feminist philosophy is on the connection between the idea of normalization which per Foucault is a mode or force of control that homogenizes a population and the gendered body Drawing on Foucault and Wittgenstein she argues that the predominant picture of the self a picture that presupposes an inner core of the self that is expressed accurately or not by the outer body obscures the connection between contemporary discourses and practices of self transformation and the forces of normalization In other words pictures of the self can hold us captive when they are being read from the outer self the body rather than the inner self and we can express our inner self by working on our outer body to conform Articulating this idea with a mix of the theoretical and the practical she looks at case studies involving transgender people weight loss dieting and cosmetic surgery Her concluding chapters look at the difficult issue of how to distinguish non normalizing practices of the self from normalizing ones and makes suggestions about how feminists might conceive of subjects as embodied and enmeshed in power relations yet also capable of self transformation The subject of normalization and its relationship to sex gender is a major one in feminist theory Heyes book is unique in her masterful use of Foucault its clarity and its sophisticated mix of the theoretical and the anecdotal It will appeal to feminist philosophers and theorists **Billboard** ,1946-09-21 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **British Books** ,1916 **Annual Year Book - United States Trotting Association** United States Trotting Association,1906 **Wallace's Year-book of Trotting and Pacing in ...** John Hankins Wallace,1906 **Faith Reads** David Rainey,2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection Outers' Book-recreation ,1922 Tattoos, Desire and Violence Karin Beeler,2015-01-27 Whether they graphically depict an individual s or a community s beliefs express the defiance of authority or brand marginalized groups tattoos are a means of interpersonal communication that dates back thousands of years Evidence of the tattoo s place in today s popular culture is all around in advertisements on the stereotypical outlaw character in films and television in supermarket machines that dispense children s wash away tattoos and even in the production of a tattooed Barbie doll This book explores the tattoo s role primarily as an emblem of resistance and marginality in recent literature film and television The association of tattoos with victims of the Holocaust slaves and colonized peoples with gangs inmates and other marginalized groups and the connection of the tattoo narrative to desire and violence are discussed at length **Billboard** ,2005-04-09 In its 114th year
