assumed for both Christian and non Christian when at the table of ethical dialogue For the non Christian this loads the dice and shuts down ethical consensus and dialogue if not ethical truth With that said this book does not depart from Christian ethical views on such issues as the sanctity of life antiracism the death penalty the objectivity of ethics and the importance of integrating faith into ethics however Walker does so from a common denominator of philosophy rather than theology Second Walker ventures into the streets and engages the man woman on the streets approach to ethics and ethical decision making He points out the shortcomings of the ubiquitous views of the man woman on the streets viz cultural relativism skepticism and the attitude that ethics is merely a matter of personal choice **The Philosopher's**

Index ,1995 Vols for 1969 include a section of abstracts [Life, Death, and Subjectivity](#) Stan van Hooft,2004 This book presents an exploration of concepts central to health care practice In exploring such concepts as Subjectivity Life Personhood and Death in deep philosophical terms the book aims to draw out the ethical demands that arise when we encounter these phenomena and also the moral resources of health care workers for meeting those demands The series

Values in Bioethics makes available original philosophical books in all areas of bioethics including medical and nursing ethics health care ethics research ethics environmental ethics and global bioethics *Ethics* James P. Sterba, 2009-02-24 As with the first edition Utilitarian Kantian and Aristotelian viewpoints are all well represented here and this second edition features updated sections throughout including eighteen new readings and an entirely new section on multiculturalism Presents students with a unique focus on three main challenges to ethics feminism environmentalism and multiculturalism

Pedagogical focus on the big questions motivates student interest Collects readings on all key traditional theoretical and practical questions in ethics **The Ethics of Nonviolence** Robert L. Holmes, 2013-06-20 Robert Holmes is one of the leading proponents of nonviolence in the United States and his influence extends to the rest of the world However he has never presented his views on nonviolence in full length book form The Ethics of Nonviolence brings together his best essays on the topic both classic works and more obscure pieces as well as several important essays that have never been published Holmes started his career by following Dewey and James and then turned toward metaethics The Vietnam War finally led him toward moral problems related to war and violence For the last forty years he has been a great proponent of nonviolence and pacifism in the style of Tolstoy and Gandhi If ethics is meant to be more than a purely academic exercise the theoretical ethics of philosophy must be shown to be relevant to applied morality the ongoing process of making moral judgments must add value to the world we live in For Robert Holmes no aspect of reality is more in need of ethical thinking and reform than the culture of war and violence that cannot be ignored There are morally viable alternatives to this violence Holmes argues and he scrutinizes the sources and implications of such positions Holmes shows that nonviolence and pacifism can lead us toward a more peaceful and humanely dignified world Philosophy of Love, Sex, and Marriage Raja Halwani, 2018-01-29
