Preparing for a PDF review

About managed PDF reviews

In a managed review, you can be asked to set up your review, specify the document to review, and invite participants. You don't have to import comments, create commenting for Tracker users, or manually track reviewer responses.

Note: Acrobat Pro or Acrobat Pro Extended is required to enable commenting for Tracker users in managed reviews.

Acrobat includes two types of managed reviews: shared and manual-based reviews. Each type of review has a template that helps you distribute a PDF with special tools and instructions to reviewers.

The Tracker tracks all managed reviews. Tracker provides access to the PDF file and information about the review and its participants. Reviewers can change review deadlines, add reviewers, and end reviews using Tracker. Tracker lets participants know when new comments are available, when deadlines are changed, and when reviewers are added, even when Acrobat is closed. It also provides information about current review status.

Note: Managed reviews cannot be conducted for PDF Portfolios.

Shared reviews

Shared reviews are the most collaborative form of review because participants can read and reply to the comments of other participants. Comments from participants are stored in a repository on Acrobat.com or on an internal server. Acrobat synchronizes comments at regular intervals to download all the latest changes. Reviewers are notified when comments are added, and can see and reply to comments made by other reviewers.
