The Drift Kevin A. Hassett,2021-11-02 Kevin Hassett wasn t always a Trump supporter Before his surprising appointment as the top White House economist he took a dim view of the populist agenda and mercurial temperament of the man who had won control of the Republican Party But experience would soon change his mind As chairman of the President s Council of Economic Advisers Hassett helped Donald Trump bring about a golden age of prosperity in which Americans who had been left behind by decades of failed policy were given the opportunity to succeed The miracle lasted three years until a virus from China killed it Trump proved that a mix of free market principles and enlightened nationalism could revive the American economic dynamo Guided by an unlikely team of brilliant advisers and driven by his own force of will he recognized that Washington bureaucrats had undermined the American dream by inserting themselves into every aspect of the economy These experts were leading us down the path to socialism and Trump fought like mad to turn things around Enjoying not only direct access to the president but also his trust and respect Hassett was involved in almost every important policy debate After two exhausting but successful years he stepped down from the CEA and returned to private life only to return as a special adviser on pandemic policy in 2020 The Drift offers a unique perspective on a pivotal presidency Unconnected and un beholden to Donald Trump Kevin Hassett came to the administration with a critical eye But working with Trump the president convinced him that this flawed leader might be the only man who could halt the drift toward a statist and moribund economy Filled with urgent lessons this book is essential reading as the drift resumes

Present and Accounted For Tom Oestreicher,2004-11-29 From its beginning as a simple research project

through many twists and turns four dedicated twentieth century researchers focus on finding twenty three missing Civil War soldiers who seem to have just vanished Here is a vivid and compelling tale of intrigue with more than just a hint of a government conspiracy and cover up The reader follows Mike Carls and his team as they use modern day technology in an attempt to solve a 130 year old mystery But don't guess the ending

Soda Politics Marion Nestle, 2015-09-07 Sodas are astonishing products Little more than flavored sugar water these drinks cost practically nothing to produce or buy yet have turned their makers principally Coca Cola and PepsiCo into a multibillion dollar industry with global recognition distribution and political power Billed as refreshing tasty crisp and the real thing sodas also happen to be so well established to contribute to poor dental hygiene higher calorie intake obesity and type 2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them Habitually drinking large volumes of soda not only harms individual health but also burdens societies with runaway healthcare costs So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons while also having a devastating impact on public health In Soda Politics the 2016 James Beard Award for Writing Coca Cola and PepsiCo spend billions of dollars each year to promote their sale to children minorities and low income populations in developing as well as industrialized nations And once they have stimulated that demand they leave no stone unturned to protect profits That includes lobbying to prevent any measures that would discourage soda sales strategically donating money to health organizations and researchers who can make the science about sodas appear confusing and engaging in Corporate Social Responsibility CSR activities to create goodwill and silence critics Soda Politics follows the money trail wherever it leads revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world But Soda Politics does more than just diagnose a problem it encourages readers to help find solutions From Berkeley to Mexico City and beyond advocates are successfully countering the relentless marketing promotion and political protection of sugary drinks And their actions are having an impact for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo soda consumption has been flat or falling for years Health advocacy campaigns are now the single greatest threat to soda companies profits Soda Politics provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems

[The Philosophy of Spirituality](#) Heather Salazar, Roderick Nicholls, 2018-11-05 The essays in The Philosophy of Spirituality explore a new field in philosophy Until recently most philosophers in the analytic and continental Western traditions treated spirituality as a religious concept Any non religious spirituality tended to be neglected or dismissed as irremediably vague Here from various philosophical and cultural perspectives it is addressed as a subject of independent interest This is a philosophical response to increasing

numbers of spiritual but not religious people inhabiting secular societies and the heightened interaction between a multitude of spiritual traditions in a globalized age A provocative array of approaches African Indigenous Indian Stoic and Sufic perspectives as well as Western analytic and continental views offer fresh insights many articulated by emerging voices Contributors are Mariapaola Bergomi Moses Biney Christopher Braddock Drew Chastain Kerem Eksen Nikolay Milkov Roderick Nicholls Jerry Piven Heather Salazar Eric Steinhart Richard White Mark Wynn and Eric Yang **Wildside Press**
