Chapter- 1 The French Revolution

1. Describe the circumstances leading to the outbreak of revolutionary protest in France.

Ans: The revolutionary protests in France were caused due to the following reasons:

1. France and Britain had fought wars for American independence which burdened the French economy. Thus, the public had to pay more taxes and were frustrated.
2. Merit was replaced by birth privileges. The people being born in privileged families were given more important positions due to which the commoners had little scope for growth into the society.
3. Due to the birth-based privileges, the power of the society was concentrated in the hands of a few families which again led to discontent among the people.
4. Due to the emergence of the middle class, the revolution could sustain as they were not underprivileged and raised their voice against such unjust practices instead of simply giving in.

2. Which groups of French society benefited from the revolution? Which groups were forced to relinquish power? Which sections of society would have been disappointed with the outcome of the revolution?

Ans: The people from the lower class of the society benefited from the French Revolution as they had been opened to newer opportunities. This class had peasants, who worked on farms and cattle, the artisans, who used to construct several new buildings, etc. The influential people already, such as the nobles and the royal families, including the Church had to give up their power and they were disappointed with the outcome of the French Revolution.

3. Describe the legacy of the French Revolution for the peoples of the world during the nineteenth and twentieth centuries.

Ans: The French Revolution can be regarded as the beginning of the Colonial and Feudal systems in the world. After the United States of America adopted democracy as its mode of government, several people in France also advocated for the same which turned out to be successful. Due to this, most of the European nations abolished the feudal systems and became more democratic. Also, these ideas were spread to the European colonies as well which caused them to adopt democracy as well. In short, we can say that the world practices democracy because the French Revolution talked about its success to the world.
