of years In chapter one Stanley Henning provides an excellent overview of martial arts in Korea since the earliest dynasties These include bare hand arts as well as those with weaponry His overview illuminates the time and place of highly influential military manuals as discussed in the chapter by Manuel Adrogu John Della Pia s two chapters focus on a particular manual the Muye Dobo Tongji 1790 providing details of open hand and weapons training in particular with the unique Korean native sword Two chapters provide the theory and practice of qigong methods for health and martial effectiveness Dr Patrick Massey et al offer results on the use of breathing methods affecting lung capacity Sean Bradley s chapter goes deeply into the medical theories that parallel the practice of Sinmoo Hapkido s qigong methods The final two chapters focus on practical fighting applications from Hapkido Marc Tedeschi s chapter provides sound advice for self defense against multiple opponents In addition to detailing principles that give any defender a helpful advantage Tedeschi shows nineteen examples of techniques against two three and four opponents that include pressure point striking throws arm bars locks and a variety of kicks In the closing chapter Sean Bradley discusses a few of his favorite techniques where he learned them and why they are memorable Rich in historical details and practical advice this anthology will prove to be a prized reference work to all interested in the Korean martial traditions

Henning's Scholarly Works on Chinese Combative Traditions Stanley Henning, 2018-03-09 What we think are Asian martial arts is usually derived by Hollywood images fanciful novels and a superficial idea of what role combatives played in the long histories of Far Eastern countries There are only a few people in the world who can truly be called scholars in this field A leading figure in the USA for the study of Chinese martial traditions is Stanley Henning This special anthology is a collection of Henning s superb articles that were previously published in the Journal of Asian Martial Arts including one he co wrote with Marnix Wells a leading British scholar on Chinese martial traditions Henning has little patience for those who miss the original essence of practical martial arts and who fell under the enticement of flowery boxing True combative arts are not play although they influenced other practices In the fifteen chapters included here you ll find a strong historic base for what the martial arts meant in old China and how they changed over the centuries In order to understand martial arts as they were evolving over dynastic periods it is necessary to look at the political and social settings technology and even geography and linguistics When it comes to research Henning presents clear facts and accurate conclusions At the same time he wisely states what is open to debate and requires further research Why is the chapter on Korean martial arts included in this anthology Because the Chinese had tremendous influence on their neighbors including Japan and Korea Thanks to a few scholars like Henning and Wells we are getting a clearer picture of just how much Chinese martial arts have influenced the fighting arts in other countries Leading scholars are having an impact on how Asian martial traditions are perceived understood and practiced Henning introduces the new wave of Chinese scholars who have presented their findings in various articles and books opening new vistas for all interested in this growing field of study at least for those who read Chinese Fortunately Henning s work is in English This anthology is not an easy read for

those unfamiliar with Chinese history the various dynasties the terminology and variety of martial systems However it will no doubt benefit the serious scholar of Chinese martial arts and hopefully others will likewise benefit by patiently reading each chapter to broaden their understanding of the rich martial culture of China

Confessions of a Surviving Alien Jon Meade, 2016-03-17 More than a book more than a non fiction read more than a memoir CONFESSIONS OF A SURVIVING ALIEN will engage the reader like most have never experienced It will take them through a maze of lifes pathos and elicit the emotions of sadness joy pain regret guilt remorse pride fear revenge happiness forgiveness evil good and much uniquely intertwined with humor often times outrageously so Although defined by the premise of Vietnam it is much more than another war account to the contrary It is more often the dredge of a neophyte Marine trying to get more into the war and action than out of it It is more about his disillusionment in practically every aspect of that officially declared police action but not in ways one might expect It is more about his evolution and regression as a human being and inner torment including feelings of alienation The book starts at the end and ends with the start with a chronological account in between covering four parts Before Vietnam BV During Vietnam DV After Vietnam AV and finally After Marines AM The story covers the life of a young American and follows his incredible journey through the decades to find himself to explore every possibility of living and nearly dying and reach some hopeful level of success however that is defined From having a unique tour in Vietnam to escorting deceased Marines to their families and final resting place to his life threatened by a mob guy to learning about a deeply held family secret concerning his father to experiencing a profound spiritual experience in the unlikely locale of Beverly Hills California and much more author Jon Meades biggest challenge may be getting readers to believe his surreal story He merely shrugs and says I am just a very ordinary guy with an extraordinary life to convey It is nothing less nor more than that Maybe he admits in the end analysis success in life is merely surviving life failures and all With that admission and a very personal and engaging approach and writing style the genre of Memoirs may never be the same
