The wiring, solder and binding to the PCB are specially placed using pliers to keep away from heated and high voltage parts. Ensure that they are placed back in their original positions after repair or inspection.  
 If external damage is caused due to negligence during repair, the legal responsibility shall be with the repairing company.
3. Check for safety after repair.  
 Check that the wires, parts and wires are all back securely in their original position after repair. Ensure for safety reasons there is no possibility of secondary problems around the repaired parts.
