Civilizing Authority Patrick M. Brennan, 2007-01-01 All phases of our social life depend on authority without it families schools corporations churches and civil governments would cease to exist and human life with them Civilizing Authority explores the essential commonalities of authority across the spectrum of human living it also probes the risk that authoritarian abuse will arrive to compensate for the elusiveness of genuine authority in a post Christian materialist world

Fictions, Lies, and the Authority of Law Steven D. Smith, 2021-09-15 Fictions Lies and the Authority of Law discusses legal political and cultural difficulties that arise from the crisis of authority in the modern world Is there any connection linking some of the maladies of modern life cancel culture the climate of mendacity in public and academic life fierce conflicts over the Constitution disputes over presidential authority Fictions Lies and the Authority of Law argues that these diverse problems are all a consequence of what Hannah Arendt described as the disappearance of authority in the modern world In this perceptive study Steven D Smith offers a diagnosis explaining how authority today is based in pervasive fictions and how this situation can amount to as Arendt put it the loss of the groundwork of the world Fictions Lies and the Authority of Law considers a variety of problems posed by the paradoxical ubiquity and absence of authority in the modern world Some of these problems are jurisprudential or philosophical in character others are more practical and lawyerly problems of presidential powers and statutory and constitutional interpretation still others might be called existential Smith's use of fictions as his purchase for thinking about authority has the potential to bring together the descriptive and the normative and to think about authority as a useful hypothesis that helps us to make sense of the empirical world This strikingly original book shows that theoretical issues of authority have important practical implications for the kinds of everyday issues confronted by judges lawyers and other members of society The book is aimed at scholars and students of law political science and philosophy but many of the topics it addresses will be of interest to politically engaged citizens

In Defense of the Marital Family John Witte, Jr., 2023-04-03 This book combines Christian theology Enlightenment liberalism and modern social science to defend the marital family as an essential institution for adults and children regardless of sexual orientation John Witte presents the marital family as an integrated sphere with natural social economic communicative contractual and spiritual dimensions He rejects modern

efforts to abolish the legal category of marriage or to reduce it to a transient and malleable sexual contract While celebrating the sexual liberty of consensual adults Witte calls for stable marital families and responsible sex and parentage as the surest and safest path to private flourishing and social stability for all *History of Civilization in England* Henry Thomas Buckle,1883 **Russia and Western Civilization** Russell Bova,2003 This volume introduces readers to an age old question that has perplexed both Russians and Westerners Is Russia the eastern flank of Europe Or is it really the heartland of another civilization In exploring this question the authors present a sweeping survey of cultural religious political and economic developments in Russia especially over the nineteenth and twentieth centuries Based on the inter disciplinary Russian studies program at Dickinson College this splendid collection will complement many curricula The text features highlight boxes and selected illustrations Each chapter ends with a glossary study questions and a reading list **The Papal Arts of Peace and Civilization** Maxim Baz,2025-03-17 The twentieth century saw a transformation in the Catholic Church s approach to war and peace as the papacy sought to adopt and propose alternatives to traditional Just War doctrine by developing contemporary policies to peacefully resolve both the symptoms and root causes of war This book explores the emergence of a new ethical framework built upon three distinct moral doctrines coined here as AMP War Avoidance for when war is imminent War Mitigation for when war is unavoidable and Preventive Pacification during periods of relative stability This book examines the shaping of the AMP paradigm from Leo XIII to John Paul II analyzing its theological philosophical and legal underpinnings While AMP co exists alongside Just War doctrine the latter provides a framework for judging the morality of war the former addresses the preemption mitigation and prevention of conflict The book argues that AMP gradually became the primary framework for the Holy See s foreign policy with the potential to further become a crucial ethical guide for the twenty first century s pursuit of more just and peaceful international relations **History of Civilization in England** Buckle,1858 **Avery Cardinal Dulles, SJ** Patrick W. possibilities of development and progress are to be found on Protestant soil the question regarding the relation of Protestantism to modern civilization becomes of central importance Troeltsch also distinguishes elements in modern civilization that have proven their value from those which are merely temporary and lead nowhere He gives the religious ideas of Christianity a shape and form capable of doing justice to the absoluteness of religious conviction and at the same time considering them in harmony with what has actually been accomplished towards solution of the practical problems of the Christian life A new introduction by Howard Schneiderman brings this monumental work into the twenty first century and explains why its ideas are more important than ever one hundred years after its original publication **The Shaping of Western Civilization** Michael Burger, 2013-12-16 The Shaping of Western Civilization From the Reformation to the Present begins with the Reformation and ends with globalization Unlike other textbooks that pile on dates and facts Shaping is a more coherent and interpretive presentation **The Development of Western Civilization** Jacob Dorsey Forrest, 1906
