Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China, India, Africa and other non-Western cultures? This biting and provocative critique of American higher education says yes. Even though we live in an increasingly multicultural world, most philosophy departments stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon. In *Taking Back Philosophy*, Bryan W. Van Norden lambastes academic philosophy for its Eurocentrism, insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals. In a cheeky, agenda-setting and controversial style, Van Norden, an expert in Chinese philosophy, proposes an inclusive multicultural approach to philosophical inquiry. He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue, demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic. *Taking Back Philosophy* is at once a manifesto for multicultural education, an accessible introduction to Confucian and Buddhist philosophy, a critique of the ethnocentrism and anti-intellectualism characteristic of much contemporary American politics, a defense of the value of philosophy and a liberal arts education, and a call to return to the search for the good life that defined philosophy for Confucius, Socrates and the Buddha. Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non-Western philosophy should be renamed a Department of European and American Philosophy, this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom.

Philosophy of the Buddha Christopher Gowans, 2004-11-23 *Philosophy of the Buddha* is a philosophical introduction to the teaching of the Buddha. It carefully guides readers through the basic ideas and practices of the Buddha, including kamma, karma, rebirth, the not-self doctrine, the Four Noble Truths, the Eightfold Path, ethics, meditation, non-attachment and Nibbana. The book includes an account of the life of the Buddha as well as comparisons of his teaching with practical and theoretical aspects of some Western philosophical outlooks, both ancient and modern. Most distinctively, *Philosophy of the Buddha* explores how Buddhist enlightenment could enable us to overcome suffering in our lives and reach our full potential for compassion and tranquillity. This is one of the first books to introduce the philosophy of the Buddha to students of Western philosophy. Christopher W. Gowans' style is exceptionally clear and appropriate for anyone looking for a comprehensive introduction to this growing area of interest.

Can Different Cultures Think the Same Thoughts? Kenneth Dorter, 2018-04-30 A welcome contribution to the burgeoning multicultural revolution in philosophy persuasively shows that ethics cannot be innocent of metaphysics Bryan W Van Norden author of Introduction to Classical Chinese Philosophy Kenneth Dorter's *Can Different Cultures Think the Same Thoughts* is a study of fundamental issues in metaphysics and ethics across major philosophical traditions of the world including the way in which metaphysics can be a foundation for ethics as well as the importance of metaphysics on its own terms Dorter examines such questions through a detailed comparison of selected major thinkers and classic works in

three global philosophical traditions those of India China and the West In each chapter Dorter juxtaposes and compares two or more philosophers or classic works from different traditions from Spinoza and Shankara to Confucius and Plato to Marcus Aurelius and the Bhagavad Gita In doing so he explores different perspectives and reveals limitations and assumptions that might otherwise be obscure The goal of Dorter s cross cultural approach is to consider how far works from different cultures can be understood as holding comparable philosophical views Although Dorter reveals commonalities across the different traditions he makes no claim that there is such a thing as a universal philosophy Clearly there are fundamental disagreements among the philosophers and works studied Yet in each of the case studies of a particular chapter we can discover a shared or at least analogous way of looking at issues across different cultures All those interested in metaphysics ethics Indian philosophy Chinese philosophy and comparative philosophy will find much of interest in this book
