Expanded and Revised Shawn M. Tomlinson, 2018-04-17 A lot has changed since I wrote and published this first volume of what became this guide series One thing hasn't I still have the same enthusiasm and joy in

photography I had way back at the beginning of the series I have a lot more knowledge and experience now and occasionally even get close to taking good photographs That s the thing see I didn t know a lot when I originally wrote this guide I had been working in photography since 1982 professionally Everything I knew pretty much was self taught In general that s still true There s no need for you to do it all by yourself too though This book and this series are meant to help you get going with the basics fast Yes OK I tend to relate my own experiences but that too is meant to help you avoid some basic mistakes I made And perhaps I write in a tad too friendly manner but think of it as sitting down with me to have a friendly talk about a passion we share

Consumer Optimization Problem Solving Alfred L Norman,2014-12-15 What algorithms are tractable depends on the speed of the processor Given the speed of digital computers polynomial algorithms are considered tractable But a human can take several seconds to make one binary comparison between two pens Given this slow speed sublinear algorithms are considered tractable for an unaided human and this defines Simon's concept of bounded rationality Humans make

simplifications to solve the intractable consumer optimization problem Consumers search for goods and services item by item which greatly reduces the number of alternatives to consider In addition consumers have operators that can process a set in a single operation Also consumers budget by incremental adjustment In considering consumer performance the question to ask is how close to optimal is consumer performance and not whether consumers optimize as a yes no question Given the ordinal nature of utility theory this creates a basic measurement problem The book presents a review of the literature on consumer performance This is an opportune time to study consumer procedures because the Internet provides a media to make substantial improvements in consumer performance The book includes a case study comparing the performance of a digital camera selection code with the advice of sales people A field experiment demonstrates that the software code provides better advice
