First Response: The Life-and-Death Decisions of Paramedics Sultan Manzil Alanazi, Talal Manzil Alanazi, Abdullah Matar Alanazi, Tariq Rabeh Al-Mutairi, The world of emergency medical

services EMS is frenzied and every second matters Paramedics and emergency responders are the gatekeepers of life and death and often make decisions that affect the lives of others with little more than a fraction of seconds The gravity of these decisions the outcome is immediate and irreversible is the crucible in which these professionals are forged This book The Crucible of Emergency Care The Life and Death Decisions of Paramedics is an examination of that high stakes setting It honors those that take the route of dealing reaction clarifying the valor expertise and strength necessary to work through one of the most serious minutes an individual may ever confront While the book is damn near all about the technical aspects of the job it s also a meditation on the mental fortitude and emotional endurance required to make decisions that can literally be the difference between life and death Throughout these pages readers will meet people who have endured who have triaged the dying stabilized the critically injured comforted the frightened all in the space of a few moments They will learn about the gasping preparations and extensive training that enable paramedics to act at a moment s notice and the complex moral and ethical dilemmas that can surface when the pressure is on and stakes are highest For paramedics making such sacrifices is not an afterthought it is part and parcel of the profession But at its heart this book is about the people behind the uniforms the grit empathy and expertise that paramedics bring to every emergency The demands of the work are great yet the calling to help others is often greater Life and Death Issues Raymond Plant,Colin Pritchard,1990 **Contemporary**

The Art of Life and Death Andrew Irving, 2017-09-15 The Art of Life and Death explores how the world appears to people who have an acute perspective on it those who are close to death Based on extensive ethnographic research Andrew Irving brings to life the lived experiences imaginative lifeworlds and existential concerns of persons confronting their own mortality and non being Encompassing twenty years of working alongside persons living with HIV AIDS in New York Irving documents the radical but often unspoken and unvoiced transformations in perception knowledge and understanding that people experience in the face of death By bringing an experience near ethnographic focus to the streams of inner dialogue imagination and aesthetic expression that are central to the experience of illness and everyday life this monograph offers a theoretical ethnographic and methodological contribution to the anthropology of time finitude and the human condition With relevance well beyond the disciplinary boundaries of anthropology this book ultimately highlights the challenge of capturing the inner experience of

human suffering and hope that affect us all of the trauma of the threat of death and the surprise of continued life The art of life and death is unlike anything I have ever read in its combination of theoretical ambition and methodological innovation The book is the fruit of Irving's close collaboration with a remarkable group of men and women diagnosed with AIDS at a time when there was little hope of surviving the disease With the help of their words and crucially their art Irving illuminates the complex inner life world created by the trauma of threatened death and the surprise of continued life Inner experience and the challenge of capturing it lie at the heart of this book Danilyn Rutherford author of *Laughing at Leviathan* The art of life and death is a monumental anthropological achievement Fusing long term fieldwork deeply sensitive observation and a refined sense the phenomenology of our deep existential fears of illness of death and the emotional quandaries of having survived a confrontation with mortality Andrew Irving demonstrates how imaginative ethnography can reveal to us the deep contours of human being The art of life and death is filled with gripping narratives not only of pain confusion but also of courage and resilience It is a theoretically informed text that will long remain open to the world Paul Stoller author of *Yaya's story* The art of life and death is a brilliantly engaging piece of work that invites us to rethink life itself and introduces new ways of carrying out anthropological research Through a compelling interweaving of ethnography and theory Irving takes us close to lives that have been lived under conditions of existential uncertainty and recovery This book goes beyond conventional anthropology to offer a thoroughly inspiring account from which we learn not only about what it means to live near death but how art and the senses are implicated in life It will endure as an outstanding example of how do anthropology at its best Sarah Pink coauthor of *Uncertainty and possibility* In this imaginatively conceived book Andrew Irving asks compelling and daring questions on how to think of such categories as experience inner life or subjectivity in the face of imminent death He follows up with a very careful and caring ethnography of how art and life flow into each other Irving achieves perfect pitch in his writing A splendid achievement Veena Das author of *Affliction* Of the utmost importance a very worthwhile introduction to any medical anthropologist because it includes detailed ethnographic descriptions a variety of ethnographic methods and a range of key anthropological themes including a focus on embodied experiences social injustice and how individuals deal with death The narrative style of the book makes it easy to read and relate to This is a great feat given the complex and troubling themes discussed which lead one to question their very perception of life itself *Journal of the Anthropological Society of Oxford* Of interest to anyone looking to explore people's dynamic perceptive and reflective outlook on the world whether looking to the future contemplating death or simply being alive No curious anthropology student or for that matter person would be left un-inspired or non-transformed by this text and I implore as wide a readership as possible *Anthropology Aging* An exceptional achievement that gets under your skin from beginning to end Outstanding interweaving of theoretical critique and aspiration collaborative ethnography and methodological experimentation and innovation Inspiring essential reading for anyone interested in new ethnographic methods to more deeply access the complex inner dimensions of

human experience American Ethnologist An excellent thought provoking book Brilliantly succeeding in drawing both a conceptual and empirical portrait of the patterns in which HIV as a socio historically traceable illness tends to articulate the life death dialectical relation on the discovery threshold of embodied mortality Groundbreaking Mortality This beautifully written and constructed book weaves together sophisticated social theory philosophy art work and vivid biographical narratives to offer insights into how HIV AIDS patients have learned to live a meaningful existence in the pre and post antiretroviral eras while negotiating a terminal illness Basing his book on 20 years of work with adults living with HIV AIDS in New York visual anthropologist Irving has carried out a compelling anthropological study of the complex inner world of those who struggle cope fight and ultimately come to terms with their own impending deaths The author draws on philosophical writings and social theories to contextualize his results but is at his best when allowing his subjects to speak for themselves The evocative words of subjects like artist Albert Velasco provide fascinating insights into the ways that dying persons with HIV AIDS grapple with the mundane like keeping medical appointments as well as the profound reckoning with their own mortality and purpose An engaging read that will enrich upper level and graduate collections on death and dying ethnographic methods and HIV AIDS Highly recommended Choice *Life and Death on Your Own Terms* Lofty L.

Basta,2001-05 This insightful compassionate and lucidly written handbook by a world renowned cardiologist is also a personal testimonial by a surviving cancer patient and an informative guide to end of life issues Dr Basta relies on his medical expertise and first hand experience with a life threatening illness to critique our death denying technologically obsessed culture and gives patients the means to take control of their final days He underscores that physicians the public and society as a whole must come to terms with the unalterable truth that life is finite and that medical intervention beyond a certain point only prolongs suffering When a cure or hope of a better life ceases to be achievable he urges comprehensive palliative care which attends to the patient's physical comfort emotional reassurance and spiritual encouragement To ensure that patients are empowered to provide for their final needs he provides a revolutionary clear simple and medical scenario specific Advance Care Plan which gives each of us the opportunity to execute all important life and death decisions before we are afflicted with a serious health problem and before decisions are irrevocable In sum this book is a tribute to the highly treasured doctor patient relationship Readers who feel that doctors have lost touch with the patient's perspective will welcome Dr Basta's empathy and caring tone **Truth & Beyond: Unveiling the Secrets of Life After Death** Pasquale

Life and Death Decisions Sheldon Ekland-Olson, 2014-11-12 Issues of Life and Death such as abortion assisted suicide capital punishment and others are among the most contentious in many societies Whose rights are protected How do these rights and protections change over time and who makes those decisions Based on the author's award winning and hugely popular undergraduate course at the University of Texas this book explores these questions and the fundamentally sociological processes which underlie the quest for morality and justice in human societies The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions Under 200 printed pages this slim paperback is priced and sized to be easily assigned in a variety of undergraduate courses that touch on the social bases underlying these contested and contentious issues

Matters of Life and Death David Orentlicher, 2021-03-09 Philosophical debates over the fundamental principles that should guide life and death medical decisions usually occur at a considerable remove from the tough real world choices made in hospital rooms courthouses and legislatures David Orentlicher seeks to change that drawing on his extensive experience in both medicine and law to address the translation of moral principle into practice a move that itself generates important moral concerns Orentlicher uses controversial life and death issues as case studies for evaluating three models for translating principle into practice Physician assisted suicide illustrates the application of generally valid rules a model that provides

predictability and simplicity and more importantly avoids the personal biases that influence case by case judgments The author then takes up the debate over forcing pregnant women to accept treatments to save their fetuses He uses this issue to weigh the avoidance of perverse incentives an approach to translation that follows principles hesitantly for fear of generating unintended results And third Orentlicher considers the denial of life sustaining treatment on grounds of medical futility in his evaluation of the tragic choices model which hides difficult life and death choices in order to prevent paralyzing social conflict Matters of Life and Death is a rich and stimulating contribution to bioethics and law It is the first book to examine closely the broad problems of translating principle into practice And by analyzing specific controversies along the way it develops original insights likely to provoke both moral philosophers and those working on thorny issues of life and death

The Mystery of Death: Why We Die? MD Sharr, 101-01-01 The Mystery of Death Why We Die explores the complex and universal reality of death from scientific cultural philosophical and personal perspectives The book delves into the biological processes behind aging and death explaining why life is finite for all organisms It also examines the profound impact death has on ecosystems and human societies highlighting how it connects life and renewal Ethical and medical challenges surrounding end of life decisions are discussed thoughtfully The book uncovers diverse cultural rituals and beliefs about death showing how humanity has long sought to understand this inevitable event Beyond facts it offers reflections on how confronting death can inspire a deeper appreciation for life meaningful relationships and purposeful living Emphasizing death as both an end and a transformation this book invites readers to engage with mortality not in fear but with acceptance and wisdom ultimately enriching their view of life s preciousness **Dilemmas of Life and Death** S. Cromwell

Crawford, 1997 **Life the Human Being between Life and Death** Anna-Teresa Tymieniecka, Zbigniew

Zalewski, 2013-11-11 Medicine s crucial concern with health is perennial but its reflection concepts means change with the advance of science and social life We present here a fascinating panorama of current medical discussions with their philosophical underpinnings and queries as they have evolved from the past The role of Tymieniecka s phenomenology of life is brought forth as the system of philosophical reference **The Life and Death of a Rural American High School**

(1995) Deyoung Alan, 2017-12-22 Published in 1995 this book provides an account of a detailed research project focusing on a rural school in West Virginia Researched from several social science perspectives the book strives to capture intersections between biography and history in a particular public school Burnsville High and Middle school in Braxton County that has been influenced by social political and economic forces eventually leading to its closure The author also discusses how the example of this school can be applied within the framework of American public education and Western culture itself Based on research from unstructured interviews oral histories historical records and intermittent fieldwork that took place between 1989 and 1992 the book provides an in depth look at a specific school offering a basis for discussing rural schools in general It challenges the idea that bigger schools are better and more efficient schools in terms of the individual the social life of the

school and the surrounding community and considers the lack of scholarly accounts available on the issues controversies and social dynamics that surround these vital community matters *Life and Death* Louis P. Pojman,2000 This anthology examines 11 key issues dealing with the beginning and end of life and presents a balanced set of 67 classic and contemporary readings on each of them It is unique in its coverage of applied ethics medical topics and broad theoretical considerations of issues of life and death the sanctity of life versus the quality of life and the meaning of life and death The section on Ethical Theory covers the classic theories as well as ethical relativism to orient students to the nature and importance of ethics The section on the sanctity of life versus the quality of life examines a vital but often neglected issue in moral philosophy Introductions and study questions accompany each major reading Is Death Ever Preferable to Life? Ian Olver,2013-06-29 This is an original contribution to the much debated area of the value that we should place on human life With the euthanasia issue highlighted in the public arena this book argues for a non absolutist highest value on life ethic and how that fits with society s current emphasis on individual autonomy Not only are the arguments for and against placing a highest value on life explored but the way of arguing particularly the use of slippery slopes is discussed By the use of everyday examples the impact of placing a high value on life is explored A futuristic intensive care ward round illustrates the ethical and resource issues with which we would be challenged in adopting a highest value on life policy for medical decisions This book will be useful for students of ethics nursing and medicine as well as those engaged in the public debate on euthanasia
