**Rachel Sandford**

## **Enemies Of The Enlightenment The French Counter Enlightenment And The Making Of Modernity:**

**Enemies of the Enlightenment** Darrin M. McMahon, 2001-08-23 Critics have long treated the most important intellectual movement of modern history the Enlightenment as if it took shape in the absence of opposition In this groundbreaking new study Darrin McMahon demonstrates that on the contrary contemporary resistance to the Enlightenment was a major cultural force shaping and defining the Enlightenment itself from the moment of inception while giving rise to an entirely new ideological phenomenon what we have come to think of as the Right McMahon skillfully examines the Counter Enlightenment showing that it was an extensive international and thoroughly modern affair *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam The Oxford Handbook of Early Modern European History, 1350-1750 Hamish M. Scott, 2015 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power **The**

**Oxford Handbook of the French Revolution** David Andress, 2015-01-22 The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought provoking insights into the history and historiography of this epochal event Each chapter presents the foremost summations of academic thinking on key topics along with stimulating and provocative interpretations and suggestions for future research directions Placing core dimensions of the history of the French Revolution in their transnational and global contexts the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors whether the king and his ministers or the besieged leaders of the Jacobin republic and attention to the deeply local politics of both rural and urban populations Identities of class gender and ethnicity are interrogated but so too are conceptions and practices linked to citizenship community order security and freedom each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution the different dimensions of personal and social experience that illuminate the political moment of 1789 itself the goals and dilemmas of the period of constitutional monarchy the processes of destabilisation and ongoing conflict that ended that experiment the key issues surrounding the emergence and experience of terror and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics

**The Cambridge History of Modern European Thought** Warren Breckman, Peter Eli Gordon, 2019 In these well nigh encyclopedic volumes Warren Breckman and Peter E Gordon engage in a daunting feat They offer compact and informative introductions to essays on very many crucial dimensions of thought in the nineteenth and twentieth centuries And they furnish along with their own substantive chapters contributions from an array of prominent scholars of intellectual and cultural history all of whom demonstrate impressive expertise in their varied areas of inquiry The result is an important work of both scholarly and general interest Back cover

**After the Enlightenment** Nicolas Guilhot, 2017-04-24 After the Enlightenment is the first attempt at understanding modern political realism as a historical phenomenon Realism is not an eternal wisdom inherited from Thucydides Machiavelli or Hobbes but a twentieth century phenomenon rooted in the interwar years the collapse of the Weimar Republic and the transfer of ideas between Continental Europe and the United States The book provides the first intellectual history of the rise of realism in America as it informed policy and academic circles after 1945 It breaks through the narrow confines of the discipline of international relations and resituates realism within the crisis of American liberalism Realism provided a new framework for foreign policy thinking and transformed the nature of American democracy This book sheds light on the emergence of rational choice as a new paradigm for political decision making and speaks to the current revival in realism in international affairs

**Bad Subjects** Jennifer J. Davis, 2023-07 In a lively account that spans continents Jennifer J Davis considers what it meant to be called a libertine in early modern France and its colonies Libertinage was a polysemous term in early modern Europe and the Atlantic World generally translated as

debauchery or licentiousness in English Davis assesses the changing fortunes of the quasi criminal category of libertinage in the French Atlantic based on hundreds of cases drawn from the police and judicial archives of seventeenth and eighteenth century France and its Atlantic colonies alongside the literature inspired by those proceedings The libertine life was not merely a subject for fiction nor a topos against which to play out potential revolutions It was a charge authorities imposed on a startlingly wide array of behaviors including gambling selling alcohol to Native Americans and secret marriages Once invoked by family and state authorities the charge proved nearly impossible for the accused to contest for a libertine need not have committed any crimes to be perceived as disregarding authority and thereby threatening families and social institutions The research in *Bad Subjects* provides a framework for analysis of libertinage as a set of anti authoritarian practices and discourses that circulated among the peoples of France and the Atlantic World ultimately providing a compelling blueprint for alternative social and economic order in the Revolutionary period **Cosmopolitan**

**Conservatism**, 2021-05-12 This volume presents a fresh picture of the historical development of conservatism from the late 17th to the early 20th century The book explores the broader geographies and transnational dimensions of conservatism and counterrevolution The contributions show how counterrevolutionary concepts did not emerge in isolation but resulted from the interplay between ideas media networks and institutions Like 19th century liberalism and socialism conservatism was the product of traveling ideas and people This study describes how exile mobility and international sociability shaped counterrevolutionary identities The volume presents case studies on the intersection of political philosophy scholarly practices international politics and governmental bureaucracies Furthermore *Cosmopolitan Conservatism* offers new approaches to the study of conservatism including the prisms of ecology gender and digital history Contributors are Alicia Montoya Carolina Armenteros Simon Burrows Wyger Velema Michiel van Dam Glauco Schettini Nigel Aston Brian Vick Lien Verpoest Beatrice de Graaf Jean Philippe Luis Joep Leerssen Amerigo Caruso Joris van Eijnatten Emily Jones Aymeric Xu and Axel Schneider *A History of Russian Literature* Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie

Sandler, 2018-04-05 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century *A History of Russian Literature* provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods

and in particular bring out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation

*Antiliberal Internationalism in the Twentieth Century* Matthijs Lok,Marjet Brolsma,Robin de Bruin,Stefan Couperus,Rachel McElroy White,2025-05-21 This book shows how antiliberal discourse thought and mobilization have in defiance of nationalist aims been significantly shaped and determined in the international sphere as new collaborations position themselves against the liberal order established after the fall of the Berlin Wall Despite often drawing inspiration from nationalist movements and ideologies antiliberalism is a phenomenon that transcends domestic contexts and settings in important ways This collection of essays charts the many sided aspects of twentieth century internationalism and its contemporary developments across the globe Without excluding well known European sources of antiliberal internationalism it decentres the European experience by exploring specific case studies from South and East Asia the Middle East the Americas Africa and Oceania Moreover the volume abundantly demonstrates that liberalism and anti liberalism cannot be considered as fixed entities as anti liberalism was and is as much defined by its enemies as by its advocates This book is intended for scholars and students of International Studies Intellectual History Political History Political Science European Studies and Global Studies as well as for journalists and policymakers interested in contemporary Europe cosmopolitanism political polarization and the traditions of the right and far right

**The Politics of Moderation in Modern European History** Ido de Haan,Matthijs Lok,2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century Juste Milieu and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view

*Fighting the Last War* Jeffrey M. Bale,Tamir Bar-On,2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and

definitional clarity with respect to terms like fascism the radical right the alt right white supremacy populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing deplatforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations

**Converging Worlds** Louise A. Breen, 2013-06-17

Providing a survey of colonial American history both regionally broad and Atlantic in coverage *Converging Worlds* presents the most recent research in an accessible manner for undergraduate students With chapters written by top notch scholars *Converging Worlds* is unique in providing not only a comprehensive chronological approach to colonial history with attention to thematic details but a window into the relevant historiography Each historian also selected several documents to accompany their chapter found in the companion primary source reader *Converging Worlds Communities and Cultures in Colonial America* includes timelines tailored for every chapter chapter summaries discussion questions lists of further reading introducing students to specialist literature fifty illustrations Key topics discussed include French Spanish and Native American experiences regional areas such as the Midwest and Southwest religion including missions witchcraft and Protestants the experience of women and families With its synthesis of both broad time periods and specific themes *Converging Worlds* is ideal for students of the colonial period and provides a fascinating glimpse into the diverse foundations of America For additional information and classroom resources please visit the *Converging Worlds* companion website at [www.routledge.com/textbooks/9780415964999](http://www.routledge.com/textbooks/9780415964999)

**A Companion to the French Revolution** Peter McPhee, 2014-12-15

**Revolutions in the Atlantic World, New Edition**

Wim Klooster, 2018-01-23 Introduction Empires at war Civil war in the British Empire the American Revolution The war on privilege and dissension the French Revolution From prize colony to black independence the revolution in Haiti Multiple routes to sovereignty the Spanish American revolutions The revolutions compared causes patterns legacies [Freedom of Religion, Secularism, and Human Rights](#) Nehal Bhuta, 2019-01-24 This interdisciplinary volume examines the relationship between secularism freedom of religion and human rights in legal theoretical historical and political perspective It brings

together chapters from leading scholars of human rights law and religion political theory religious studies and history and provides insights into the state of the debate about the relationship between these concepts Comparative in orientation its chapters draw on constitutional and political discourses and experience not only from Western Europe and the United States but also from India the Arab world and Malaysia

**Hope and Fear** Ronald H. Fritze, 2022-04-18 A myth busting journey through the twilight world of fringe ideas and alternative facts Is a secret and corrupt Illuminati conspiring to control world affairs and bring about a New World Order Was Donald Trump a victim of massive voter fraud Is Elizabeth II a shapeshifting reptilian alien Who is doing all this plotting In Hope and Fear Ronald H Fritze explores the fringe ideas and conspiracy theories people have turned to in order to make sense of the world around them from myths about the Knights Templar and the Ten Lost Tribes of Israel to Nazis and the occult the Protocols of Zion and UFOs As Fritze reveals when conspiracy theories myths and pseudo history dominate a society's thinking facts reality and truth fall by the wayside
