the latest developments in the field *Papa Kilo Part 1: A True Story from a Susi Air Pilot in Indonesia* Dan Richworth, 2019-11-24 HOW DID I BECOME A PILOT FOR ONE OF THE WORLD S MOST INFAMOUS AIRLINES This book is the first of a three part trilogy based on my experience as a bush pilot flying for Susi Air in Indonesia For 4 years I ve flown Cessna Grand Caravans in one of the most challenging environments for aviation in the world This book features the good stories the bad stories and the down right unbelievable stories I must confess I ve spent a very long time deciding whether or not to publish this book Here s the thing I m now a Boeing 737 Captain for a major European airline and unsurprisingly I value my career very much So publishing a book about these bush flying adventures and occasional mishaps isn t necessarily going to impress my current employers or future employers for that matter You could perhaps describe publishing this book as career suicide This somewhat undesirable situation of losing one s career might just explain why I m the first Susi Air pilot to publish a book like this Yes the sensible thing to do would be to keep my mouth shut Just stay under the radar and avoid any adverse consequences to the career that I have worked so hard to get But how could I keep the greatest adventure of my life to myself I needed to write this book This isn t just my story This is the story of every pilot who was f cking nuts enough to come fly for Susi Air Needless to say the real identities of both myself and my colleagues at Susi Air will remain anonymous in this book I have no doubt that some Susi Air pilots both past and present will know exactly who I really am However to any of those pilots reading this book I do ask that you keep my real identity private much in the same way that I have kept your real identities private in this book All of the stories in this book are real Only the names have been changed

Protecting and Managing Resources Through Engineering ,1987 Flying Magazine ,2003-01 *Thanks for the Great Flight* Captain James F Vaughan, 2019-09-16 I never considered I would become an airline pilot It was always too expensive or took too much time or I would not be hired with out a four college degree Perhaps because I wore eye glasses I was content to offer Flight Instruction in my community and did quite well teaching new low time private pilot students and Advanced certificate pilots I have been employed by six airlines and the only reason I was hired at each one was because the airline needed pilots to operate the airline I began researching the commercial pilot status and numbers and realized there truly is a pilot shortage world wide In my book I speak about the training and preparation that go into obtaining a pilot license I will take the reader on an actual Airline Transport Pilot check flight describing the sensations and maneuvers required for the Captain candidate to master We will fly a simulator during our training and I will relate a humorous story that helped to break up the monotony of performing the same flight profile over and over again I will explain the various aircraft systems as they pertain to flight so perhaps a non pilot airline passenger may feel more informed of how an aircraft operates I will also address the aircraft performance factors that may actually aid the passenger in selecting routes and times to ease their occasional travel delays Lastly I will relate a few super natural instances that by my only explanation the Christian Lord was watching over my flight I have truly been blessed in my life by becoming a commercial airline pilot
