

5 Strategies for Improving Writing Instruction

Focus on the Writer.

Instead of focusing on a specific writing piece, focus on each student as a writer.

Provide choice in genre, format, & style for each student. This will help each student to develop their own voice.

1

Let Them Write.

Nothing is more important for students to become better writers than time to write. Try to limit due dates, and let kids continue working on their writing every day. Model by writing yourself.

2

Allow Writers to Find Purpose.

Make writing meaningful. Show students what it means to write authentically for an audience. Show students how to communicate through writing.

3

Don't Just Write, Make Writing.

Take a page from the Make Writing book by Angela Stockman. Let students create in order to write. Storyboards, Legos, Cut & Paste, Sticky Notes, etc.

4

De-Standardize the Writing Process.

A class full of writers should not be expected to produce the same writing. There should be nothing standard about the writing process. Let students figure out what works for them.
