Timeless Leadership Truths Norton Paley,2019-08-06 The origins of business strategy are found in military applications Generals throughout history faced formidable challenges as they crafted plans to outmaneuver competing forces acquire territory and gain power Similarly business leaders also look to outmaneuver their rivals as they enter new markets against entrenched competitors secure a strong market position and expand their companies influence Although the destructive aspects of war are not present in business there is a reasonable parallel such as the bankruptcies of once mighty companies which resulted in layoffs of thousands of employees and the closings of numerous plants Then there was the devastating economic impact and societal disruption that created demoralizing misery among large groups of individuals in once flourishing areas worldwide The intent of the book is to improve managers ability to think strategically The further aim
