

# CHAPTER 1

## AIRCRAFT GENERAL

### INTRODUCTION

This manual provides a description of the major airframe and engine systems in the Cessna Citation Mustang (Figure 1-1). This material does not supersede, nor is it meant to substitute for, any of the manufacturer's maintenance or flight manuals. The material presented has been prepared from current design data. Chapter 1 covers the structural makeup of the airplane and gives an overview of the systems.

### GENERAL

The Citation Mustang is certified in accordance with Title 14 of the Code of Federal Regulations (14CFR23) Part 23, including day, night, visual flight rules (VFR), instrument flight rules (IFR), single pilot, and flight into known icing conditions. Takeoff and landing performance and other special condition certification requirements are similar to 14CFR Part 25. The Mustang meets 14CFR

Part 36 noise standards, and meets 14CFR Part 34 fuel venting and exhaust emission standards. It combines systems simplicity with ease of access to reduce maintenance requirements. Low takeoff and landing speeds permit operation at small airports. Medium bypass turbofan engines contribute to overall operating efficiency and performance.
