balancing environment surroundings materials and colors *Spellbound* Marcia Montenegro, 2013-08-05 Our culture is saturated with the supernatural TV shows such as Medium Charmed and Lost all have an other worldly theme Most of them blur the lines between good and evil This past year was a record year for Hollywood in the production of films that dealt with the supernatural paranormal While we choose our entertainment our kids don t often have the luxury of choosing whether to be exposed to these things at school This book seeks to present a lucid and comprehensive examination of the paranormal and occult by breaking down the principles of paranormal practices giving key points about the practices so that parents can readily identify them The book discusses the occult view of supernatural energy and of good and evil and how these concepts are seen in some popular literature and movies The book also explains the dangers and gives a biblical basis for concern Christian parents need to be equipped to discuss these matters with their children *To Light the Flame of Reason* Christer Sturmark, 2022-05-01 To Light the Flame of Reason is all about the art of clear thinking an art that is needed now more than ever in the world we now live in Written for anyone who wants to navigate better in this world filled with populist dogmas anti science attitudes and pseudo philosophy authors Christer Sturmark and Douglas Hofstadter provide a set of simple tools for clear thinking as well as a deeper understanding of science truth naturalism and morality It also offers insights into the rampant problems of extremism and fundamentalism and suggestions for how the world can move towards a new enlightenment The book argues that we need to reawaken the basic values and ideals that defined the original age of enlightenment We need to accept the idea that the world we inhabit is part of nature and that it has no trace of supernatural or magical forces Ethical questions should be detached from religion This doesn t mean that the questions become any easier just that ideas are tested and judged without being profoundly tainted and constrained by religious dogmas Such a form of secular humanism builds on the power of free thought the power to investigate and understand the natural world Although not everything can be investigated or understood the sincere quest for knowledge and understanding establishes a flexible nondogmatic attitude toward the world Curiosity and openness lie at the core of such an attitude The scientific method of careful and open minded testing as well as science s creative and reflective ways of thinking provides key tools What clear science inspired thinking helps us to understand among many other things is that a person can be good and can be motivated to carry out morally good actions without ever bowing to or being limited by supposedly divine forces To Light the Flame of Reason will appeal to adults who are trying to figure out how to deal with the ever increasing daily bombardment of conflicting messages about what is right true sensible or good and it should appeal even more to teenagers and university students who are struggling to find a believable and reliable philosophy of life that can help guide them in their choices of what and whom to trust and how to act both on the personal and the social level Today more people have greater access to information and knowledge than ever was dreamt of before and more people are concerned about the world situation More people have the chance through their own actions to make a difference Each one of us as an individual matters It is thus

vitaly important that each of us should choose in a conscious and reflective manner our own views of reality of the world and of humanity And this means that it is crucial for us all to train ourselves in the art of thinking clearly Christer Sturmark along with Pulitzer Prize winning author Douglas Hofstadter argue that we must refocus our efforts on cultivating a secular society and in doing so we will rediscover the values and ethics that are so foreign in today's society
