Developed and tested in the classroom, Beyond Behavior Management is a strength-based approach to guiding and managing young children's behavior by helping them build and use essential life skills: attachment, collaboration, self-regulation, adaptability, contribution, and belonging into the daily life of the early childhood classroom. As a result, children will learn to exhibit more pro-social behaviors, work better as a community, and become excited and active learners. This edition includes two new chapters and content reflecting early learning standards, new research, cultural diversity, and strategies to strengthen the home-school connection. Discussion and reflection questions, exercises, journal assignments, child profile templates, a planning worksheet, and sample scripts are also included. Jenna Bilmes is an early childhood consultant and an instructional designer for WestEd Child and Family Services.
