Treatment of Foreign Law - Dynamics towards Convergence? Yuko Nishitani,2017-07-04 This work presents a thorough investigation of existing rules and features of the treatment of foreign law in various jurisdictions Private international law conflict of laws and civil procedure rules concerning the application and ascertainment of foreign law differ significantly from jurisdiction to jurisdiction Combining general and individual national reports this volume demonstrates when and how foreign law is applied ascertained interpreted and reviewed by appeal courts Traditionally conflicts lawyers have been faced with two contrasting approaches Civil law jurisdictions characterize foreign law as law and provide for the ex officio application and ascertainment of foreign law by judges Common law jurisdictions consider foreign law as fact and require that parties plead and prove foreign law A closer look at various reports however reveals more differentiated features with their own nuances among civil law jurisdictions and the difference of the treatment of foreign law from other facts in common law jurisdictions This challenges the appropriacy of the conventional law fact dichotomy This book further examines the need for facilitating access to foreign law After carefully analyzing the benefits and drawbacks of existing instruments this book explores alternative methods for enhancing access to foreign law and considers practical ways of obtaining information on foreign law It remains to be seen whether and the extent to which legal systems around the world will integrate and converge in their treatment of foreign law **Dimensions of Evidence in European Civil Procedure** Vesna Rijavec,Tomaž Keresteš,2015-12-29 Greater efficiency in civil dispute resolution is very much dependent on organized but fair fact finding Under European law however no clear cut categorisation of means of evidence exists as yet and significantly diverging interpretations persist of what is considered evidence in the sense of the foundational Council Regulation EC No 1206/2001 EER The EER fails to provide comprehensive rules for many other aspects of evidence taking pointing instead to national legislation for solutions As long as evidentiary rules remain different from country to country there is an inherent risk of conflict of laws between different systems in the course of cooperation between courts in cross border matters leading to mistrust amongst judiciary and other participants in the proceedings Focusing on national rules and using a comparative

method which takes into consideration legal experiences from all legal circles in the EU this book explains and analyses how the law of evidence works in Europe today The authors draw on the vast base of relevant information collected in twenty seven Member States by national reporters Following the classical enumeration of types of evidence production of documents examination of witnesses expert evidence inspection by the judge and examination of the parties chapters encompass such issues and topics as the following judicial cooperation in cross border cases general principles in evidence taking the right to be heard oral vs written form directness of evidence burden of proof judges case management powers regarding evidence means of evidence extent of influence of traditional principles and evidentiary rules on electronic evidence application of communication technology in cross border proceedings legal costs language inadmissible evidence and instances in which a court can refuse a request for evidence The authors offer well grounded recommendations on requested judge s entitlements direct and convenient communication cost issues revised provisions concerning language obstacles unification of presumptions and much more Armed with the wide ranging knowledge presented here practitioners handling civil cases anywhere in Europe will derive great practical benefit from this book As a masterful synthesis of how evidence is used in national courts in EU Member States and of how that use is changing the book will be greatly valued as a unique resource by legal scholars and academics With featured recommendations it can contribute to the development of mutual trust among the national courts inside the EU as well as trust among policymakers and national courts
