Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context Hameed, Shahul, El-Kafafi, Siham, Waretini-Karena, Rawiri, 2019-02-15. Society is continually moving towards global interaction, and nations often contain citizens of numerous cultures and backgrounds. Bi-culturalism incorporates a higher degree of social inclusion in an effort to bring about social justice and change, and it may prove to be an alternative to the existing dogma of mainstream Europe-based hegemonic bodies of knowledge. The Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context is a collection of innovative studies on the nature of indigenous bodies of knowledge that incorporate the sacred or spiritual influence across various countries following World War II, while exploring the difficulties faced as society immerses itself in bi-culturalism. While highlighting topics including bi-cultural teaching, Africology, and education empowerment, this book is ideally designed for academicians, urban planners, sociologists, anthropologists, researchers, and professionals seeking current research on validating the growth of indigenous thinking and ideas.
