

A Narrative Approach to Social Transformation

CHANGE ACROSS CULTURES

The central illustration of the book cover features a dark, reflective sphere, possibly a planet or a lens, positioned at the center. From this sphere, numerous thin, light-colored lines radiate outwards, creating a starburst or web-like pattern. The background is a composite of three distinct colors: a dark, textured green on the left, a bright blue on the right, and a lighter green at the bottom. The overall effect is one of dynamic energy and global connectivity.

Change Across Cultures A Narrative Approach To Social Transformation:

Change Across Cultures Bruce Bradshaw, 2002-03 Points out the necessity of changing cultural narratives if real values transformation is to take place This is an important work Peter Riddell London Bible College

Change across Cultures Bruce Bradshaw, 2002-03-01 C S Lewis compared the task of ethical inquiry to sailing a fleet of ships the primary task is avoiding collisions When introducing cultural change such collisions are inevitable Bruce Bradshaw provides expert instruction for navigating these cultural clashes Bradshaw contends that lasting change comes only through altering the stories by which people live The Bible is the metanarrative whose altering theme of redemption forms a transcultural ethical basis Aspects of God's redemption story can change how local cultures think and behave toward the environment religions government gender identities economics science and technology However effective change takes place only in a context of reconciliation Christian community and mutual learning A must read for anyone engaged in or preparing for cross cultural ministry relief or development work The book is also relevant to students of ethics philosophy and theology Numerous real life examples illustrate the inevitable tensions that occur when cultures and narratives collide

The New Conspirators Tom Sine, 2009-10-25 If you have faith as small as a mustard seed Jesus says in the Gospel of Matthew nothing will be impossible for you That sounds good but does it work in a world where seeds are genetically altered by an impatient few and hard to come by for countless others In a world where the gulf between the very rich and the profoundly poor is constantly growing can a mustard seed faith make any difference And can such a little bit of faith be sustained in a world whose future is so uncertain on so many fronts Tom Sine says yes and he has the audacity to try to prove it in his latest book In The New Conspirators Tom surveys the landscape of creative Christianity where streams of renewal are flowing freely from diverse sources The emerging church Contemporary monastic movements The missional church The mosaic movement Individuals and communities of faith are coalescing in and drawing energy from these four streams to retrofit the church as it leads serves and gives witness to the kingdom of God in the turbulent times facing us Read the book and you'll want to and be prepared to join God's conspiracy to create a better future

Not Just Science Zondervan, 2009-08-30 This book argues that it is possible for our study of the natural world to enhance our understanding of God and for our faith to inform and influence our study and application of science Whether you are a student someone employed in the sciences or simply an interested layperson Not Just Science will help you develop the crucial skills of critical thinking and reflection about key questions in Christian faith and natural science The contributors provide a systematic approach to both raising and answering the key questions that emerge at the intersection of faith and various disciplines in the natural sciences Among the questions addressed are the context limits benefits and practice of science in light of Christian values Questions of ethics as they relate to various applied sciences are also discussed The end goal is an informed biblical worldview on both nature and our role in obeying God's mandate to care for his creation With an honest approach to critical questions Not Just Science

fills a gap in the discussion about the relationship between faith and reason This is a most welcomed addition to these significant scholarly conversations Ron Mahurin PhD Vice President Professional Development and Research Council for Christian Colleges Universities **God's Image and Global Cultures** Kenneth Nehrbass,2016-08-26 Globalization has raised numerous questions about theology and culture for Christians How should we respond to outsourcing and immigration How does anti Western sentiment affect the proclamation of the gospel What is the role of the church in society This book argues that Christians will be most fulfilled and most effective if they embrace their cultural activity rather than feel ambivalent about it The central question of this book is how does bearing God s image relate to cultural activity Nehrbass explains that spheres of culture such as political technological and social structures are systems that God has instilled in humans as his image bearers so that they can glorify and enjoy him forever Therefore a theology of culture involves recognizing that the kingdom of God encompasses heaven and Earth rather than pitting heaven against Earth The text surveys anthropological explanations for humanity s dependence on culture and shows that each explanation provides only partial explanatory scope The most satisfying explanation is that a major functional aspect of bearing God s image is engaging in culture since the Trinity has been eternally engaged in cultural functions like ruling communicating and creating Each chapter contains a summary and questions about what it means to be a world changer in the twenty first century

New and Old Horizons in the Orality Movement Tom Steffen,Cameron D. Armstrong,2022-02-18 Orality formed us Orality forms us Orality will forever form us Orality is a central theme of our lives In this fast paced world few Christian workers take the time to look back to learn and build on the lessons of the past Wise Christian workers however do not forge ahead into new horizons without first investigating past horizons They understand in this complex world there are too many strong shoulders of the past to be overlooked The dozen practiced researchers contributing to New and Old Horizons in the Orality Movement offer such inquirers wisdom from the past that can boldly and boundlessly improve the future of the modern day orality movement **Holistic Mission** Brian Woolnough,Wonsuk Ma,2011-01-01 Holistic mission or integral mission implies God is concerned with the whole person the whole community body mind and spirit Many Christians concentrate only on one aspect This book reaffirms that to be true to the Bible to follow the example of Jesus the church must address the whole person in all their needs It considers the meaning of the holistic gospel how it has developed and implications for the individual Christian for the local church for denominations and church groups for missionary societies for Christian NGOs and for theological training institutions It takes a global eclectic approach with 19 writers church leaders academics and practitioners all of whom have much experience in and commitment to holistic mission It addresses critically and honestly one of the most exciting challenging and important issues facing the church today To be part of God s plan for God s people the church must take holistic mission to the world Honor, Shame, and the Gospel Christopher Flanders,Werner Mischke,2020-10-27 An Honorific Gospel Biblically Faithful Culturally Relevant Christians engaged in communicating the

Equally Yoked Matthew R. Akers, 2016-03-03 During the past fifty years Western culture has experienced a significant shift in its overall stance regarding multiethnic marriage As a result more North Americans than ever marry spouses whose ethnicity or culture differs from theirs This trend also is observable in Christian circles Unfortunately few resources exist to help multiethnic couples maneuver through the potential minefield of cultural collision The purpose of this volume is to provide such a resource Equally Yoked examines the subject of multiethnic marriage from a biblical perspective before considering a history of the practice in North America over the last four centuries Additionally this book surveys the challenges that multiethnic Christian couples frequently encounter and offers premarital counseling propositions that will prove valuable to both counselors and couples who originate from diverse backgrounds

Worship and Social Engagement in Urban Aboriginal-led Australian Pentecostal Congregations Tanya Riches, 2019-05-15 Worship and Social Engagement in Urban Aboriginal led Australian Pentecostal Congregations Re imagining Identity in the Spirit provides an ethnographic account of three Australian Pentecostal congregations with Aboriginal senior leadership Within this Pentecostalism Dreaming realities and identities must be brought together with the Christian gospel Yet current political and economic relationships with the Australian state complicate the possibilities of interactions between culture and Spirit The result is a matrix or network of these churches stretching across Australia with Black Australian Pentecostals resisting and accommodating the state through the construction of new and ancient identities This work occurs most notably in context of the worship ritual which functions through ritual interaction chains to energise the various social engagement programs these congregations sustain

Trolls and Truth Jimmy Dorrell, 2006 Trolls Truth is the story of a local church of homeless people college students middle class Christians some poor and some rich black white and brown drunks materialists mentally ill and former inmates who meet beneath the noise of 18 wheelers and rushing traffic under an interstate bridge in Waco Texas As they live out biblical mandates across racial and cultural barriers and institutional baggage they remind us that the gospel cannot be shaped by socially accepted values and remain good news

Peace Education Evaluation Celina Del Felice, Aaron Karako, Andria Wisler, 2015-05-01 Practice and research of peace education has grown in the recent years as shown by a steadily increasing number of publications programs events and funding mechanisms The oft cited point of departure for the peace education community is the belief in education as a valuable tool for decreasing the use of violence in conflict and for building cultures of positive peace hallmarked by just and equitable structures Educators and organizations implementing peace education activities and programming however often lack the tools and capacities for evaluation and thus pay scant regard to this step in program management Reasons for this inattention are related to the perceived urgency to prioritize new and more action in the context of scarce financial and human resources notwithstanding violence or conflict the lack of skills and time to indulge in a thorough evaluative strategy and the absence of institutional incentives and support Evaluation is often demand driven by donors who emphasize accounting given the current context of international development assistance and budget cuts Program evaluation is considered an added burden to already over tasked programmers who are unaware of the incentives and of assessment techniques Peace education practitioners are typically faced with forcing

evaluation frameworks techniques and norms standardized for traditional education programs and venues Together these conditions create an unfavorable environment in which evaluation becomes under valued de prioritized and mythologized for its laboriousness This volume serves three inter related objectives First it offers a critical reflection on theoretical and methodological issues regarding evaluation applied to peace education interventions and programming The overarching questions of the nature of peace and the principles guiding peace education as well as governing theories and assumptions of change transformation and complexity are explored Second the volume investigates existing quantitative qualitative and mixed methods evaluation practices of peace educators in order to identify what needs related to evaluation persist among practitioners Promising practices are presented from peace education programming in different settings formal and non formal education within various groups e g children youth police journalists and among diverse cultural contexts Finally the volume proposes ideas of evaluation novel techniques for experimentation and creative adaptation of tools from related fields in order to offer pragmatic and philosophical substance to peace educators next moves and inspire the agenda for continued exploration and innovation The authors come from variety of fields including education peace and conflict studies educational evaluation development studies comparative education economics and psychology **AAR/SBL Annual Meeting Program** American Academy of Religion.
