Serna-Saldivar, 2018-11-09 Corn Chemistry and Technology Third Edition provides a broad perspective on corn from expert agronomists food scientists and geneticists This encyclopedic storehouse of comprehensive information on all aspects of the world's largest crop in metric tons includes extensive coverage of recent development in genetic modification for the generation of new hybrids and

genotypes New chapters highlight the importance of corn as a raw material for the production of fuel bioethanol and the emerging topic of phytochemicals or nutraceutical compounds associated to different types of corns and their effect on human health especially in the prevention of chronic diseases and cancer Written by international experts on corn and edited by a highly respected academics this new edition will remain the industry standard on the topic Presents new chapters that deal with specialty corns the production of first generation bioethanol and the important relationship of corn phytochemicals or nutraceuticals with human health Provides contributions from a new editor and a number of new contributors who bring a fresh take on this highly successful volume Includes vastly increased content relating to recent developments in genetic modification for the generation of new hybrids and genotypes Contains encyclopedic coverage of grain chemistry and nutritional quality of this extensively farmed product Covers the production and handling of corn with both food and non food applications

Official Guide ,2005 *The State of Food and Agriculture 2022* Food and Agriculture Organization of the United Nations,2022-11-01 Automation has been shaping world agriculture since the early twentieth century Motorized mechanization has brought significant benefits in terms of improved productivity reduced drudgery and more efficient allocation of labour but also some negative environmental impacts More recently a new generation of digital agricultural automation technologies has appeared with the potential to further enhance productivity as well as resilience while also addressing the environmental sustainability challenges driven by past mechanization The State of Food and Agriculture 2022 looks into the drivers of agricultural automation including the more recent digital technologies Based on 27 case studies the report analyses the business case for adoption of digital automation technologies in different agricultural production systems across the world It identifies several barriers preventing inclusive adoption of these technologies particularly by small scale producers Key barriers are low digital literacy and lack of an enabling infrastructure such as connectivity and access to electricity in addition to financial constraints Based on the analysis the publication suggests policies to ensure that disadvantaged groups in developing regions can benefit from agricultural automation and that automation contributes to sustainable and resilient agrifood systems

Starks' Harvesters Robert S. White,2019-10-01 For Rob and Charlie this was the start of memorable years driving Massey Ferguson combines the length and breadth of the American wheat belt This is Rob s story a vivid account of endless hours of work rattlesnakes truck wrecks summer lightning tornados favourite bars and the honeys at the grain elevators Rob went on to do five years harvesting with Dale Starks who comes to life in these pages with all his wisdom and cussedness This is the man who starred in Yellow Trail from Texas the BBC documentary that first inspired Rob and Charlie to make the trip In England Rob was working as an agricultural contractor For him machines and harvesting were more than a way of life they were a passion This enthusiasm which brought Rob long lasting friendships from his American days illuminates every page of his book
