Illicit Flirtations Rhacel Salazar Parreñas, 2011-09-12 An excellent ethnography that reveals the global implications of the US morality on international policies and migrant workers Cristina Firpo International Review of Modern Sociology In 2004 the US State Department declared Filipina hostesses in Japan the largest group of sex trafficked persons in the world Since receiving this global attention the number of hostesses entering Japan has dropped by nearly 90 percent To some this might suggest a victory for the global anti trafficking campaign but Rhacel Parre as counters that this drastic decline which stripped thousands of migrants of their livelihoods is a setback Parre as worked alongside hostesses in a working class club in Tokyo s red light district serving drinks and entertaining her customers While the common assumption has been that these hostess bars are hotbeds of sexual trafficking Parre as quickly discovered a different world of working migrant women there by choice and most importantly where none were coerced into prostitution Illicit Flirtations calls into question the US policy to broadly label these women as sex trafficked It highlights how in imposing top down legal constraints to solve the perceived problems including laws that push dependence on migrant brokers and measures that criminalize undocumented migrants many women become more vulnerable to exploitation not less This book gives a long overdue look into the real world of those labeled as trafficked A highly readable and informative book Ko lin Chin Criminal Law and Criminal Justice Books A nuanced portrayal Scholars and policy makers should take note Viviana A Zelizer Princeton University author of Purchase of Intimacy

national activism Shaw declares that community based groups can and must combine their service work with national grassroots advocacy He also describes how activists can use public relations to win attention in today s sprawling media environment and he details the movement building potential of e mail All these resources are essential for activists and their organizations to reclaim America s progressive ideals This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 Have activists taken the bumper sticker adage Think Globally Act Locally too literally Randy Shaw argues that they have with destructive consequences for America Since the 1970s activist participation in national struggles has steadily given way to **High Fidelity** ,1982 High Fidelity & Audiocraft ,1988 Contains Records in review Lesbian Film Guide Alison Darren,2000-02-17 This A Z guide to lesbians and lesbianism in the movies contains reviews gossip facts and commentary on over 200 films including specifically lesbian films such as Go Fish and Desert Hearts as well as films with a lesbian character or theme like The Children s Hour and The Hunger Building Citizenship from Below Marcel Paret,Shannon Gleeson,2017-05-18 Focusing on what can be referred to as the precarity agency migration nexus this comprehensive volume leverages the political economic and social dynamics of migration to better understand both deepening inequality and popular resistance Drawing on rich ethnographic and interview based studies of the United States and Latin America the authors show how migrants are navigating and challenging conditions of insecurity and structures of power Detailed case studies illuminate collective survival strategies along the migrant trail efforts by nannies and dairy workers in the northeast United States to assert dignity and avoid deportation strategies of reintegration used by deportees in Guatemala and Mexico and grassroots organizing and public protest in California In doing so they reveal varied moments of agency without presenting an overly idyllic picture or presuming limitless potential for change Anchoring the study of migration in the opposition between precarity and agency the authors thus provide a new window into the continuously unfolding relationship between national borders global capitalism and human freedom This book was originally published as a special issue of the journal Citizenship Studies The Advocate ,1989 *Electronics World* ,2002
