Freaks Geeks And Cool Kids:

Freaks, Geeks, and Cool Kids Murray Milner Jr.,2013-04-15 In this timely and insightful book award winning sociologist Murray Milner tries to understand why teenagers behave the way they do Drawing upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country he argues that consumer culture has greatly impacted the way our youth relate to one another and understand themselves and society He also suggests that the status systems in high schools are in and of themselves an important contributing factor to the creation and maintenance of consumer capitalism explaining the importance of designer jeans and designer drugs in an effort to be the coolest kid in the class

Freaks, Geeks, and Cool Kids Murray Milner,2015-08-20 In *Freaks Geeks and Cool Kids* Second Edition award winning sociologist Murray Milner tries to understand why teenagers behave the way they do The first edition drew upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country where he argued that consumer culture greatly impacts the way our youth relate to one another and understand themselves and society Milner now expands on that concept with a new year of fieldwork fifteen years after he began He has uncovered in teens a move away from consumerism and towards the cultural capital of information in a time of social media and standardized tests

Freaks, Geeks, and Cool Kids Murray Milner,2006 **Longing and Belonging** Allison Pugh,2009-03-04 Even as they see their wages go down and their buying power decrease many parents are still putting their kids material desires first These parents struggle with how to handle children s consumer wants which continue unabated despite the economic downturn And indeed parents and other adults continue to spend billions of dollars on children every year Why do children seem to desire so much so often so soon and why do parents capitulate so readily To determine what forces lie behind the onslaught of Nintendo Wiis and Bratz dolls Allison J Pugh spent three years observing and interviewing children and their families In *Longing and Belonging* Parents Children and Consumer Culture Pugh teases out the complex factors that contribute to how we buy from lunchroom conversations about Game Boys to the stark inequalities facing American children Pugh finds that children s desires stem less from striving for status or falling victim to advertising than from their yearning to join the conversation at school or in the neighborhood Most parents respond to children s need to belong by buying the particular goods and experiences that act as passports in children s social worlds because they sympathize with their children s fear of being different from their peers Even under financial constraints families prioritize children feeling normal Pugh masterfully illuminates the surprising similarities in the fears and hopes of parents and children from vastly different social contexts showing that while corporate marketing and materialism play a part in the commodification of childhood at the heart of the matter is the desire to belong

work of education Lunch in this view is about providing students the nourishment they need in order to attend to academic content and the tests that assess whether content has been learned In contrast the central purpose of this collection is to examine school lunch as an educational phenomenon in its own right Contributing authors drawing from a variety of disciplinary traditions including philosophy sociology and anthropology examine school lunch policies and practices social and cultural aspects of food and eating and the relation among school food the environment and human and non human animal well being The volume also addresses how school lunch might be more widely conceptualized and practiced as an educational undertaking
