## **Changing Addictive Behavior Bridging Clinical And Public Health Strategies:**

*Changing Addictive Behavior* Jalie A. Tucker, Dennis M. Donovan, G. Alan Marlatt, 2001-02-15 This volume proposes that prevailing clinical approaches to treating addictive behaviors are actually best suited to a minority of the population with problems in the case of substance abusers those with substantial functional impairment and physical dependence But what about persons with mild to moderate addictive behavior problems for whom intensive treatment may prove unnecessarily costly disruptive and stigmatizing Or those substance abusers who are unable or unmotivated to abstain but want to reduce the harm associated with drug use Contributors draw upon cutting edge theory and research to examine ways that traditional therapeutic treatments can be supplemented by public health interventions that extend the reach and effectiveness of care Timely and pragmatic the book points the way toward necessary evolutions in the roles of behavior change specialists in today's challenging health care environment

**Promoting Self-Change From Addictive Behaviors** Harald Klingemann, Linda Carter-Sobell, 2007-08-09 Many are addicted Few are treated Yet many who are not treated recover Promoting Self Change from Addictive Behaviors examines natural recovery as a clinical phenomenon a field of inquiry and a vital component of therapy It also brings clinicians and counselors to a new understanding of addiction and recovery One of the few books on the topic this updated edition offers alternatives to disease models of addiction by exploring personal pathways to recovery Focusing on alcohol and drug problems it provides a literature review of 40 years of studies on self change with particular emphasis on the current decade and methodological issues starting with how much or how little treatment constitutes treatment The 24 experts keep the coverage consistently readable and dozens of brief narratives from individuals who have successfully recovered from an addictive behavior without formal help lend valuable personal perspectives More of the book's key features Core factors in self change from cognitive processes to social issues Case examples of natural recovery from smoking binge eating problem gambling and criminal behavior Redefining the role of treatment in changing addictive behaviors Cross cultural community and prevention perspectives on promoting self change Self change toolbox chapter offering assessment tools recovery strategies web links and other online resources With Promoting Self Change from Addictive Behaviors health care professionals and researchers from psychologists and social workers to nurses sociologists and physicians can find more effective methods to fit client needs and develop new insights into the recovery process Public health workers and policymakers will also find informative strategies for tapping this rich therapeutic resource

The Oxford Handbook of Health Communication, Behavior Change, and Treatment Adherence Leslie R. Martin, M. Robin DiMatteo, 2014 This edited volume brings together top notch scientists and practitioners to illustrate intersections between health communication behavior change and treatment adherence

Choice, Behavioral Economics, and Addiction Rudolph Eugene Vuchinich, Nick Heather, 2003-11-13 Choice Behavioural Economics and Addiction is about the theory data and applied implications of choice based models of substance use and addiction The distinction between

substance use and addiction is important because many individuals use substances but are not also addicted to them The behavioural economic perspective has made contributions to the analysis of both of these phenomena and while the major focus of the book is on theories of addiction it is necessary also to consider the behavioural economic account of substance use in order to place the theories in their proper context and provide full coverage of the contribution of behavioural economics to this field of study The book discusses the four major theories of addiction that have been developed in the area of economic science behavioural economics They are hyperbolic discounting melioration relative addiction rational addiction The main objective of the book is to popularise these ideas among addiction researchers academics and practitioners The specific aims are to articulate the shared and distinctive elements of these four theories to present and discuss the latest empirical work on substance abuse and addiction that is being conducted in this area and to articulate a range of applied implications of this body of work for clinical public health and public policy initiatives The book is based on an invitation only conference entitled Choice Behavioural Economics and Addiction Theory Evidence and Applications held at the University of Alabama at Birmingham March 30 April 1 2001 The conference was attended by prominent scientists and scholars representing a range of disciplines concerned with theories of addiction and their consequences for policy and practice The papers in the book are based on the papers given at the above conference together with commentaries by distinguished experts and in many cases replies to these comments by the presenters Addiction and Change Carlo C.
