entfällt dem Franz Kafka Collapsus vom 17. bis 18. Februar 1910

Franz Kafka 18831924 Manuskripte Erstdrucke Dokumente Photographien

J. W. Dyck

Franz Kafka 1883-1924 Manuskripte Erstdrucke Dokumente Photographien:

Kafka and Photography Carolin Duttlinger, 2007-12-06 Throughout his life Franz Kafka was fascinated by photography a medium which for him came to encapsulate both the attractions and the pitfalls of modern life Kafka's personal engagement with the medium as a keen viewer and collector of photographs as well as an amateur photographer is reflected in his writings which explore photography from a variety of different perspectives By far the most frequently and extensively discussed visual medium in Kafka's texts photography is paradigmatic of his relationship to visibility more generally This study not only explores photography's recurrence as a theme within his texts but it is also the first to take systematic account of Kafka's use of photographs as literary source material *Kafka and Photography* presents one of the most important modern writers from an entirely new perspective it sheds new light on familiar works and uncovers unexplored aspects of Kafka's engagement with his time and context Providing a chronological account of key prose works as well as the personal writings this study is accessible to students and lay readers It will be of interest not only to literary scholars but also to those working in photography media and cultural studies Its detailed textual analyses are set against a richly documented historical context which illustrates Kafka's interest in contemporary culture through a range of visual material taken from public as well as private sources some of which has only recently become available As this book demonstrates photography had a profound impact on Kafka's literary imagination and as such helps to explain the mesmerizing intensity of enigmatic visual detail which is a hallmark of his narratives

"The" Drawings Andreas B. Kilcher, Pavel Schmidt, 2022-05-31 The first book to publish the entirety of Franz Kafka's graphic output including more than 100 newly discovered drawings The year 2019 brought a sensational discovery hundreds of drawings by the writer Franz Kafka 1883-1924 were found in a private collection that for decades had been kept under lock and key Until now only a few of Kafka's drawings were widely known Although Kafka is renowned for his written work his drawings are evidence of what his literary executor Max Brod termed his double talent Irresistible and full of fascinating figures shifting from the realistic to the fantastic the grotesque the uncanny and the carnivalesque they illuminate a previously unknown side of the quintessential modernist author Kafka's drawings span his full career but he drew most intensively in his university years between 1901 and 1907 An entire booklet of drawings from this period is among the many new discoveries along with dozens of loose sheets Published for the first time in English these newly available materials are collected with his known works in a complete catalogue raisonné of more than 240 illustrations reproduced in full color Essays by Andreas Kilcher and Judith Butler provide essential background for this lavish volume interpreting the drawings in their own right while also reconciling their place in Kafka's larger oeuvre [Representative](#)
